

# My Garden Activity Book

Let's grow together

# Welcome to the garden!

Hello, I'm Jeanette aka "Gigi"!!

I'm so happy you're joining me on this garden adventure. Imagine the warm sun on your face, the scent of flowers in the air, and the joy of watching tiny seeds grow.

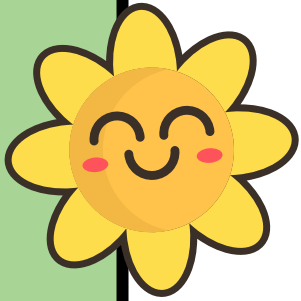

I created this activity book to help children slow down, notice nature, and celebrate the simple wonders around us. It's all about learning to care for plants, for each other, and for ourselves.

Let's pick up our crayons, pencils, and imaginations and see how we can grow together!

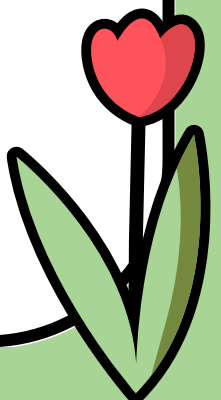

Love,  
Jeanette "GiGi" 🌿

## READING COMPREHENSION

**Read the text below and answer the questions.**

Spring is a beautiful season. It comes after winter and before summer. In spring, the weather gets warmer, and the days become longer. The sun shines brightly, and the sky is often blue. Flowers bloom in many colors, and trees grow new green leaves. Birds sing happily, and bees buzz around the flowers. Butterflies fly from flower to flower. People enjoy spending time outside in spring. They go for walks, have picnics, and fly kites. Children play in the parks and ride their bikes. Many families plant flowers and vegetables in their gardens. Many animals wake up from their long winter sleep. Birds build nests and take care of their babies. Sheep, cows, and horses return to green fields to graze. Everything feels fresh and full of life in spring. Spring is a time for new beginnings! It makes the world bright and happy!

**1-** What comes after winter and before summer?

---

**2-** How does the weather change in spring?

---

**3-** Name two animals that wake up from their winter sleep.

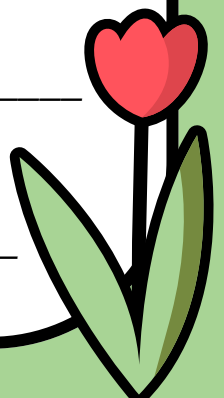

---

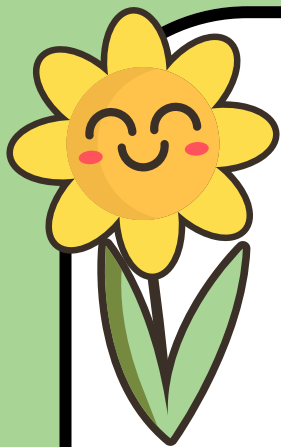

**4-** What do families plant in their gardens during spring?

---

**5-** Why do people enjoy spending time outside in spring?
