Your Signature Interior Style:

Relaxed Eclectic

Layered. Vibrant. Authentically You.
You are naturally drawn to spaces that feel personal, cozy, and full of character.

Your ideal home blends meaningful pieces, warm textures, and creative details — creating a space that tells your unique story.

You might love styles like:

- Modern Bohemian
- Natural Farmhouse with Personality
- California Eclectic

Key Elements to Embrace:

- Warm woods, woven baskets, and global textiles
- Earthy, bold color palettes (terracotta, muted mustard, deep greens)
- Vintage finds mixed with simple, modern basics
- Layered rugs, artisan decor, and personal touches

Quick Tip: Start by mixing a few vintage pieces with clean-lined modern furniture. Layer textures and meaningful accents to create a space that feels relaxed, vibrant, and uniquely yours.
