HOW TO START A DIGITAL MARKETING BUSINESS &  
CREATE A PASSIVE INCOME STREAM

# HEY,

I'm Vanessa.

I am a mother, a woman, a visionary, and a lifelong student of existence. My journey has been a testament to resilience: I embarked on my path at the age of 19, creating distance from my family, navigating through toxic relationships, enduring challenging jobs, and experiencing profound moments of pain. I faced the shadows of depression, finding myself alone with a child in my arms, yearning for a place to call home.

But I stand as a testament that starting a new is within reach. I dedicated myself to personal growth, discovered genuine love once more, and through the power of digital marketing, I began to craft the life I have always envisioned — filled with freedom, purpose, and, most importantly, love.

Today, I share my journey to empower other women to embrace the possibility of turning pain into strength, fear into courage, and dreams into reality.

& just like you, not too long ago I embarked on a journey to discover avenues for generating extra income without the need to clock into another job. I was toiling through late nights and weekends, yet I was STILL struggling to make ends meet. Until one day, I made a resolute decision. I was finished with living paycheck to paycheck, burdened by debt, and DONE exchanging my precious time for mere money.....

A dimly lit living room with a light-colored sofa and a dark coffee table. On the coffee table, there is a book titled "FIATIS" and a decorative wooden tray with a candle and a small jar. The background shows a window with light coming through. The text "IN THIS GUIDE" is overlaid in large, bold, white letters.

# IN THIS GUIDE

You'll not only learn the basics of digital marketing, faceless digital marketing & affiliate marketing but you will also walk away with a thorough understanding of the EXACT beginner's course that taught me everything I needed to know about digital marketing, so you learn the EXACT way I did.

# What is **DIGITAL MARKETING?**

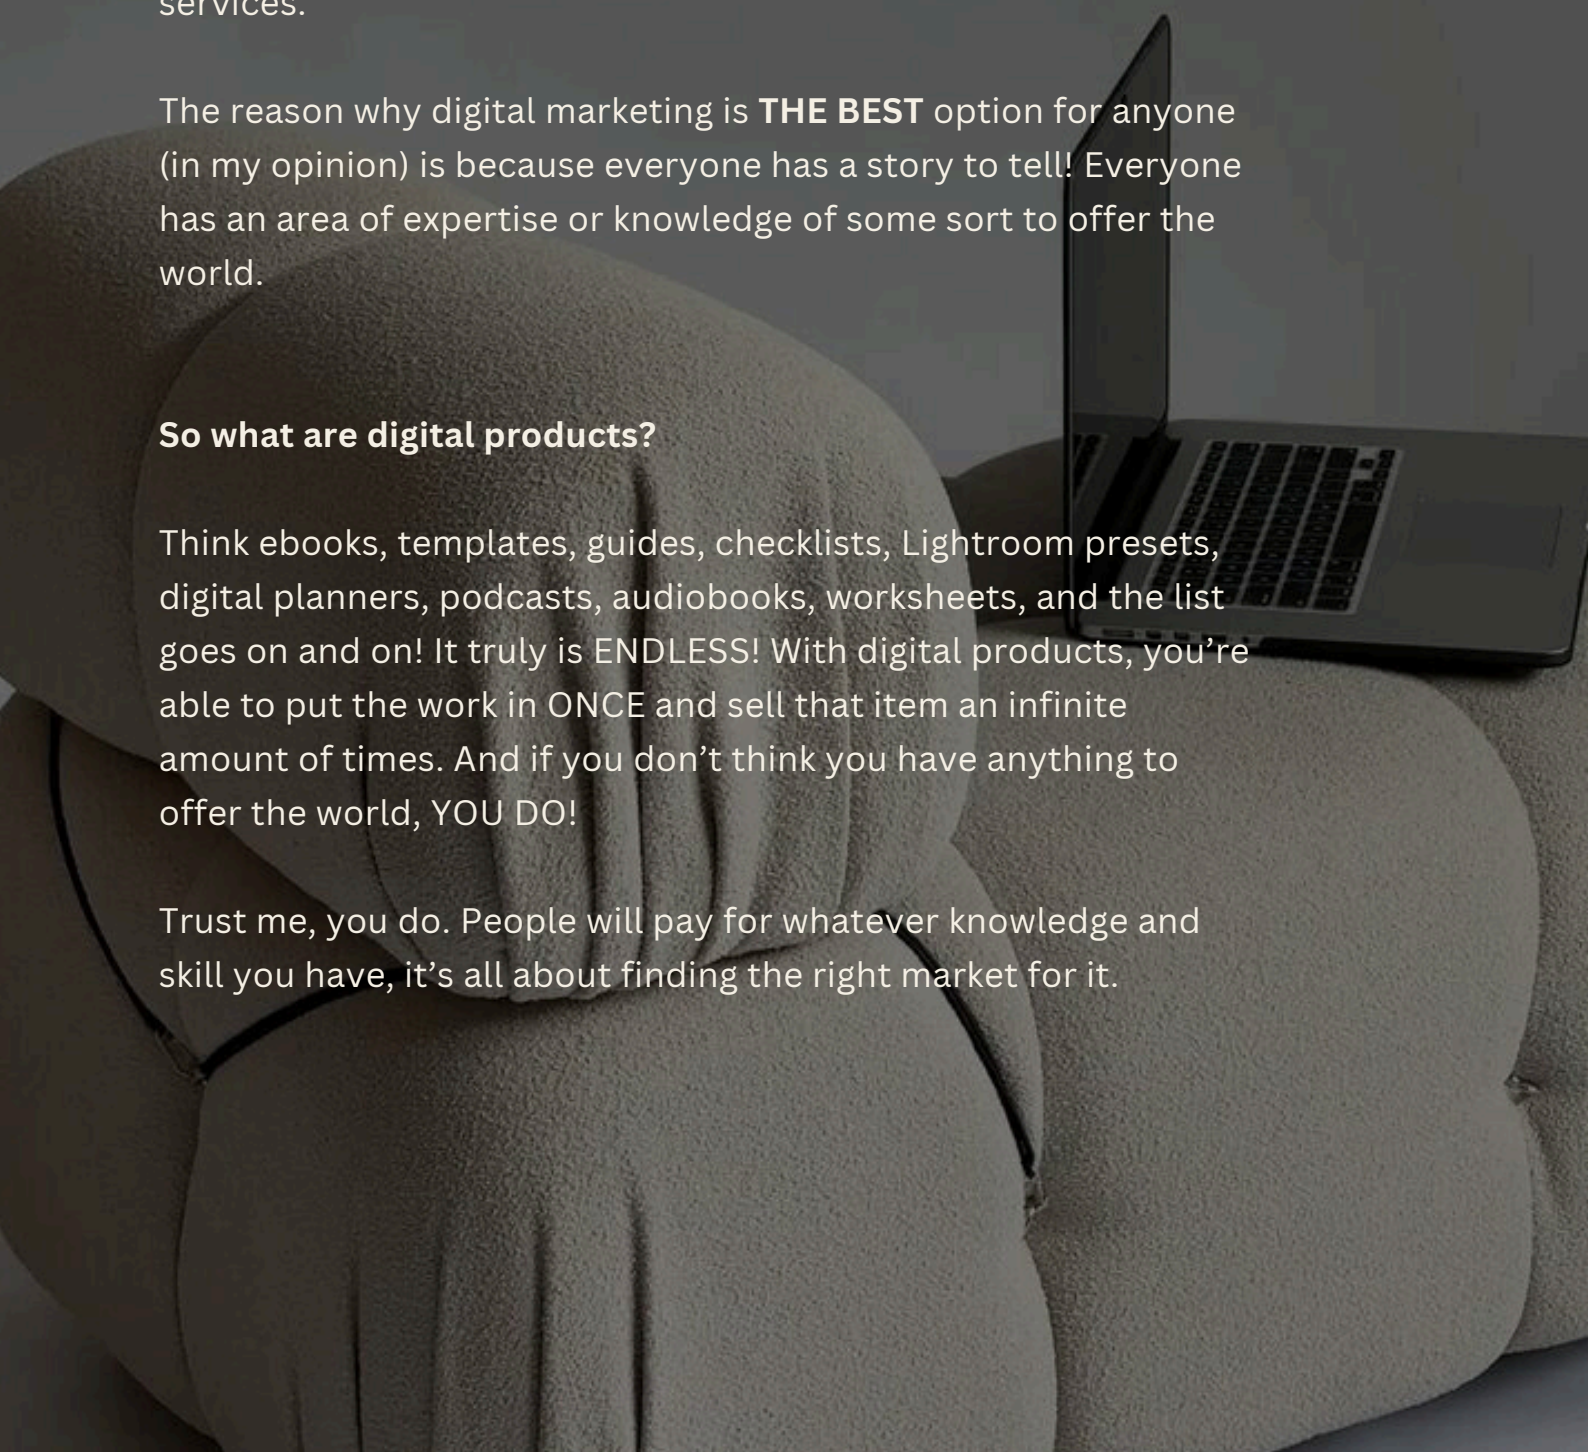

Digital marketing, in simple terms, is using the internet, social media, and digital tools to tell people about digital products or services.

The reason why digital marketing is **THE BEST** option for anyone (in my opinion) is because everyone has a story to tell! Everyone has an area of expertise or knowledge of some sort to offer the world.

## **So what are digital products?**

Think ebooks, templates, guides, checklists, Lightroom presets, digital planners, podcasts, audiobooks, worksheets, and the list goes on and on! It truly is ENDLESS! With digital products, you're able to put the work in ONCE and sell that item an infinite amount of times. And if you don't think you have anything to offer the world, YOU DO!

Trust me, you do. People will pay for whatever knowledge and skill you have, it's all about finding the right market for it.

# Steps to getting STARTED IN DIGITAL MARKETING

## STEP 1: CHOOSE YOUR NICHE

- A niche is the category of product(s) you will promote, which determines your target audience. Choose a niche you are passionate about. This will allow you to enjoy your work, feel comfortable promoting the product, and build trust with your audience.
- Profitable niche examples:
  - Health and wellness, wealth, relationships, self-improvement, beauty and fashion, travel, education, food and cooking, parenting, personal finance, pets, career development, etc.

## STEP 2: PICK YOUR PRODUCTS

- Affiliate Marketing: Find other companies products to promote.
  - Google "[your niche] + best affiliate programs + [your country]"
  - Or use Clickbank, Digistore 24, JV Zoo, CJ Affiliate, etc
  - Apply to be an affiliate, wait for approval, get your link(s)
- Digital Marketing: Create your own products.
  - Do market research on what your target audience wants.
  - Use ChatGPT for product ideas, outlines, etc.
  - Use Canva to create PDFs & Teachable to create courses
- Done-For-You Digital Marketing:
  - Purchase a Done-for-You product within your niche. Yes! It's really that simple!

**PRO TIP:** Don't treat it as an "either-or" situation. Blend them together to diversify your income streams. For example, I focus on done-for-you digital marketing while dipping into affiliate marketing, promoting business tools that have helped me and can benefit my students. This comprehensive approach maximizes your potential for success!

# Steps to getting STARTED IN DIGITAL MARKETING

## STEP 3: DRIVE TRAFFIC TO YOUR LINKS

- This is the fun part! Now that you've found your niche and a product within your niche, it's time to create engaging content to promote it! Figure out the pain points people in your niche are experiencing and how your product will solve or alleviate that problem. Then, begin creating content that will draw in the audience you're targeting with a simple call to action.
- You can drive traffic to your links by creating content in the form of IG reels, static posts, ebooks, blogs, TikTok, Pinterest, etc.
- I also recommend creating a brand new Instagram page and posting 2-3 reels a day to really get your content out there!
  - You can also use my Kickstart strategy as a guide to get more views, followers, leads & sales
- Use a content bank to create aesthetic reels (I will show you my faves) this option is if you want to go the FACELESS route.

## STEP 4: CONTINUE TO LEARN AND EVOLVE

- Continue to evolve and expand your offers (create your own products to help your audience)
- Keep learning every day
- Master your mindset - show up with a success mindset
- Show up every day with the mindset that you are creating success no matter what
- Connect with people in your DM's - find out about them and how you can help them

Faceless marketing allows you to build your brand without having to use your face. You can use engaging content, text & captions & your visual identity to grow your brand.

the goal is to create a cohesive brand that resonates with your target audience & creates a compelling brand identity.

## **Benefits of faceless marketing:**

# Faceless FAQ'S

- **Can I build a strong brand identity without showing my face?**

Yes! The key to building a strong brand identity lies in maintaining consistency throughout your visual elements (colors, fonts, type of content), messaging, and voice style.

- **How can I engage audiences without a personal influence?**

Encourage interaction through polls, quizzes, and discussions related to your industry. Leverage social media platforms to foster community engagement around your brand.

- **How can I foster trust when the brand lacks a face?**

Always add value! Share your knowledge/ expertise in your topic of choice. Highlighting customer testimonials, case studies, and reviews also helps build credibility.

- **Can I still do this if I don't know how to take aesthetic faceless content?**

Absolutely! That is one of the beauties of faceless marketing. Since no one knows who is behind the account, you can use videos curated by content banks! You don't need an aesthetic home or to film your own content to launch a successful faceless account.

- **Can I find success if I create a new faceless account?**

Yes! Instagram loves new accounts! So if you want to keep your personal account and start a new one for your faceless content I 100% recommend it! It might take some time to get some traction, but if you stay consistent, focus on adding value, and launch with a good strategy, you will see growth!

- **Where can I learn more in-depth about the strategies I need to implement if I want to launch my faceless digital marketing business?**

You can learn the same way I did by taking **DIGITAL WEALTH ACADEMY**! Not only will you learn everything about branding, creating your own digital products, all things social media, how to take content, etc. but you will also learn everything you need to know about faceless digital marketing!
