# Welcome to The Freedom Formula™

Imagine building a business around **skills you own** instead of relying on one paycheck.

Instead of spending months creating products, managing inventory, or handling shipping and fulfillment, you can learn how to build an online business using a proven educational system that's already been developed.

**The Legacy Builders Program isn't designed to make you dependent on one business model.**

It's designed to make you confident in your ability to market, sell, and grow a business.

As you build your business, you're also developing skills that can open doors to countless future opportunities.

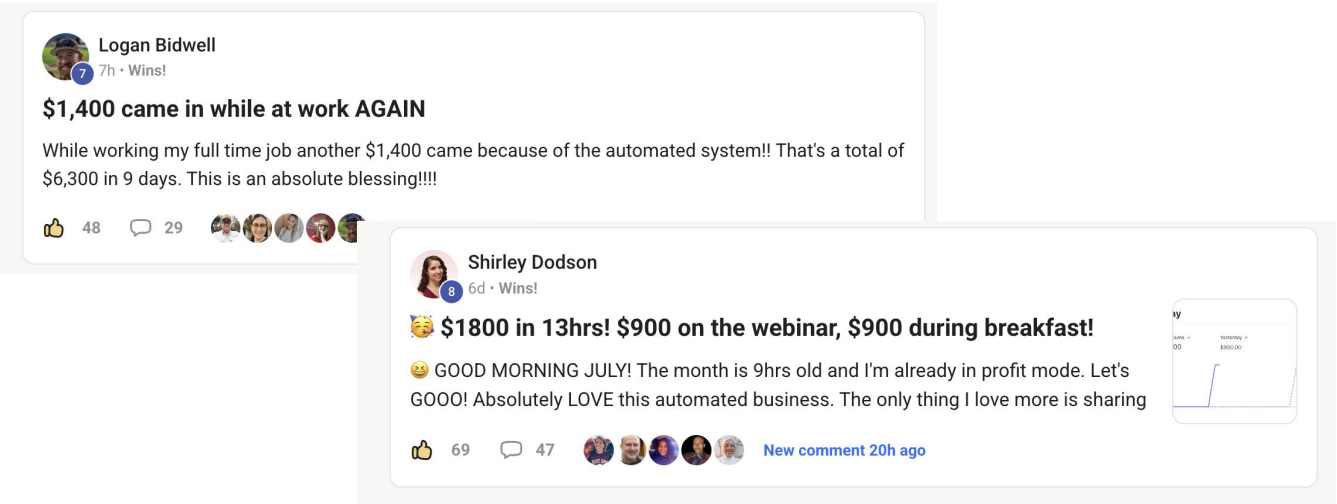
That's why we believe learning the skills is just as valuable as building the business.

One of the things members appreciate most is when they sell a digital program, they keep **100% of the profit**.

As demand for digital education and online skills continues to grow, there's never been a better time to invest in yourself and learn skills that can create opportunities for years to come.

This blueprint will walk you through the simple framework that has helped thousands of everyday people begin building multiple online income streams … one step at a time.

**Let's get started.**



# The Lie We've Been Told About Making Money

Most of us were taught one simple formula: go to school, get a good job, work hard, retire someday. While there's nothing wrong with hard work, many people are discovering that one paycheck alone no longer provides the freedom they hoped for. That's why so many are learning new digital skills that create additional income opportunities, not to replace hard work, but to create more options.

*You've probably seen dozens of “make money online” opportunities before. Here's what sets this one apart.*

| Typical Opportunities | Legacy Builders |
| --- | --- |
| Build your own product or funnel from scratch | A proven, done-for-you product |
| Figure it out alone — little to no real mentorship | Weekly LIVE mentorship and coaching |
| Recruit friends and family to earn | No recruiting — No DMing |
| Make a small commission | Keep 100% of the profit |

***This isn't about hype. It's about handing you a system that already works and showing you exactly how to run it.***

# Let's Address What You're Probably Thinking

### ? *“I don't have any experience.”*

Neither did most of our members. Everything is taught step by step, starting with the basics.

### ? *“I don't have time.”*

Content can be batched once a week, prescheduled, and runs on its own the rest of the time. Most members start with just a few hours a week, tucked into the pockets of their busy days, whenever it's convenient for them.

### ? *“Is this some kind of MLM?”*

No. There's no recruiting, no downlines, and no pressure to sign people up. You earn by sharing a product; not by building a team.

### ? *“I've tried other things before and they didn't work.”*

Most “opportunities” hand you a product and wish you luck. This gives you a message, a content plan, a sales process, and a mentor the whole way.

### ? *“What if I don't have a following?”*

You don't need one to start. The system is built to help you attract the right people from zero.
