ASSEMBLY (LETS PUT THIS BEAUTIFUL CARD TOGETHER)

Liquid glue is advised for this project

Take the Crumb Cake arched card base and glue the double arched DSP together with floral showing

Next take the Pretty in Pink arched card base and attach the single arched DSP to the RIGHT side

Then attach the Pretty in Pink Arched card base into and on top of the DSP on the LG Crumb Cake card base on its RIGHT side. Carefully align the bottoms of both Arched bases together. Now glue in your Basic white arched panel onto your Pretty in Pink Arched base on its LEFT side

Close card and glue LG) DSP woven textures Arch directly in the center of the Crumb Cake Arched FRONT. Close Pretty in Pink arch Glue SM) woven textures DSP to front, * Be mindful that both woven Arched are even across the bottom aligning up with each other. POP-UP your Floral if you want it directly in the center. I used liquid glue and attached my Floral so it would hang over and off the front arched panel into the second layer. (so snazzy) Glue on the Basic White Sentiment Arch and Embellish with the Brushed Brass Butterflies !!
