

KANGEN UKON

Enagic's Kangen UKON is a turmeric-based supplement. Wild turmeric, recognized for centuries as a natural healer, is widely known today for its potent anti-inflammatory and antioxidant properties.

It has been known in Japan since the Ryukyu Dynasty as a strong antioxidant, and India's ancient Ayurvedic medicine has used turmeric as an analgesic, antibacterial, anti-inflammatory, anti-allergic, and antioxidant for over 6,000 years.

GROWN AND MANUFACTURED IN JAPAN

Enagic has the largest turmeric-producing farm in the world, located in Yanbaru, the Northern tip of Okinawa. Yanbaru is often referred to as "*shizen no Takara*" in Japanese, which means "*nature's treasure.*"

Enagic exclusively owns this turmeric farm, and no turmeric grown there is ever sold to other markets or manufacturers. Enagic farms are 100% free of toxic and harmful chemicals. Thus their Ukon is organically grown.

Enagic's Ukon farms use their gold-standard Kangen Water to water their Ukon. By doing so, Enagic can provide the perfect pH level for their plants to thrive and be nutrient-dense.

Enagic irrigates their turmeric fields with pH 11.5 ionized water, and then they clean and sterilize the Ukon with the pH 2.5 ionized water. Their Ukon is never chemically treated.

**GROWN USING
KANGEN WATER**

ORGANIC & PATENTED

There are ONLY 2 patented turmeric products in the market, and Enagic's is the only organic one. It is the first supplement ever grown by combining Kangen Water, curcumin, and 100% chemical-free Ukon essential oils.

In addition, the soft gel capsule is patented and made with antioxidant ingredients such as olive oil, perilla oil, flaxseed, and tocotrienol.

This capsule protects curcumin from air, light, and humidity to preserve all its properties!

Each capsule is also individually enclosed in a blister pack. This means they stay preserved until you're ready to consume them, ensuring a much longer shelf life.

POWERFUL VITAMIN & MINERAL BLEND

Curcumin

Free radical scavenger and antioxidant

Healthy minerals

Such as calcium, potassium, magnesium, iron, zinc, manganese, phosphorus, and selenium

Olive Oil

Helps maintain healthy levels of low-density lipoprotein (LDL)

Perilla Oil

Free radical scavenger and antioxidant

Niacin

Helps maintain healthy skin and promote healthy liver function

Flaxseed Oil

Promotes healthy cardiovascular function and helps maintain healthy cholesterol levels

Evening Primrose Oil

May help maintain cholesterol and blood sugar levels

Tocotrienol

"Super Vitamin E" with strong antioxidants

Kangen UKON is also the perfect product for people on a plant-based diet. The patented 100% plant-based soft gel capsule is made from a variety of ingredients: olive oil, flaxseed, perilla oil, tocotrienol, carrageenan, and beeswax.

There are two other types of Ukon products offered by Enagic: Ukon Tea and Ukon Soap, only available in some countries. Ask your distributor about the availability of these products in your country!

THE PROBLEM WITH

REGULAR TURMERIC SUPPLEMENTS

The majority of turmeric supplements we see nowadays come from low-quality conventional turmeric farms, where toxic chemicals are widely used for farming. More than 80% of the world's turmeric comes from India, and often, tests of this lower-quality turmeric come up positive for a toxic and poisonous chemical: arsenic.

And secondly, turmeric as a supplement oxidizes almost immediately if not packaged correctly. Because of the way low-quality supplements are packaged, they may lose nearly half of their potency within 48 hours of opening the supplement bottle. Curcumin (turmeric's main active component) is very sensitive to its environment; its properties will decrease quickly when exposed to light, air, and humidity.

The natural solution to these problems is Enagic's Kangen UKON, with their organically grown Ukon and the patented soft gel capsule!

HEALTH BENEFITS OF TURMERIC

Turmeric's primary biologically active constituent is the polyphenol **curcumin**, with **potent anti-inflammatory and antioxidant properties**. Curcumin is very popular nowadays as a powerful antioxidant and is one of the most investigated bioflavonoids.

KANGEN UKON

CREATIVE USES

FACE MASK

Pop a Kangen UKON capsule and rub the paste on your face.

This helps to lower inflammation and revitalize the skin. Leave it for at least 30 minutes or all night long. If you choose to keep it overnight, don't forget to protect your pillowcase with a towel!

TEETH WHITENER

Pop a Kangen Ukon capsule and use the paste as a toothpaste, brushing your teeth as usual.

You can also mix this paste with your regular toothpaste.

Rinse and see the results for yourself!

JOINT PAIN AND MUSCLE SORENESS

Pop a Kangen UKON capsule and use the paste as an unguent. Rub and massage the area with this paste.

As your skin absorbs the UKON, curcumin may help with pain and inflammation in the targeted area.

WEAKNESS, FLU, AND BODY SORENESS

When you feel weak or sick, take 5-7 UKON capsules during the day.

This will boost your body with natural antioxidants and help fight inflammation.
