Talia Bonn

Gönn dir eine kleine Zeichenpause!

Blätter durch, such dir ein Motiv aus und starte einfach mit den ersten Strichen. Denk nicht lange nach, setz den ersten Strich, das erste Motiv und dann lass dich einfach treiben von den Ideen, die in deinem Kopf dazu kommen.

Vielleicht müssen zu dem Bären im Sommer noch ein paar Fische dazu oder zu dem Pilz im Herbst ein paar Regentropfen. Es muss keinen Sinn ergeben, es soll einfach nur Spaß machen und wenn die Erdbeere dann eben Springseil springt dann ist das genau richtig!

Was mir noch am Herzen liegt, deine Bilder werden und sollen niemals eins zu eins wie meine aussehen! Auch meine eigenen Bilder sehen nie gleich aus. Mal ist der Kopf größer oder kleiner, mal ist mir mehr nach rund oder eckig. Nimm das Buch als Inspiration für deinen kreativen Weg, genieße den Prozess und die Stille des Zeichnens und sei stolz auf dein Ergebnis!

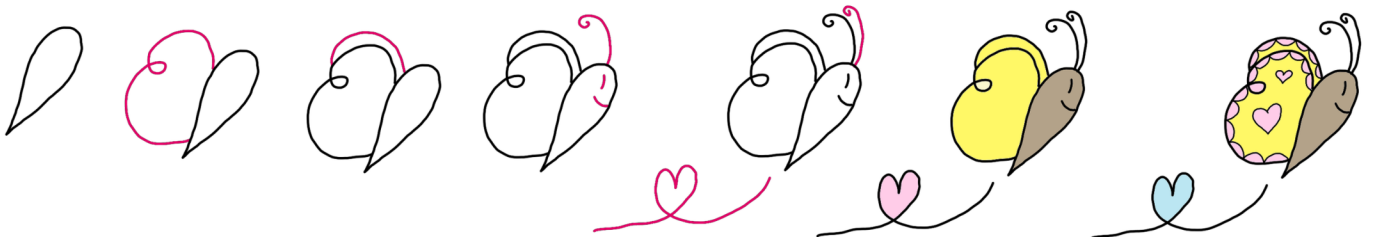

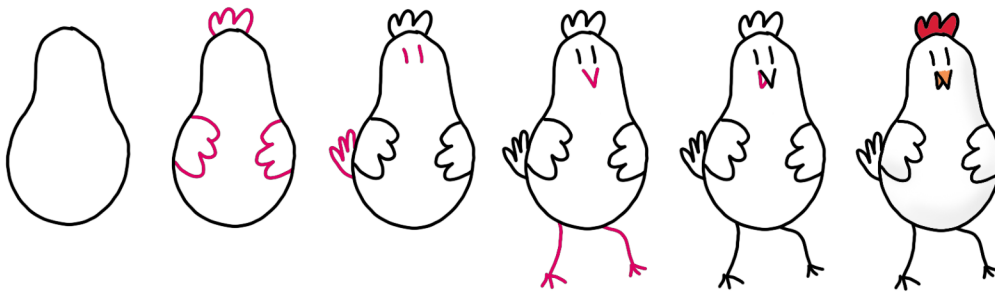

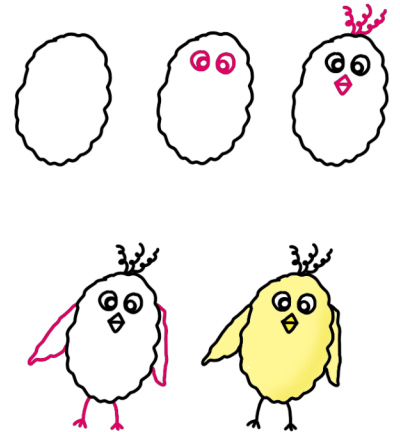

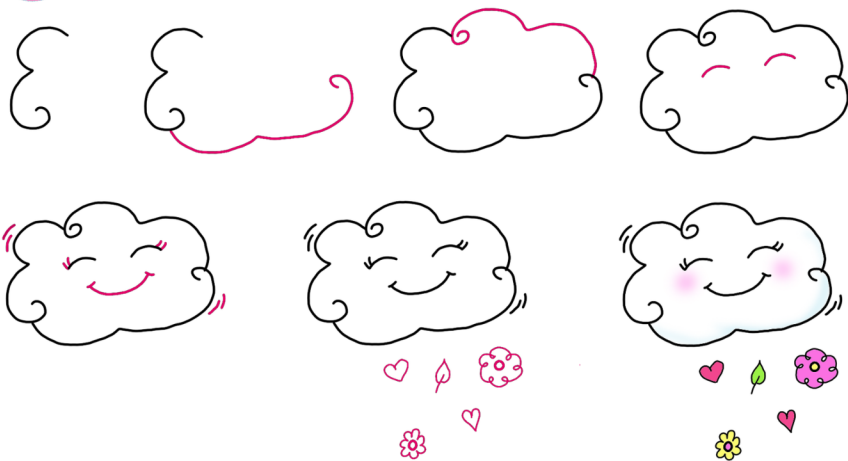

Manchmal wirst du dich vielleicht doch ärgern, denn Fehler beim Zeichnen passieren. Mal ist der Körper viel zu klein zum Kopf, mal ist der Arm viel zu lang. Wichtig, jetzt wird nicht radiert! Kleine "Ups" beim Zeichnen zeigen dir nur einen neuen Weg!

Mein Tipp: "Schmunzel darüber, genau so entstehen die lustigsten Gestalten die in Erinnerung bleiben! Nicht das Perfekte Bild, es sind diese kleinen vermeintlichen Fehler die es besonders machen und manchmal in eine ganz andere Richtung lenken!"

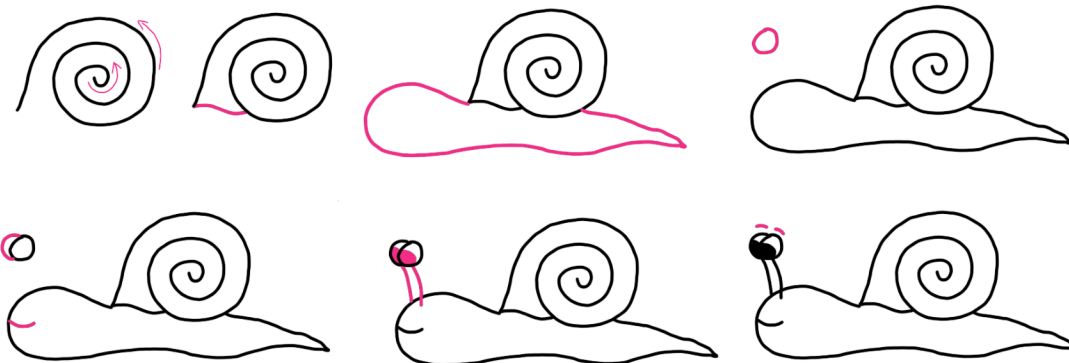

Jetzt nimm dir deinen Lieblingsstift, nimm allen Druck raus und leg einfach los und wenn du so richtig mutig bist, ist das nicht der Bleistift sondern ein Stift, der nicht zu radieren geht sondern mutig mit dir voran zeichnet!

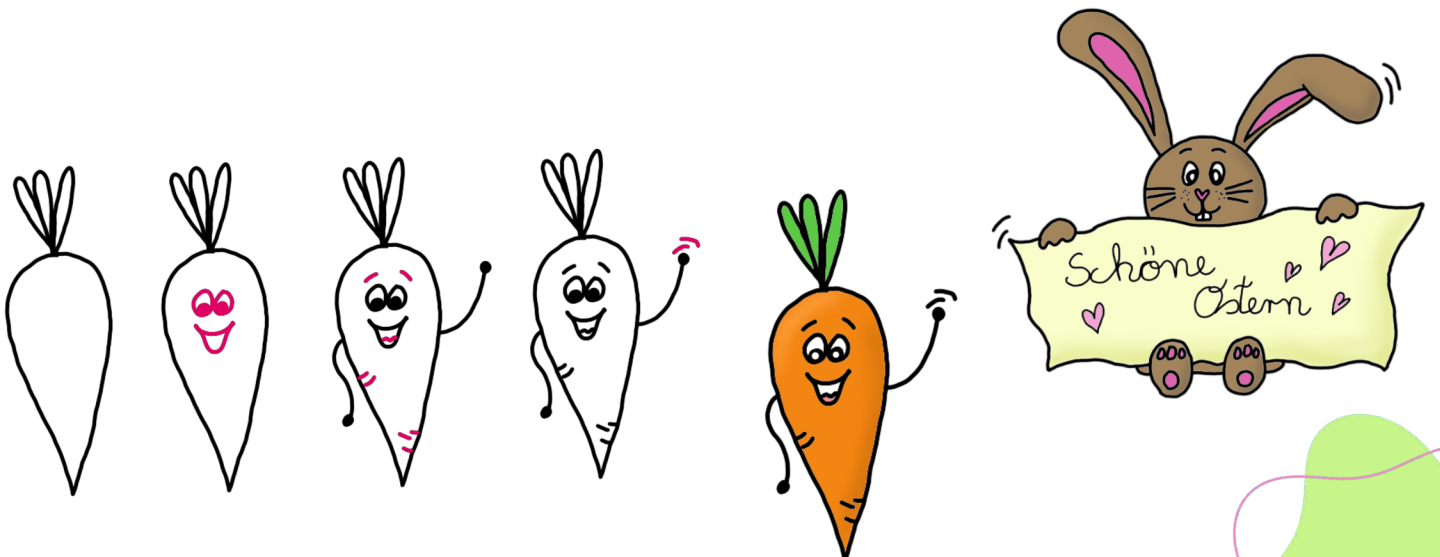

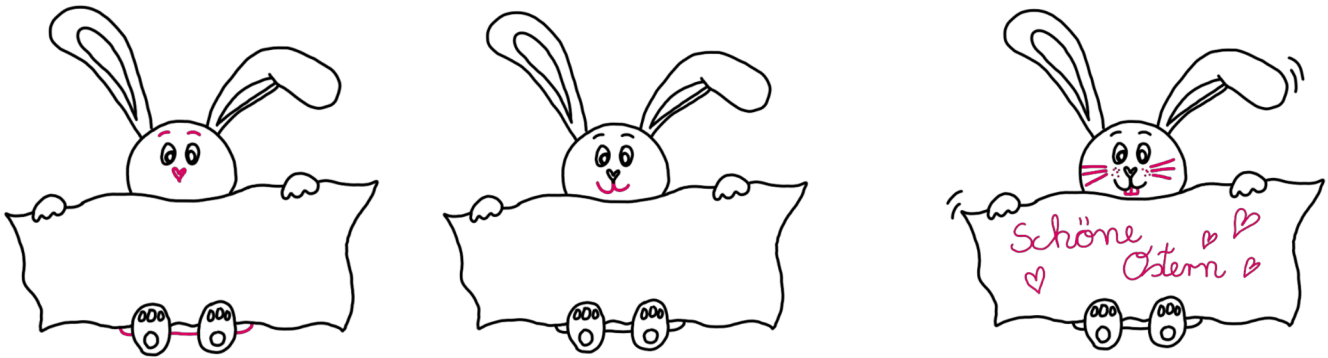

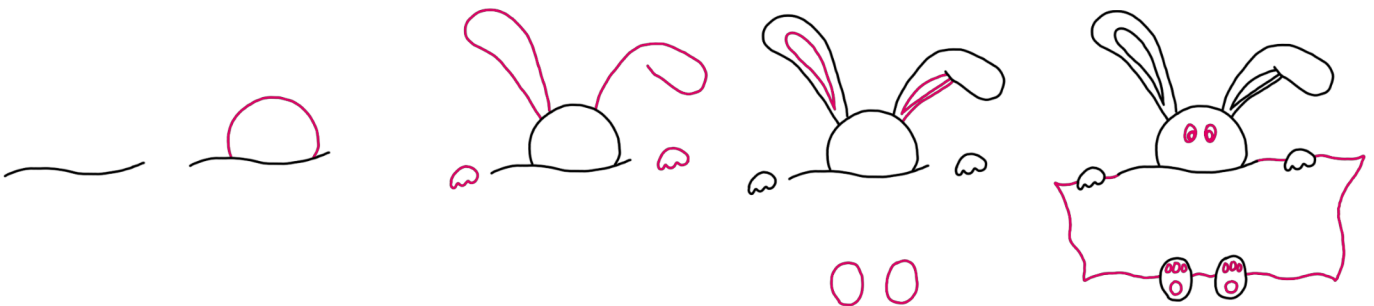

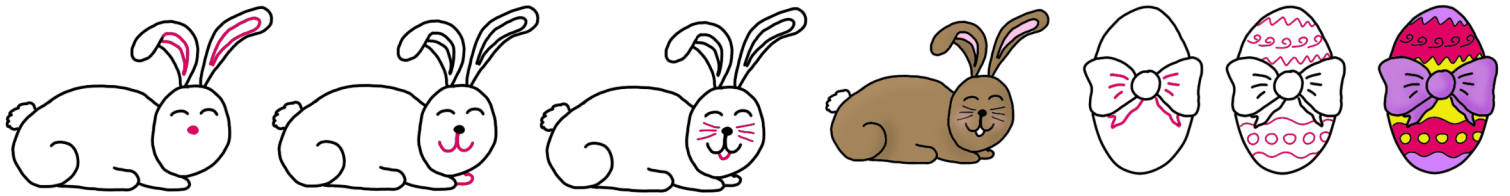

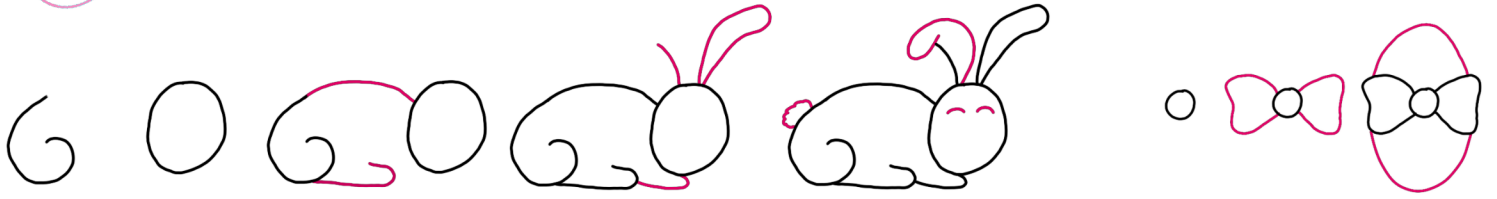

Frühling

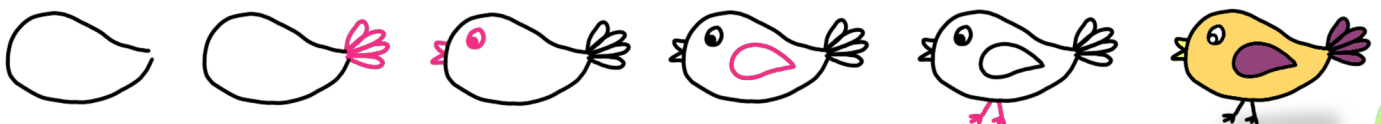

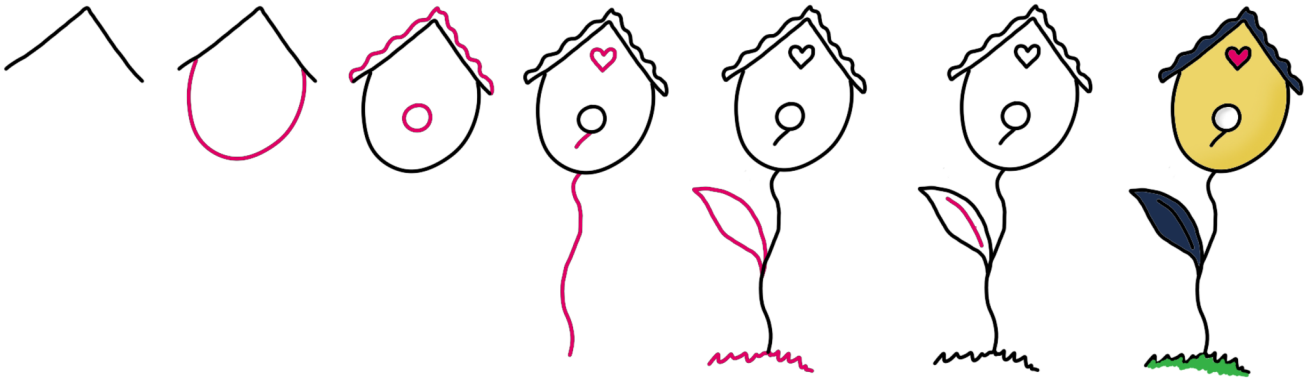

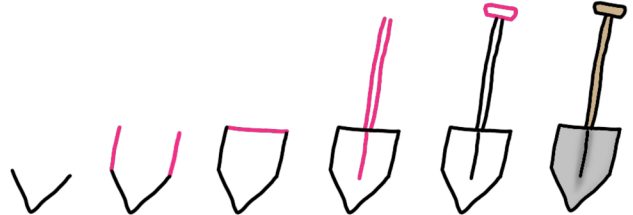

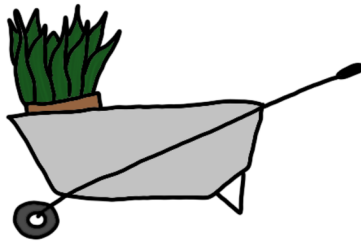

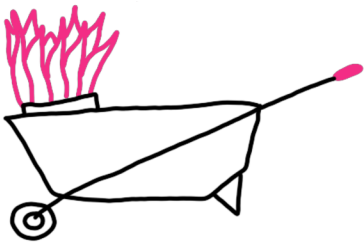

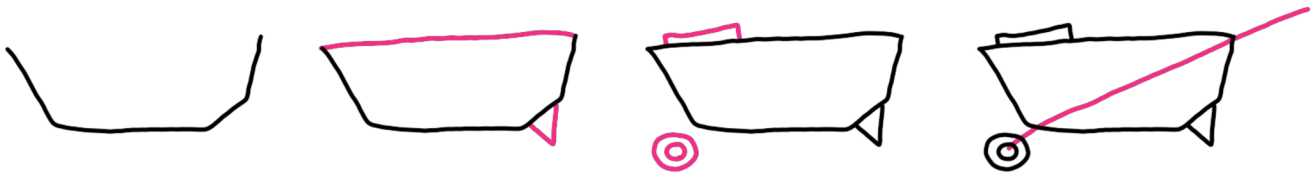

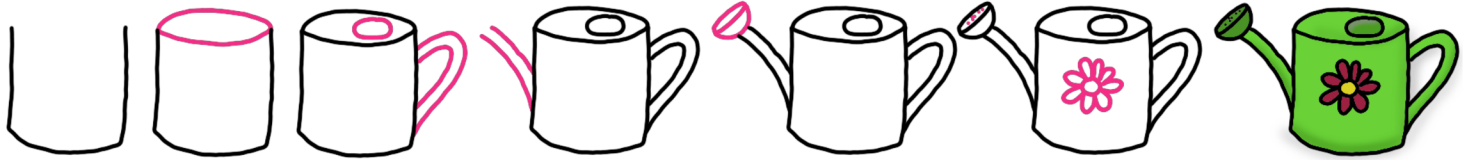

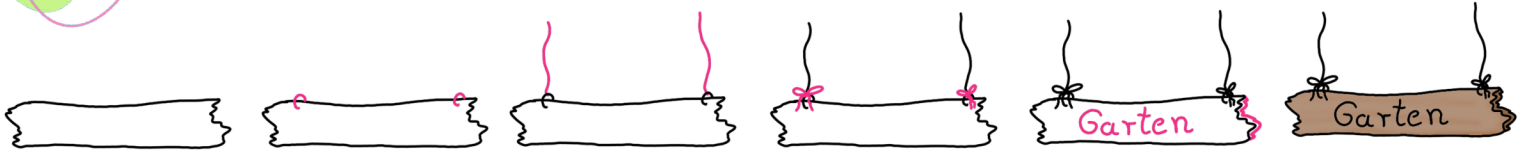

Gönn deinem Kopf eine Pause und zeichne in den Schmetterling und die Schnecke verschiedene Muster.
