Enter the following **PROMPT** into Chat GPT:

I want to sell a printable planner that has high search volume and proven buyer demand on platforms like Etsy, Google, TikTok, and Pinterest. Give me a list of niche-specific planner ideas that are profitable, with low-to-moderate competition.

For each niche, include:

- Target audience and why they buy this type of planner.
- Average selling price range.
- Best platforms to sell on.
- Features/layout ideas that will make my planner stand out from competitors.
- Focus on planners that can be designed quickly in Canva (under 2 hours) and have evergreen sales potential.

## 2. Review the list and choose one that interests you.

*Example: Self-Care & Mental Wellness Planner*

## 3. Copy your chosen idea into a document or notepad — you'll need it in the next step.

# Step 2 — Create Your Canva AI Prompt

## 3. Ask CHAT GPT to create a prompt for you
