

# Starseed SHINE! Program

The Starseed SHINE! Program assists you in discovering your mission and soul purpose and kickstarts you towards manifesting it. Your program will consist of all or some of the following modules.

## **Module 1: Multi-Lifetime Soul Purpose Journey**

What are your soul purposes and galactic missions in this lifetime and beyond? In Module 1, we hone right in on discovering your soul purpose or purposes. You may either:

- Participate in a 3-hour purpose reading OR
- Participate in a day-long profound journey to discover your purpose, and learn how to receive messages directly from your soul henceforth *independently* without the need for third-party help.

Access important details about gifts you have brought in to be of service to others, lessons and challenges you are here to experience, soul contracts you are here to complete, and much much more.

You also receive a galactic memories activation for bringing to your conscious awareness memories in your DNA of important galactic lifetimes that contain useful information about your soul purpose.

## **Module 2: Galactic Connection**

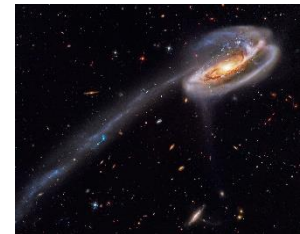

Typically, if you are a starseed, there are galactic guides that your soul has contracted with to support you on your mission in this lifetime.

For most people on Earth, spirit guides work with them on the unconscious level, with guidance and advice manifesting as senses and feelings that they get but don't know why. For starseeds, it is often useful to consciously know what our galactic guides are working with us on – especially if they are here to assist you with very specific types of creations, e.g. to write a book, create a class, etc.

As part of the Starseed Shine! program, you receive a profound and detailed class on galactic guides. We look into who your guides are, how many of them there are, what they are working with you on, and – if possible (depending on your current level of psychic ability) – we initiate you into more active communication with them.

## **Module 3: Galactic Subjects Tutoring**

Starseeds who have missions that relate to bringing through techniques or downloads from certain star races in the Galactic Federation sometimes find it useful to meet with and/or receive downloads from certain parties in the Galactic Federation.

Module 4 is for Starseeds who need special tutoring from councils or star races in the Galactic Federation. In this module, you meet with and receive training from the Galactic Federation in special training sessions.

## **Module 4: Personal Development and Training**

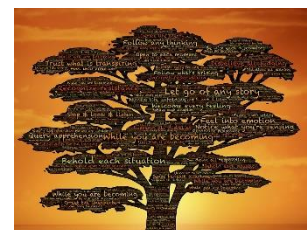

What do you need to level-up on in your personal development to be able to fully get-onto your soul purpose or purposes?

For each person, a part of their soul purpose is to:

- Hone and brush up on certain types of qualities or new patterns of being and moving in the world, and/or
- Transcend certain types of limitations

Your soul's growth needs are highly personal to YOU. The type and quantity of training for Module 4 will thus depend on what you need to GROW on the soul level, and on how much work you have already done in this lifetime.

In this Module, you may receive sessions to help activate new qualities in your DNA or attend special classes to expand your light so that you may grow into your purpose powerfully.

## **Module 5: Get on Earth and Get Going!**

In Module 5, we get clear on what action steps are needed to manifest your soul purpose on Earth and boost your personal power to say 'I can and I will do it!'

The **Sovereignty Class – Sceptre Initiation** grounds you into your personal power – your centre of will from where you can design and create your life as you wish it to be, in alignment with your soul purpose. Your will and your determination to get things done are activated.

The **Heaven on Earth Initiation** assists you in getting grounded so you can pull in your biggest visions and dreams onto the physical plane where they can manifest. It also assists you in getting clear on what is needed – what you need to do and be – to ground in and manifest what you want.

### **Investment**

Your investment will depend on the number of hours needed for you to complete your chosen modules at a general rate of 169 USD per hour. Special pricing is available for 6 or more hours.

You may either choose your own modules or contact Gil for a recommendation on which modules would serve you best at this point in time given where you are right now.
