How to Use Your Videos

Four simple steps from download to your first post.

1 Download

On a computer, open a video and select the download icon. On a phone, tap the three dots, then Download. Save the files to your own storage.

2 Add your brand (optional)

Add your logo or watermark in Canva or CapCut. The videos are complete as they are, so this step is up to you.

3 Post or sell

Share them on YouTube, YouTube Kids, TikTok, Instagram or Facebook Reels, or bundle them into your own digital products.

4 Keep a backup

Download the videos you plan to use and keep your own copy, so your content library is always on hand.

PLR & MRR rights included

You can rebrand, bundle and resell this collection. Follow the license terms included with your purchase.
