## TUTORIAL

CUT ALL CARDSTOCK & DIE CUT ACCORDING TO THE RECIPE!

See recipe for **ALL** die cutting & Cardstock cutting. (see photo samples)

### BASE

Glue floral DSP to front of **short** base & glue blue distressed wood DSP to front of **tall tower** base. (see photo) Use your bone folder and crease all score lines. I used liquid glue to adhere bases together first press all folded pieces down flat glue tower to front bottom of short base. I glued mine to be centered in front of the 4 ¼ wide shorter base. Measure 3/8 inch in from the bottom corners on both sides to make tick mark, then secure tall tower between the ticks. (see video for details) Flip over and glue the bottom of tower onto the back of the short card base

### DIE CUTTING

To clarify which circle dies I used. Let's use this recipe. There are only 4 circle dies with the same borders around. I used die's #1, # 2, #3. They go like this; #1 Basic White CS, #2 Country Woods DSP, #3 Basic White CS

**INK DESTRESSING FLORALS:** I used Berry Burst ONLY, I began using it very light and swirling across the florals. THEN went in full strength in the centers with my blending sponges. I was able to just roll the MED roses directly onto the ink pad to darken and distress the edges. **FOLIAGE:** I used Misty Moonlight & Lost Lagoon; I began using my sponges and dabbing it onto the Basic white cardstock in a pattern that mimics the foliage on the Floral Charm DSP. I used copy paper to mask the areas I didn't want to color, Like the berries & when using one color, mask the other so ink doesn't go where you don't want it to. It will blend with a little bit of practice and working with the inks.

### COLORING TIME / STAMPIM BLENDS

Take the 4 x 4 piece of Basic White and stamp your selected sentiment. I used Happy Birthday. Stamp the floral image in the bottom right corner. I used Melon Mambo (light) for flower, center in Pretty in Pink (light) 3-leaves in Misty Moonlight (light). 2-leaves in Lost Lagoon (light)

### ASSEMBLING THE FRONT PANEL

Take the 2-LF foliage glue down at 11 o'clock & 5. Glue 2-MED foliage at 1:00 & 7 ish. Directly on the DSP (see photo) Glue down Die cut circle #3. Place the 2-SM greenery ends we cut off at 4 & 9 o'clock. **(I would change that to 3 & 9)** Cut the 2-rose blooms in half arrange around 1:00-to-9o'clock. Place DSP Die cut circle #2 over rose blooms. Place sticky notes on top of the designed area. This will pick up what you have arranged. (see photo) I used mini glue dots to secure them from the back. Then add additional glue in the center and press down. Tie together the 2- LG roses with stems with blue twine. I used Stampin dimensionals on the heads of the flowers and glued the stems straight down on top of circle die #1. Used dimensionals to place down Die cut #1. Tie twine bow and use the twine previously wrapped around the stems and tie a double knot to secure the bow. Wrap twine around the bottom of front base. I doubled the twine and did a knot.

### EMBELLISHMENTS

I placed both blue and Berry Burst Charming shimmering faceted dots. Then added a swirl of Wink of Stella on ALL florals.
