[DAFFODIL DELIGHT STAMPIN BLENDS COMBO PACK](#)

### **EMBELLISHMENTS**

[SHADES OF GREEN HEXAGONS](#)

[BAKER'S TWINE ESSENTIALS PACK](#)

## TUTORIAL

CUT ALL CARDSTOCK & DIE CUT ACCORDING TO THE RECIPE!

See recipe for **ALL** die cutting & Cardstock cutting. (see photo samples)

### BASE

Take your Summer Splash CS, using your bone folder to crease the score line. Glue one of the Basic White Mats onto FRONT of Summer Splash CS (set aside) If you have the two-toned CS, it will work perfectly for this project. I have not used it YET...

### EMBOSSING TIME

Take the Coastal Cabana CS insert into the Mini Corrugated 3D Embossing folder. Run through machine. Cut down to 3 ¾ x 5 (set aside)

### COLORING TIME / STAMPIM BLENDS

I used Melon Mambo for LG floral images, Old Olive for the stems. Then just color the center of the lacy white floral with Daffodil Delight. We want the white to stay white to stand out and highlight our white mat.

### COLOR / INK DESTRESSING

Using a blending brush, swirl off ink before you go directly onto the labels. This will prevent any blobs, or an area of ink saturation that you don't want. (ad color until you're happy)

### ASSEMBLING THE FRONT PANEL

Glue down the Corrugated embossed Coastal Cabana panel on top of the Basic White mat. Place ALL 5 labels down and do a dry run to see how much of a margin you will need to fit the panels. When it suits your liking glue directly onto the embossed panel. NOW using liquid glue put dabs behind BOTH floral images. Start with the top floral first, THEN lay second one down to cover stem. Place down swooping from top LEFT towards bottom RIGHT of the card. Make sure and keep the bottom stem on the last label. Ad Sentiment of your liking. I used HELLO and die cut with SM label die.

### INSIDE DECORATING

Take the 5-SM hearts and glue onto the 5 LG hearts. Glue them towards the top of the heart, because we will be cutting the bottoms off. I used a grid mat to line up the hearts along the LEFT side of the Basic White panel. (see photo) Once you have your placement glue directly down. Flip CS over and cut overhang off with snips. Glue the Sentiments down and stagger them in a whimsy style. I cut the 6-word long sentiment to have 3 separate sayings. I thought this was a fun and clever way to surprise your card recipient.

### EMBELLISHMENTS

I found the Shades of Green Hexagons to be a perfect Bling for this project. I also tied a white twine bow. Adhered with a rolled up mini glue dot.

THANK YOU MY STAMPIN FRIENDS, HOPE YOU ENJOYED MAKING THIS CARD!
