

Your Selections Guide

What Are “Selections”?

Selections refer to all the finish materials and design details you choose for your space. Includes things like:

- Paint colors (walls, trim, ceilings)
- Cabinets and countertops
- Flooring (wood, carpet, vinyl, etc.)
- Plumbing fixtures
- Hardware (knobs, pulls, hinges)
- Outlet/switch cover plates
- Tile (flooring, backsplashes, showers)
- Cabinets and countertops
- Light fixtures
- Appliances

Why Timely Selections Matter

Making decisions early (and sticking to them) is one of the best ways to keep your project on schedule—and avoid added costs. Here's why:

- Lead times vary — Some materials (like tile or specialty lighting) may take weeks to arrive.
- Delays in choosing = delays in ordering = delays in building.

Bottom line: The sooner selections are finalized, the smoother your project will go.
