

HOW EX-ENGINEERS THRIVE IN THE “DIGITAL GOLD RUSH”

Old School Engineer to Modern Wealthy Grandpa

2026 FAST START GUIDE

Oliver Staudenmann

Hi, I am Oliver,

When I decided to **decline my 4 years Executive MBA application and instead to start exploring how people made income online** - to replace their “9-5” instead -

to get more time, less stress and rather focus efforts on health and family - I didn't believe that such options were for a father & engineer in the late 40s - as I thought it was most nonsense and scams online.

That was up until the point **I looked in the mirror, few months later and saw a 49 years old man - which never again, was going to work an 9-5 job** - without a worry in the world, - in terms of what to do next.

Now, **my online income wasn't the reason for quitting my job, my health issue did.** My online business however, **got me the options to live a life I really wanted.**

First of all, here's how this all came about & **why I do what I do:**

Oliver - proud grandpa & ex-senior engineer - from Norway.

WHY I DO WHAT I DO?

MY VISION

“I have a dream, that all humans can have more options to live a inspired life, with time well spent in their lifetime.”

I believe “time well spent” with family, friends and mentors, sharing good moments with insights, wisdom, enthusiasm, ambitions & excitement - while enjoying and exploring nature’s beauty & mind-reflection capabilities has to offer, is the best foundation for humans to live their most inspired and best life.

I also believe following the old system to make income is broken (aka trading hours for money), the old model don’t add to “time well spent” – it is eroding valuable time and kills inspiration.

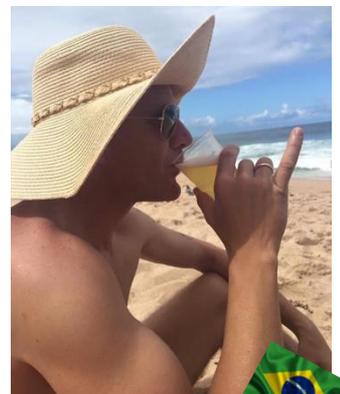

Futhermore, I believe that the computer/mobiles and Internet are some of the best inventions for “normal” people in our modern era.

And when used for good, growth & income generating, while using most time WITHOUT these great inventions or the old model and instead be able to focus on enhancing good health (body & mind) – is a powerful way to build a strong foundation of an “inspired life with time well spent”.

MISSION

My mission is to serve REAL people to find WAYS to live a MORE INSPIRED LIFE, and enrich their “TIME WELL SPENT”.

“My Time Well Spent with Inspiration” (family & nature)

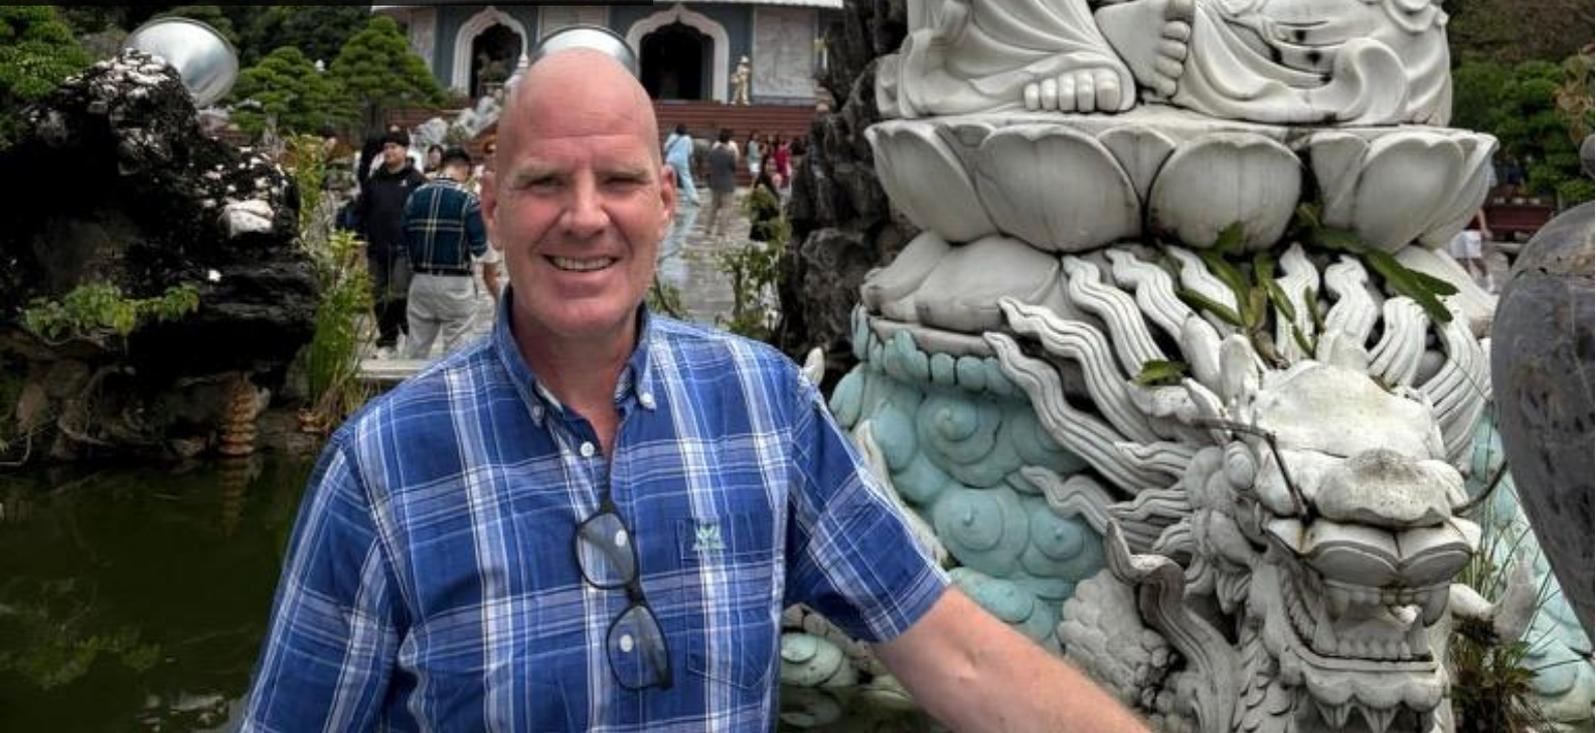

2026: «MY MISSION»

*Da Nang,
Vietnam
03/2026*

I am currently on a mission to share how people can build something that they love and live a more inspired life, just like I did - without using the old, broken model to earn income.

I do this by sharing my own story to impact people who want more options in their own life.

«MY MISSION»

So, let me share some **snapshots** of my life, so you get a better understanding of this retired Engineer and my mission.

This **Swiss-Norwegian grandpa**, will **hold your hand** on your journey, to get you **safe to the portal** of the **Modern Wealthy**.

I promise to do this **without the fear** of not be to able to **open your parachute**, over the Nevada desert, be eaten alive by an Lion in Zambia or be eaten of a Croc while jumping in the Victoria Falls in Zimbabwe, while **doubting the rubber band..**

My “Online Income story” started when I was at the peak of my **Welding Engineer Career**, working hard using most of my time to create welding solutions. I was **48** and the year was **2023**.

I was an quality- and detail driven perfectionist - **a person who refuses to accept any standard short of perfection**. I had worked or lived, in most continents and I spoke five languages.

Even though I had a health issue with unknown reason, **I was focused on “Solving Global Energy Challenges for Future Generations”** – not on my own personal issue.

When I got an brain stroke in August 2023, and in 2024 was diagnosed, I found out that I most likely had MS for over 20 years. Suddenly my degrees were worth 0.

Luckily for me, I have also **been searching for solutions** in other areas than just welding the last 20 years, **hence this guide**.

Now, **retired at 51**, in 2026 - I don't dwell on my past, or **work for the future generations**,

- I Solve Global Real-time Challenges for Real People.

I do this the **Modern Wealthy way** - not with my time. I **don't** sell anything in this guide and I **don't** give financial advice.

On the next pages, **I will share what I found** after my 20 year struggle, and **the solution I use today to generate income online**.

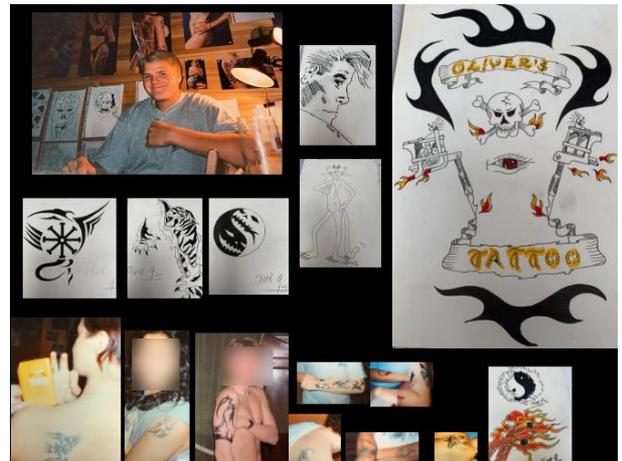

«INVICTUS - MY STORY»

Already as a little kid in Switzerland, I was a **“dreamer” with big imagination**. I was always up for an challenge to find a solution.

However **I didn't like to be put in a box**, I wanted to be **Couragous**.
And **I Feared Medioctry** and **bordom** more **THAN** failing on my path.

At **18**, I had **failed multiple times already** as a **Mech- & Art student** and **“wannabe Tattoo” entrepreneur** (I just used a pen, no real ink & needle, revenue \$20).

My father told me that I should stop dreaming and get a real job, at the local **“factory”**. Good advice, but not helpful for me at the time.

I dreamed about a different life, than be stuck in cold norway working a normal 9-5 and work for the weekends, like he was doing currently..

However **I was inspired by his stories** when he was a **welder in Africa** and **traveled in the middle east**.

«INVICTUS - MY STORY»

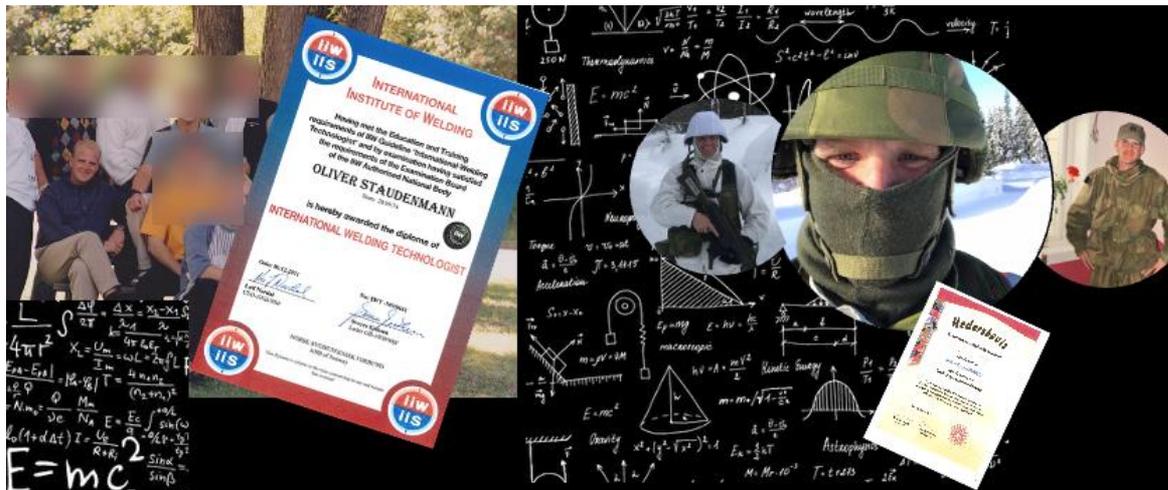

The next 10 years:

Family start, A-student, welder in a factory
- got fat and “divorced”.

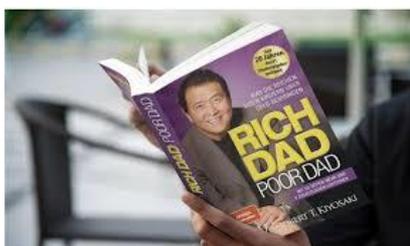

Back to school, A-student, Welding Technologist, Military Service, Mechanical Engineer student – student loan hurt & dead bored of Calculus.

I understood that a regular job trading time for money, wouldn't allow me to live a life that I dreamed about.

When the “Rich Dad, Poor Dad” book ended on my table – finally!
It stated: “Go to school, get good grades and a secure job – is a scam..”

«INVICTUS - MY STORY»

So after reading "Rich Dad, Poor Dad" in 2004 I started my first "real" Entrepreneur journey.

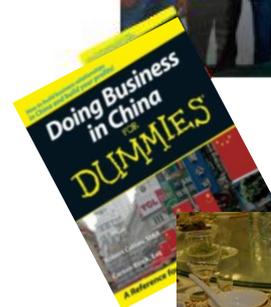

Working hard, travelled, to the UK, Liechtenstein, Brazil & China – to just ending up humiliated and dead broke in 2008.

So, I had to use the old-school education and 9-5 path again.

«INVICTUS - MY STORY»

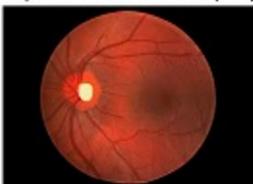

40 years-old, in 2014, I had been an Welding Teacher, now an IWE (International Welding Engineer) employed at Aker Solution in Norway.

I was an modern day, James Bond, an sophisticated perfectionist agent 007, with an eye of details and beauty, working hard (insane hours),with precision & quality with an Brazilian girlfriend, fluent in five languages with no fear – but I got hit with a blind eye and paralyzed on a part of my eye - I started to search for health solutions - wich led me to my next Entrepreneur path (whilst still working as an Engineer in Norway).

Optic Nerve Normal Optic Nerve Atrophy

I was **luckier than most** people. I couldn't complain, **but I was annoyed**.
The covid-19 restrictions kicked in, after my second trip offshore.

I had to move back to Norway from Malta.

But I had the **pleasure to join a great team** and building a part of
the **"Johan Castberg FPSO"** onshore, for a few months.

Jan. 2021 - 47 years, had almost “all” degrees and a CV reflecting my last 2 decades track record in the Industry as a **Welder, Teacher, Welding Engineer, QC-, QA-, Completion Manager** - had shown the world what I was made of. **My Ego was on top.**

Currently I was a Senior Welding Engineer working for Aker Solutions, since I started in 2011: **On time, not one sick day this decade.**

I was worldwide known to be polite, positive and to be able to find solutions to “impossible” welding tasks, mostly subsea and had now solved challenges, both in Europe, Americas, Africa & Asia.

My salary was accordingly to the service I was providing.

Building of Johan Sverdrup Phase II Begins

December 13, 2018

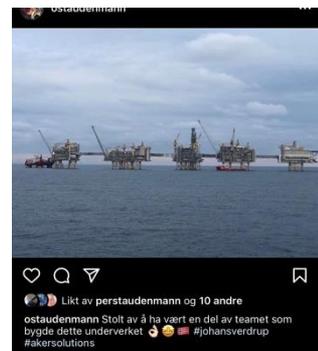

Aker Solutions, Kvaerner and Equinor celebrate the start of the fabrication for the second phase of the Johan Sverdrup development. This is Norway's largest industrial project in three decades.

For the current project (JHS phase II), I had a combo-position as Welding- & QC Lead, Welding Inspector, NDT operator and helping as a part of X-Ray team. I was working a 2/4 rotation (2 weeks work, 4 weeks off/free).

Many people would “kill” for such a job.

Me, grateful, but I had some health challenges with my eyesight and legs, in the cold environment – **I felt uninspired.**

«INVICTUS - MY STORY»

The two years (19-21) , I was working in the North Sea (and on land, during covid-19) - building the biggest platform installation on Norwegian sector. I was Welding- & QC-Lead.

While I was working offshore, I had 4 weeks off. Then I was looking for a hobby, ease different pains and learn new skills – this time – Forex trading.

Trading was ok, I learned to trade, including copy trading and using trading software subscriptions.

As hobby, I joined a gun club (since I thought it was fun to shoot in the military) and learned to shoot a gun to test my right eyesight.

These actions didn't help me. Not only the eyesight, but my legs and my headache, needed attention.

So I had multiple appointments at the doctor and optician. I got some pills (used them for 2 weeks and stopped) and tested various glasses.

I needed to find a health- & new job solution...

Even though I am **really made to thrive as an Entrepreneur** chasing my dream, not operate as an Employee, in a hamster wheel - and I usually go all in to **fight for my dream**.

When I don't thrive, not feeling inspired with health issues "with unknown cause", in the wrong environment – I **take stupid decisions for myself** - like this one:

47 years old, uninspired, currently misplaced my "north star compass" – I applied for a Executive MBA degree.

It was an online program offered by the University in Stavanger (Norway).

This education could be done part-time over a **4-year period**, mostly online, beside my day job as a Senior Welding Engineer.

I was used to invest in myself with my own money, and my own "growth cost" so far, **was at approx. US \$ 350.000.**

So, the estimated US \$34.000 added cost for this project, could I figure out.

After receiving two phone calls, everything changed.

1. My friend and fellow Welding Eng. **Curt**, came with **good advice**, to get back on track
1. 2. My **boss** informed me that I needed to start the **next project, onshore in 4 weeks.**

«INVICTUS - MY STORY»

Jan. 2021: Whilst looking at my **accepted Executive MBA application** and reflection on the last 7 years - asking myself, **where did Bond go?**

Currently no 007 action - I was uninspired & bored.

The main reason I was uninspired, was the fact that **my ventures had failed** and my **hard work** combined with **extremely high risk**, ended up with \$300.000 in bad debt, single, “stuck” in Norway and with bigger health issues than ever.

**I felt like I had got a weak morning-coffee
- with milk and sugar.**

Next: “The call with Curt”

Curt and I had studied and collaborating for the last 20 years. He was currently working as a Project Manager and a Welding Engineer at the same time. He had a Welding related issue. We found the solution.

He thanked me, and said, **we need to get out of this “rat-race”.** He was worried since there several people we know, **who got heart attacks in their 40s,** so maybe we should consider slowing down. **He had also seen my own health “hick-ups”.**

I laughed and I said,

“I agree”, I told him that **I had applied for a 4-years program, an Executive-MBA (Executive Master’s in Business Administration)** to get more options and maybe less stress.

He replied, **“..beside your job?, are you insane? Honestly it is insane, we study and work so hard, whilst there are young people earning insane money online, without education or the stress we face”.** I had also noticed this.

I replied, **“Yes, but you saw how much time, \$ and efforts I used, and the risks I faced as an Entrepreneur last time.”**

He said, **“Sure, but those ventures, weren’t fully online, and things are surely easier today... on social media, it looks that “everyone” makes money by using just a couple hours per week”.**

I replied, **“Sure, but how to build something sustainable online? Maybe we need to start to dance on TikTok, move to Dubai and rent a Lamborghini, for show-off to get followers?”**

He replied, **“Yeah, but we don’ t look like models”. And posting on social media is maybe not our thing. Most of online stuff are sure scams anyway.**

Well, keep me updated with the E-MBA application.

Personally, I think I need to find a new employer fast, to get less stress. “

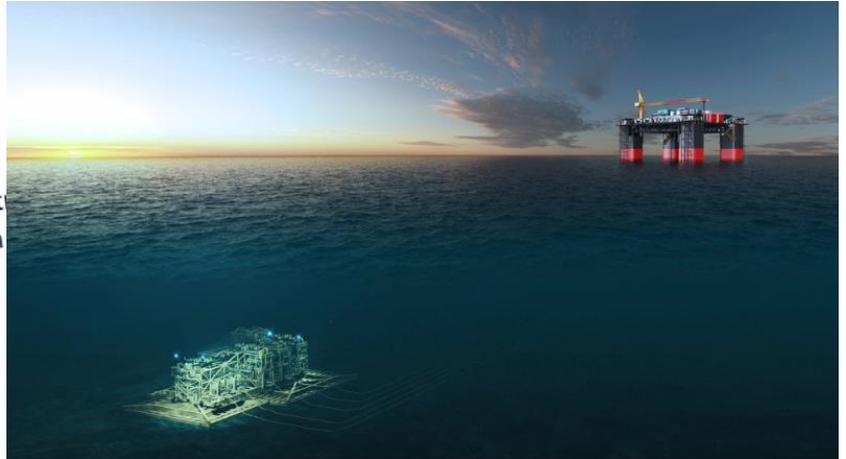

We laughed and ended the call.

Aker Solutions Awarded Subsea Gas Compression Contract

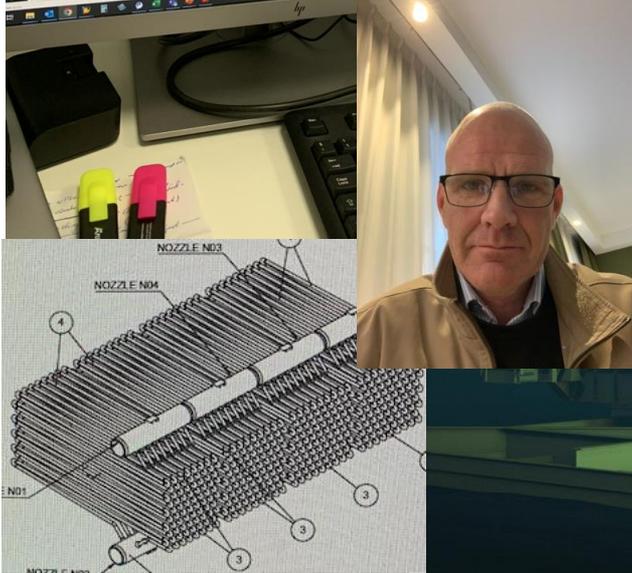

July 6, 2021

Aker Solutions has been awarded a major[1] contract by Chevron Ltd to provide a subsea gas compression system for the Jansz-lo field in Western Australia.

Jansz-lo field

The Jansz-lo gas field was first discovered in April 2000 and is located around 200 kilometers offshore the north-western coast of Western Australia, at water depths of approximately 1,400 meters. The Jansz-lo field is a part of the Chevron-operated Gorgon project, one of the world's largest natural gas developments.

When I started to realise what monster I was up against this time, and that **I was the overall responsible welding coordinator for sites in Norway, Polen and Australia for the project – I declined my spot for the E-MBA.**

I also called Curt, telling he was **right, we don't need more degrees, we needed to be careful about the rising health issues and discover new ways to earn..**

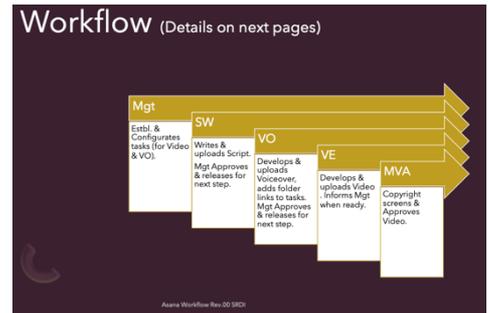

I also said that **I had started with "online income" research, I bought drop shipping and an affiliate courses. He joined with the research.**

Whilst I was doing an Affilite course, Curt called me again. He told me that a young Norwegian dude made good money on «Youtube Automation».

I didn't know what that was..but I liked the word «Automation»

“Automation”:

ONLINE COURSE RESEARCH

Beside the YT project, I did my «make money online» research, I got **completely overwhelmed** with different course options.

I bought them «all» and completed them.

I started to see a **pattern** and **noted down** the different useful elements I saw.

I acted on **one of them**, including mentoring. As I didn't wanted to waste more time than I needed.

Next: "Super Affiliate"

2023 START UP – AFF. & INSTA MARKETING v/ 1:1 Mentoring & Digital Google Search

Since my brain was solely focused on business- and marketing models, aka. alternatives for Networkmarketing at the moment.

I invested in mentoring for affiliate marketing with trending clickbank products and for Instagram Theme pages.

These programs were **not** with a «just» \$1000 prize tag each.

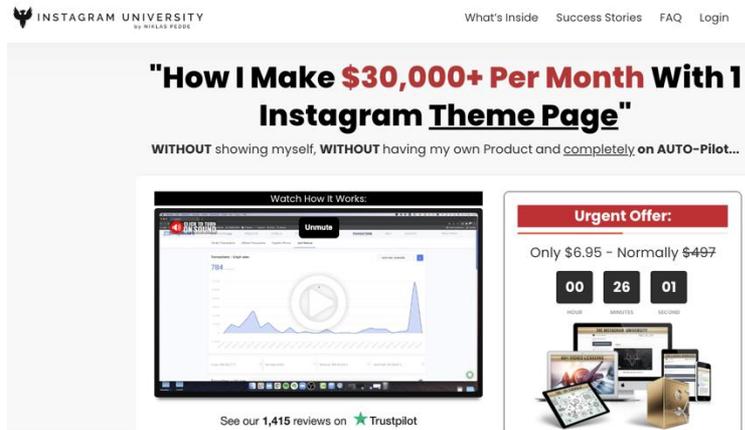

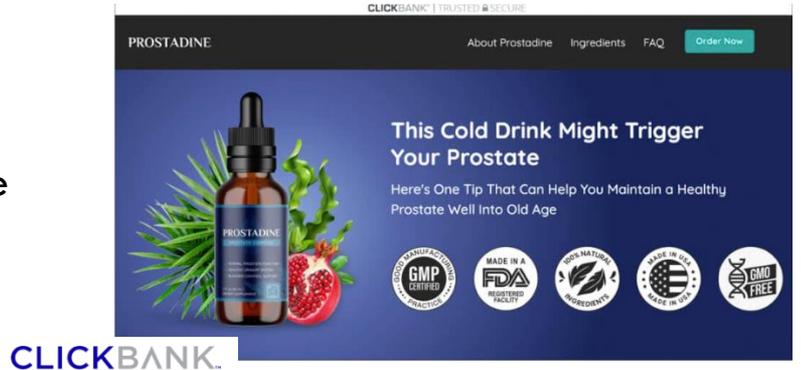

But a whole **new world opened for me.**

In terms of learning how «**yousters**» make \$ millions online and how they could afford to have residences in Dubai, Monte Carlo and Geneva, at the same time at 27 years old.

After speaking with different people I had **new knowledge**, that you don't learn at school.

They had **more options than me**, they were not stuck just because the government force new ideas like vaccines or masks, nor new tax regulations or cold climate was a problem.

I was intrigued.

2023 MAY - PROGRESS?

Intrigued yes, but not ready to take on my suite and collapse my next villa.

Nor ready to drive in **Dubai**, asking: **“What colour is your Bugatti?”**, like Andrew T.

2023 MAY – PROGRESS.

I had done what I **needed to do** – while still **searching** for what I really wanted. **Youtube Automation & Clickbank Affilite marketing – set on hold.** Instagram Theme Page – **not** acted on.

I didn't want to burnig ad budget on products that I was unsure of, with small margins, or that Google closes my ad accounts due to my limited knowlede.

Manage team the Philippines, India or posting photshop on Insta, while spamming DM's the globe. Or an "Hustle culture" with outburn options. **NOPE.**

I **wanted**, like Bond, a Digital Business with excellent fire power and **autopilot** option. So I could execute my missions with smooth precision, and an **relaxing** "while sailing in calm waters" option.

I wanted **elegance, peace** and finesse.

In my **next start up**, "Stuart/Q" could provide **the right vehicle** for me.

**ONLINE
INCOME –
THE
SOLUTION**

During my online courses & ventures,
I saw a video from a **english guy, Stuart**,
he mentioned a **“Modern Wealthy Way”** that normal people use.

What he stated - got my attention:

“I’m going to show you how to build income streams online, that can generate cash flow into your bank account like clockwork every single day, and in many instances, once properly set up, on complete autopilot.

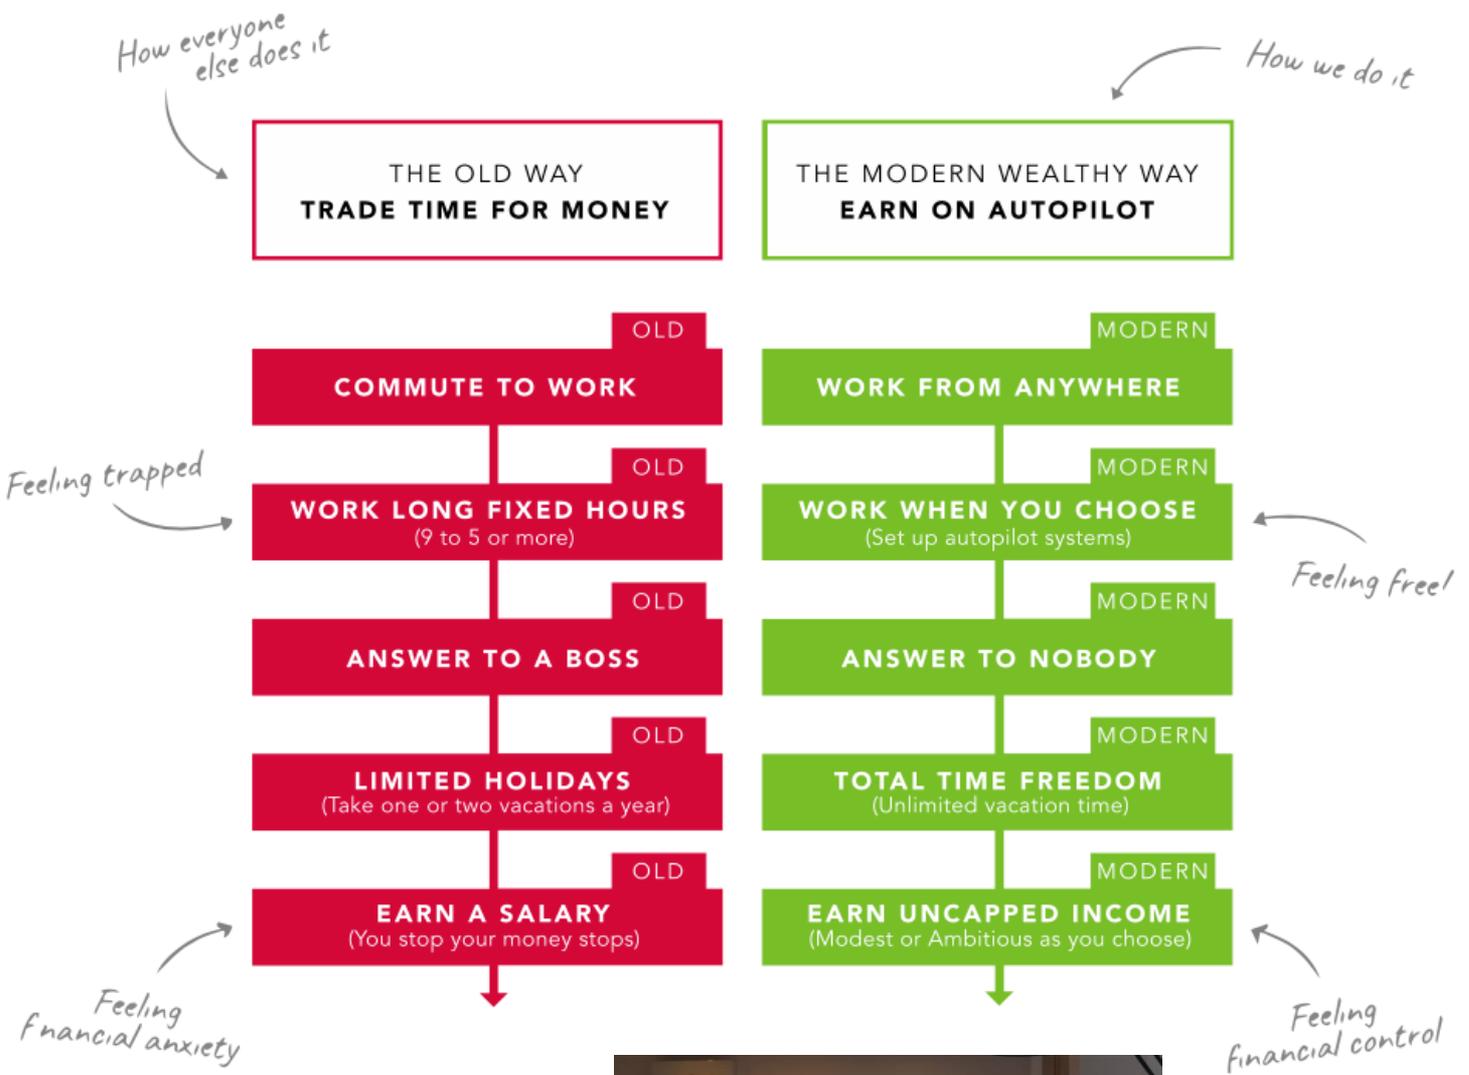

And, yes, even if you’ve got no previous online business experience, or a product of your own to sell or, frankly, any idea, how generating income online works.”

2023 THE «OLD WAY IS BROKEN»?

When I had seen how the “Modern Wealthy” way to have more option, and live their best life possible, by using an Online Business. They believed the old way was broken.

My next mission had started.

Even I wasn't cool and cruising in Dubai, like Tate, I was **extremely satisfied** in Egersund, Norway. **Welding was on schedule.**

This project was never boring, I had the pleasure to check progress (and my eye vision on the shooting range) in **Gdansk** and (sun) in **Perth**.

I was ready for 3 weeks vacation, I had **just one work task** (Teams meeting next week, **Monday 21st August**).

And a **small private 5 point todo list**, with some things I needed to resolve asap.

1. Wash my car.
2. Apply for next project position, Sept. in Dubai.
3. Check overall strengt at the gym, with "my" PT.
4. See the optician – check right eye.
5. Get help with ad campaign on my DB.

Todo;

- 1. ~~Wash my car.~~
- 2. ~~Apply for next project position, Sept. in Dubai.~~
- 3. Check overall strengt at the gym, with “my“ PT.
- 4. See the optician – check right eye.
- 5. Get help with ad campaign on my DB.

Aker Solutions Wins RfP Contract from Alterra I

January 9, 2023

Aker Solutions has been awarded a complete upgrade of the

...[1] contract for ...
...ng production s...

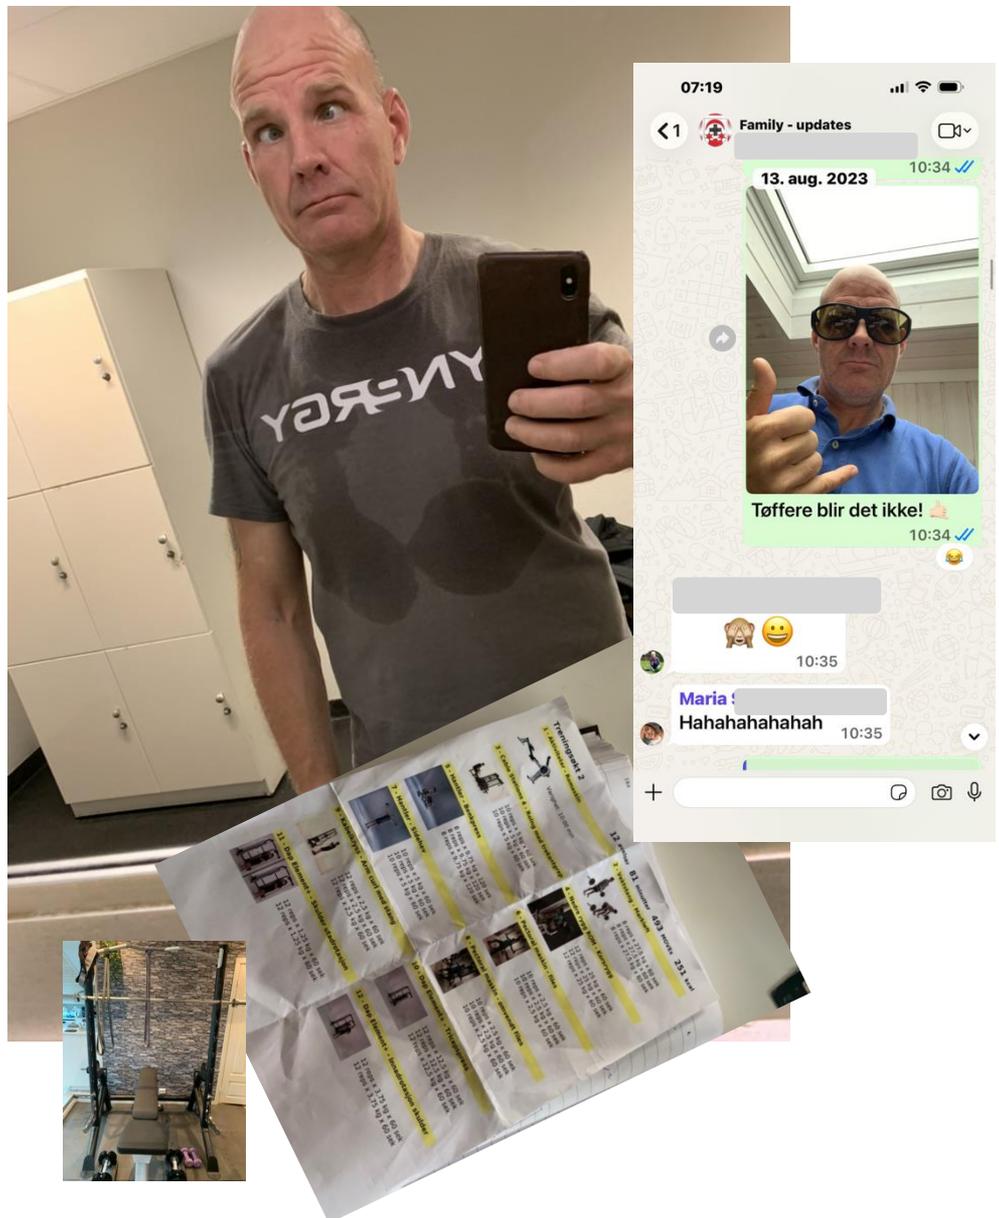

Todo;

- 1. ~~Wash my car.~~
- 2. ~~Apply for next project position, Sept. in Dubai.~~
- 3. ~~Check overall strengt at the gym, with “my“ PT.~~
- 4. ~~See the optician – check right eye.~~
- 5. Get help with ad campaign on my DB.

PT:
“Have you had an injury?
Your right leg has just 60%
force” compared to the left.

Opt:
You have cataract, but
about the headache, you
need to se a doctor. Try
these glasses, they might
help”.

Me:
Cooler than the rest, “ok”.

Todo;

- ~~1. Wash my car.~~
- ~~2. Apply for next project position, Sept. in Dubai.~~
- ~~3. Check overall strengt at the gym, with "my" PT.~~
- ~~4. See the optician — check right eye.~~
- ~~5. Get help with ad campaign on my DB.~~

I had built my Digital Business **three months earlier** and was testing campaigns on my own.

Team "Q"

Bond & his DB.

Now I had invested in mentorship, as I saw that I used too much time, **patience was not on my side.**

I had available 12 mentors, who could help me in different areas in my business. **After the 3rd Audit of my business,** I was ready to re-launch.

My **new startup was ready. Todo list completed.**

2023 16 AUGUST - NEW START UP. BUILT.

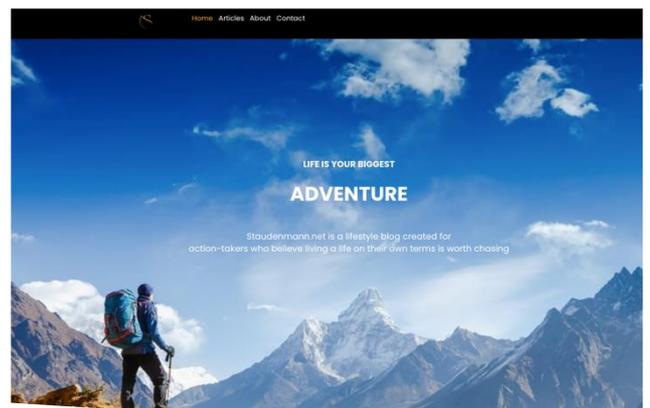

“Stuart” and the team,
had helped me to **build my own DB**,
the last 90 days.

An **fully loaded** Online Business.

Elegance with **autopilot option**,
so I could get peace – if I wanted.

I was **excited** to **test drive**.

2023 17. AUGUST – TEST DRIVE, OK – LAUNCH.

I had **started vacation** and tested all pieces on my **“Online Autopilot Business”**, my own DB.

And was ready to launch my first **“income stream” campaign**, with google search ads.

Or like the **“family group”** saw with my messages:

18:50: Enjoying the gray weather (no rain yet)

18:51: Ready for the campaign launch tonight.

19:00: Last test run done, ready to create Google ads now.

MY HEALTH
“HICK-UP”

I couldn't see on the right eye.

I couldn't read.

I couldn't write.

I couldn't speak.

I couldn't use my mobile.

I couldn't use my mac.

*Bond had a minor challenge
& was confused – he had a Brain Stroke.*

2023 20-21. AUGUST «BOND OFFLINE»

Close call. “Sound of Silence.

*Drove to work. No sound. **Bond smiled**
and drove home.*

2023 22. AUGUST THE CAPTURE

After a wild ride ,
they got him.

They tried to get
him to talk.

No success.

In the meantime, the team
had not been able to
contact him.

The rapid rescue response
team was set in motion, to
find him.

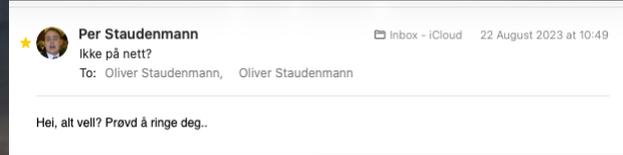

2023 22. AUGUST RESCURE TEAM MOBILIZED

9 locations, 4 control rooms,
2 cars, 2 planes, police, medics
& much brain power.

- The 4 days rescure mission
was finalized.

Bond status:

Brain stroke, with aphasia.
Two ruptured puls arterias.

Can't speak.
Can't read.
Can't write.
Can't see on right eye.
Bad walking balance.

**But he understood
what he heard!**
(all 5 languages)

No sound,
but thinking extremely hard.

Potential: MAX.

Training started.

Writing, reading, «Leg day»,

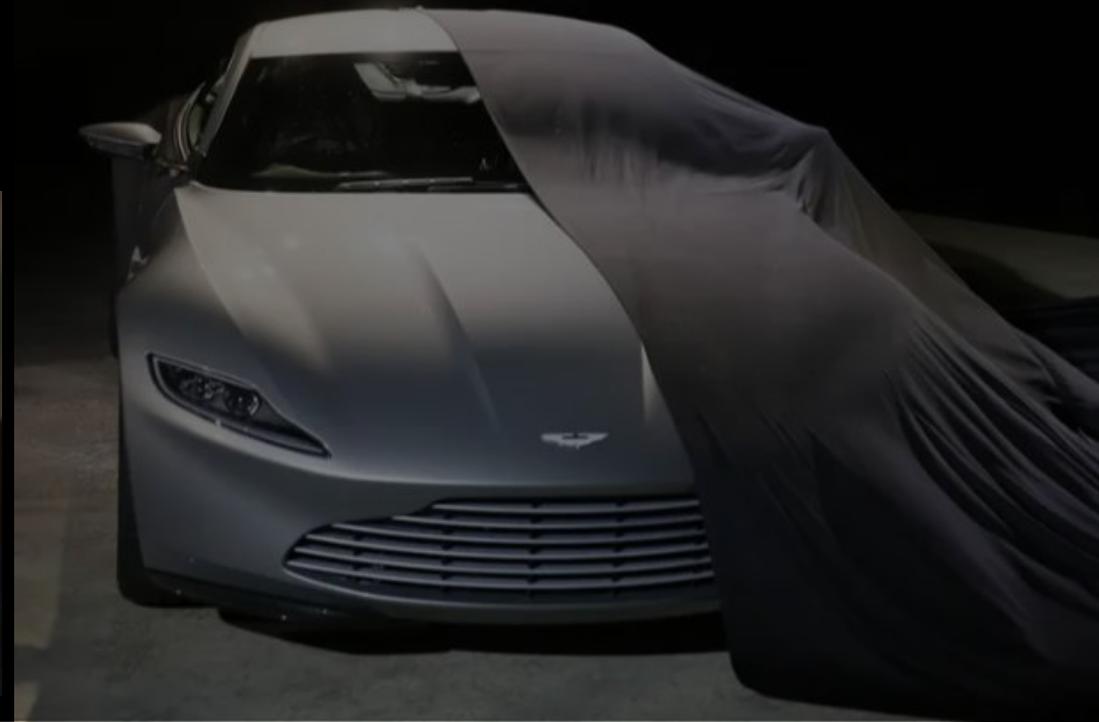

Watching webinars:

- Digital «Marketing Mastery».
- AI tools developments.

A collage of social media posts and messages. It includes a WhatsApp message from 25. sep. 2023 with a purple bubble containing the text: "Hei, ok. Snakke 1%, skrive 10%, lese 20%, hører 100% 🙌". It also features a Facebook post from Maria Staudenmann dated 1. sep. 2023, showing a man in a red shirt sitting on a bed with a laptop and a book, with the caption "God helg! Vi øve 🤙👍". Other elements include a video thumbnail of a medical device, a video of a laptop on a bed, and a video of a man with glasses and a laptop.

2023 22. SEPTEMBER – AUTOPILOT TEST DRIVE

The last month, Bond had been in the abyss. A “minor trip to hell and back”.

Life had given him a **possibility**, to really test if his **mindset** was up for the task.

His **daughter** had **parked his DB** when he got his brain stroke a month earlier.

Even though he was in the **hospital**, had **lost his driver licence** and couldn't work.

He had learned to **operate his mac** and **write some words**.

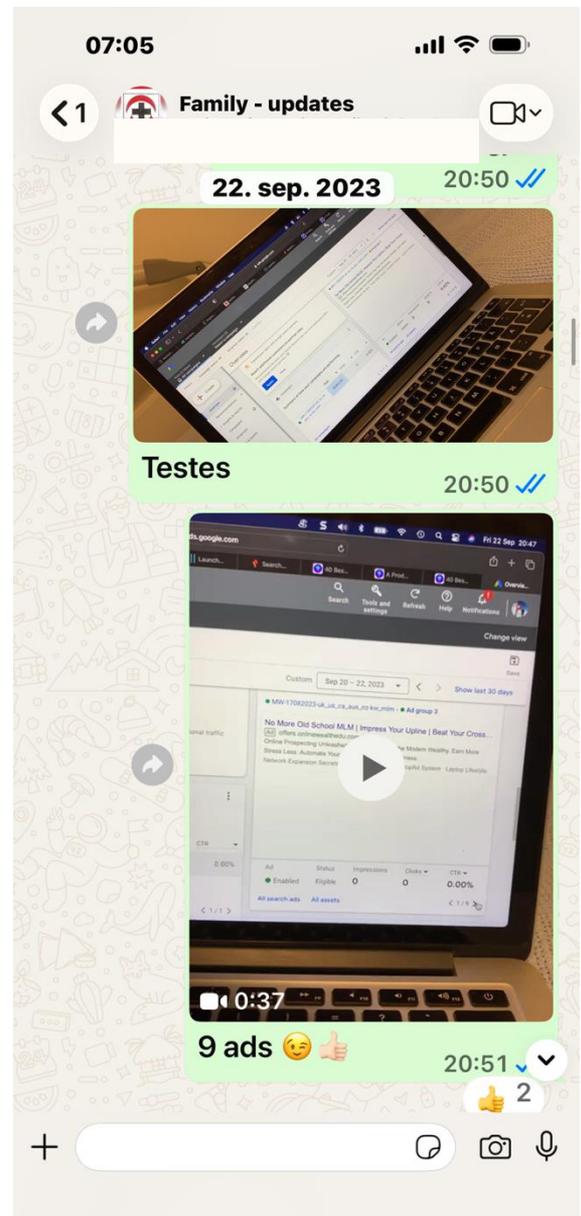

It was time to **test** the “income streams on **autopilot**” function.

Was “**Stuart**” right?, or was it just the usual marketing hype?

Curtain off:

20:50: “Testing” 20:51: ”9 ads”

The **V12 rumbled**, and I got a **big smile** on my face..

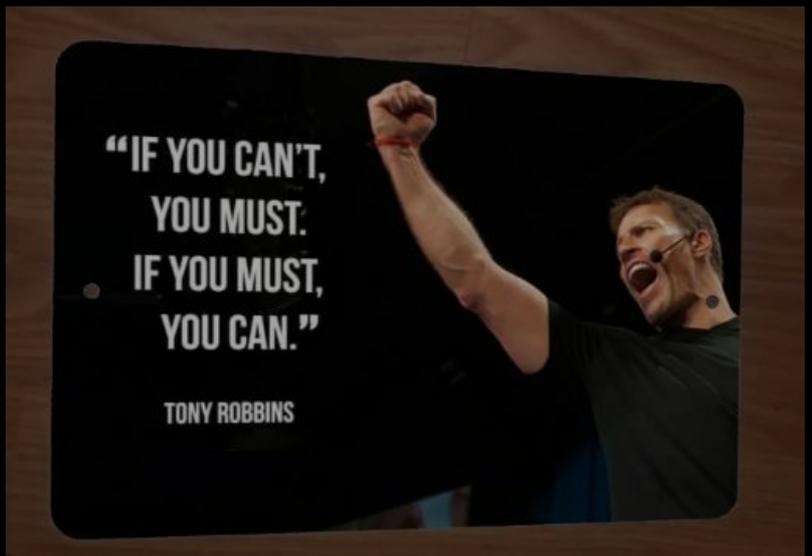

2023 28. SEPT 49Y. BOND CAN! READ.. (NORWEGIAN only)

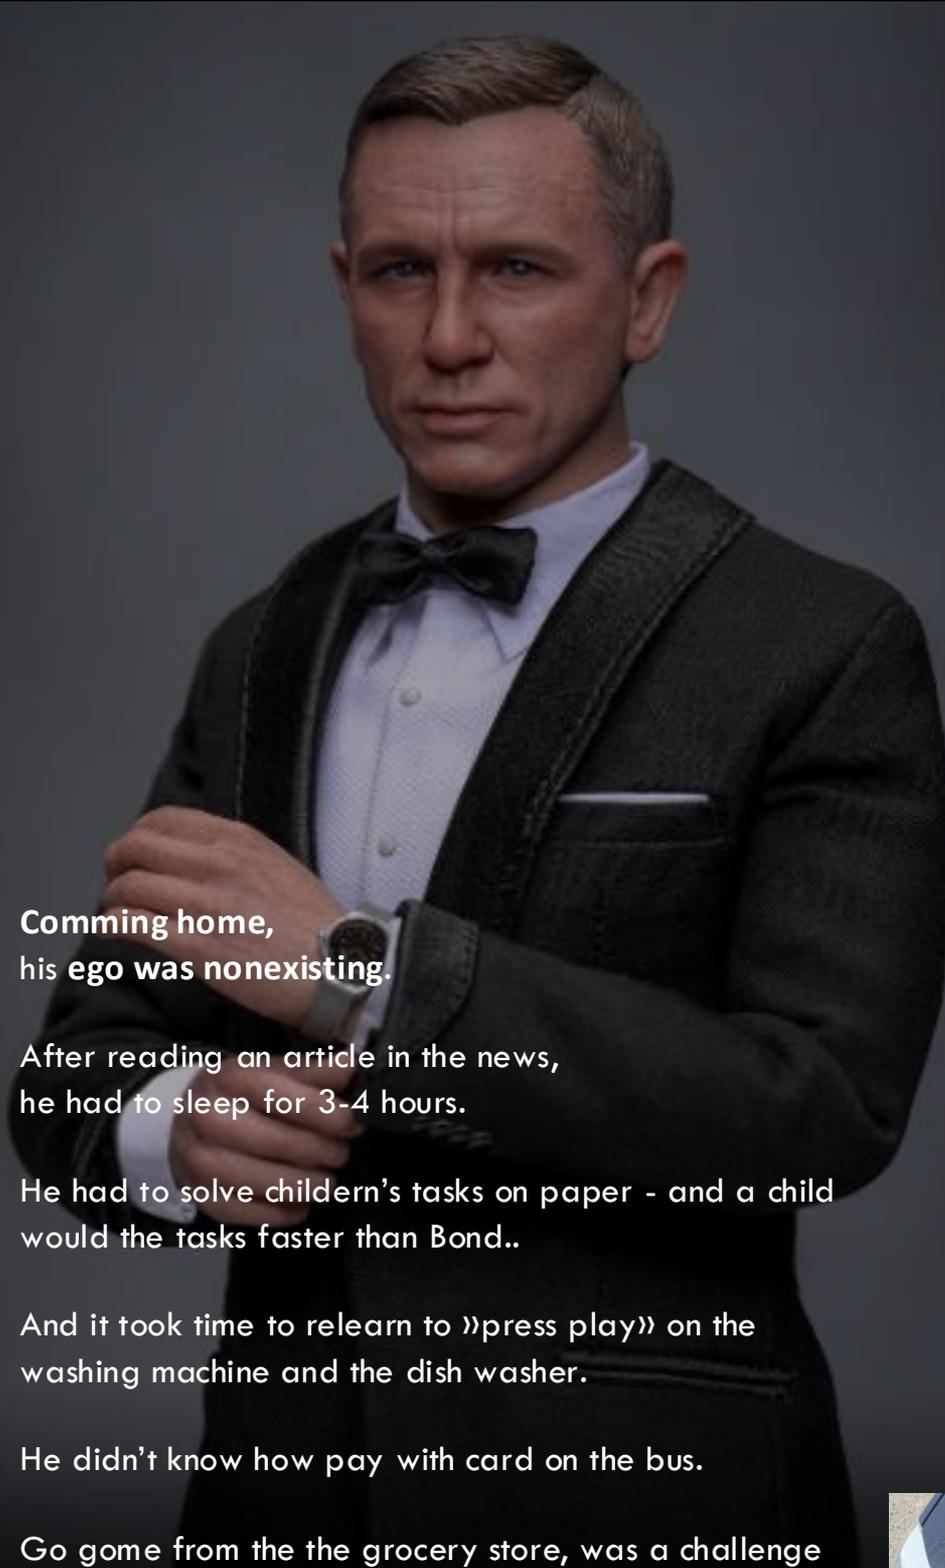

Steps forward.

2023 10. OCT. BACK.

Comming home,
his ego was nonexistent.

After reading an article in the news,
he had to sleep for 3-4 hours.

He had to solve children's tasks on paper - and a child
would the tasks faster than Bond..

And it took time to relearn to »press play» on the
washing machine and the dish washer.

He didn't know how pay with card on the bus.

Go gome from the the grocery store, was a challenge
due to the walking balance.

Even though his ego was destroyed, the **creativness to
find solutions**, was not.

Driving his car was pri. no.1 – check.

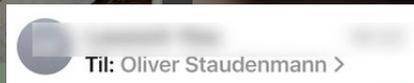

Autopilot

Not all was on autopilot in his life.

But he noticed that his DB was working in the background, while he was recovering.

Oliver, you have made a new sale!

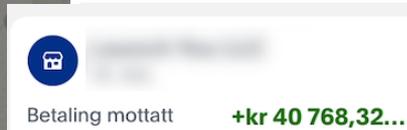

has sent you a payment

Hello, Oliver Staudenmann

has sent you kr 7.211,42 NOK

Note from

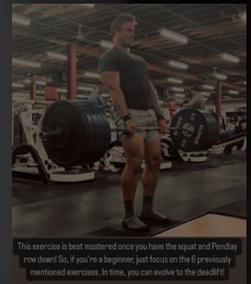

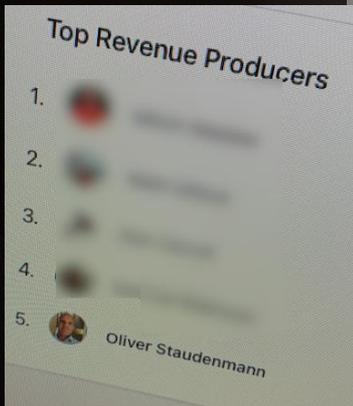

Thank you for being with us!

Congratulations!

You have made a sale! **has just ordered**

Keep up the great work!

He was curious on the test audit in Jan 2024.

2024 2. JAN – AUDIT: TEST RESULTS

After a **100 days autopilot test drive**, the team looked at the data.

Q: 3,63x ROAS.

Bond: **Hmm..**

Q: Since you didn't just invest in a tank of gas, **but in your online campaign** – you have received **approx. 363% ROI in 3 months..**

Q: Let me explain, to get such a Return Of Investment, the 2nd Jan 2024 - it would have to use 15-20 years in the Stock Market (S&P500) – or 1-2 years in BTC. According to AI:

Summary – Up to *January 2 2024*

Asset	Jan 2 2024 Level	Time to ~+363 % Return
S&P 500	4,742.83 <small>StatMuse</small>	~15 – 20 + years of compounding (long-term)
Bitcoin	~\$45,098 <small>StatMuse</small>	~1 – 2 years depending on chosen base price

Bond: So, the **“autopilot system”** works smooth?

Q: **Not smooth yet**, we need to adjust some KPI's.

2024 2. JAN – B: 363% ROI, NOT SMOOTH DRIVING YET?

As Bond watched the data, he noticed that there was a «lucky» driver for the final ROI for the test drive – «Q/Stuart» was right (as always)..

I decided to contact the Mentors, when I had learned to write english again (speaking seems to take more time).

THE MODERN WEALTHY WAY

Sure, ROAS & ROI is important in business.

But, like Bond, I was curious if earning on autopilot was even possible.

I had learned that the “Modern Wealthy way “was to use an online business, but hearing and believing are TWO completely different things – for me.

When I got this proof, I had much to think about – mostly what this really means to people, like myself.

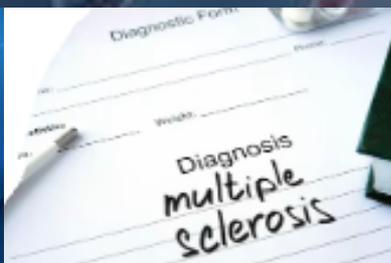

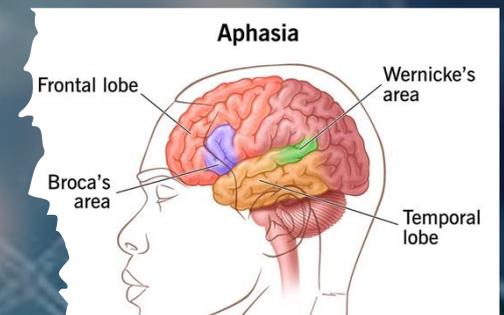

While I was playing strategic in the Broca's area.

The real villain, that had operated in the shadows for over 20 years, revealed himself.

The Multiple Sclerosis diagnosis made me alter my strategy.

The mentoring call to adjust KPIs for my business, was scheduled.

2024 CLARITY & WINS

The rest of 2024 provided some **clarity, wins & a great treasure.**

Since »my» mentors are located globally, I got help from Sweden. I sent this post and asked how my setup was different from the setup which generated \$100K in 5 months. Solved, I got more clarity.

Even I was at the hospital to learn to speak by looking pictures, I also got back my drivers license.

After «test» working, it was clarified that I was not anymore the Egeiner I was priously. I understod that Bond had to find different missions.

But the biggest impact this year, was that my daughter extended our family bloodline with yet a beautiful girl.

2025 THE POOR DAD CHALLENGE

2025 was **the year of thinking** and to **continue failing** (weight training/speaking/writing) – **without loss of enthusiasm.**

And, since I was a “normal” person in the middle class with a job (according Kiyosaki’s book). How without a job?

I was wondering how to live an **extraordinary life** since **I still feared mediocrity and boredom.**

I worked hard to find my new personal identity – I had no clue.

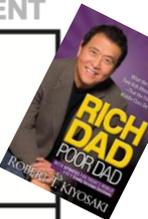

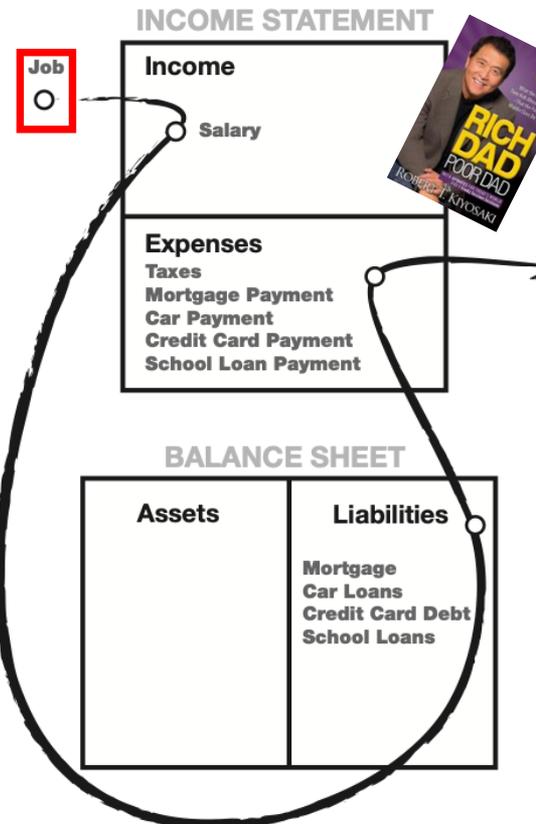

I chose to rely on the quote:

“Roads were made for journeys not destinations”

- Confucius

«the cashflow pattern of a person in the middle class»

 **2026: OLI'S RESURRECTION – ALL IN.**

2026 started great, full clarity, but no more job for me.

As Napoleon Hill stated: «*Opportunity often comes disguised in the form of misfortune, or temporary defeat*».

My «temporary defeat» turned into an second chance, it felt like an resurrection – I was ready to climb higher mountain tops.

According to Kiyosaki, I also slid into the pattern of the rich.

Income from different scaleable assets, zero liabilities.

I have location «freedom». And all the time in the world - to rebuild my health.

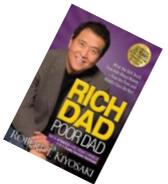

I can continue my missions in peace and with clarity.

I didn't dream of a such resurrection possible in 2025.

Now: *All in – smarter & faster – game on – next top!*

TIME vs. ONLINE BUSINESS

When I learned how to earn income by using an online business (assets), rather than my time with an job, I saw how the Modern Wealthy differ from the middle class.

I saw that these skills are much powerful, and valueable than all I had learned at Engineering school.

I had also cracked the «Rich Dad» code of the Robert Kyiosaki teachings, that I had tried to figure out (without investing in real estate) for two decades.

Stuart taught me why, what and how to do it, in a matter of weeks.

When I realised what had happend, I partnered with him, so I could share his knowlegde to others.

So, If you would more options in your life, The fastest step is to hear what Stuart has to say here:
