Email 1: How this marketer became a millionaire (3 steps)

Today, my friend, Aurelian Amacker's net worth is well **over \$20m**

(He owns about \$2.5m in real estate alone)

Yet, he started from **zero**

(He was raised by a single mom and grew up in a tough neighborhood north of Paris)

So how the hell did he get to where he is now?

- Step 1: Grow your own value

When Aurelian was 24, he discovered self-help books, and

started improving his skills (communication, persuasion, etc)

He learned **how to get a raise**

(He even invested \$200 to attend a workshop on this exact topic)

He started **learning English**

(He didn't speak a word when he left school, and today Aurelian speaks 4 languages)

- Step 2: Become an entrepreneur (and escape the rat race)

At 27, Aurelian went to **Australia** and started his first business

He has since then started 3 businesses — all of them have been successful

(He has a simple, yet super-effective strategy to limit the risk of failure)

- Step 3: Start investing

7 years ago, Aurelian bought his **first property**

Today he owns about **\$2,5m** in real estate

(He has 6 properties in 3 different countries)

He **invested in his business** and today it's worth **over \$20m**

He also learned about the **stock market**

(Aurelian will show you where most people go wrong, and how you can do better)

And now, Aurelian has created a course that teaches you **everything he learned** on his way to becoming a millionaire

(there are 5 videos - 2h30 in total)

For a *limited time only*, you can get it for **just \$7**

Email 2: A course about becoming a millionaire? Really? 🤔

A few years ago my friend, Aurelian, bought a \$2 second-hand book called *How To Make More Money*

(the title intrigued him - how could it not?)

In this book, there were two pieces of advice:

- Learn **English** *(because it's not that difficult and will open a lot of doors)*
- Move to a **sales position** *(because you can get paid more)*

So Aurelian did exactly that

He started learning English (He couldn't speak a word of it when he left school)

And he **left his job** as a systems administrator to move to a sales position with another company

(but it didn't last very long, they let him go after 5 months)

Since he was unemployed, he decided to go to Australia and he ended up **starting his first business**

(and saving \$50,000 after 2 years)

Since then he has:

- Learned **2 more languages** (*Spanish and Portuguese*)
- Launched 3 online businesses (*one is currently generating \$400,000 per month*)
- Invested in real estate (*bought 6 properties, with a total value is \$2,5m*)

He has included everything that he's learned on his way to

becoming a multi-millionaire into a **5 video online course**

He got all these results from a simple \$2 book, just imagine what this course could do for you

Don't get me wrong, it's **not a magic bullet**

(success takes hard work and dedication, and a bit of luck too)

This course is not about "reprogramming your subconscious for success"

In this course, Aurelian teaches **concrete** strategies, backed by **real examples**

For example, he started **4 successful businesses**

(Aurelian follows a simple strategy to get 100% success rate to build a business, which he shows you in the course)

You'll see a complete list of **criteria** to keep in mind when starting any business

Aurelian found a simple technique to **learn any language in 5 minutes** per day, which led him to learn 3 languages

He'll teach you his method to **invest in real estate**

So, again, this is not a magic bullet, but he shares **everything he learned** about building successful businesses and investing

Email 3: From the Slums to a Dream House 🔥

It's pretty well-known to Parisians

that there are some **rough suburbs** north of Paris

This is the neighborhood where my friend, Aurelian, grew up:

And this is the house he just bought with his wife:

(it's in Portugal - 5 minutes from the beach)

So how the hell did he get there?

- Step 1: Grow your own value

When Aurelian was 24, he discovered self-help books, and started improving his skills (communication, persuasion, etc)

He learned **how to get a raise**

(He even invested \$200 to attend a workshop on this exact topic)

Email 4: The simple way to get a 100% success rate in business 🚀

Aurelian Amacker has started **4 businesses** in his life:

- A network of salespeople in Australia in 2007
*(he made **\$100,000 in sales** in 2 years, and he saved half of it)*

- A blog about personal development in 2010
(He took it to **\$30,000 in sales** per month)
- A blog about learning English that launched in 2012
(It was a side business generating **\$3,500 per month** and he sold it for \$14,000 2 years ago)
- Systeme.io, an all-in-one marketing platform that's currently generating **\$400,000 in revenue** per month

So, Aurelian built 4 businesses and **all of them succeeded**

Why?

Because **he never tried to invent something new**

He has always found businesses that were making money, and he built a similar business

It's like wanting to start a new restaurant, you are not going to create a new cuisine

Instead, you will **look at what is working** (which kinds of restaurants are doing well) and then you do the same, but add your own twist to it

You get to choose the location, the name, the decoration, the chef, the menu, and all the other things that will make your business stand out

As you can see, it's **not rocket science**, but it sure works!

In the Financial Freedom Formula online course, Aurelian gives you a **list of criteria** to analyze a business idea before launching it

(there are 5 videos — 2h30 in total)

For a *limited time only*, you can get it for **just \$7**

It's not magic - success takes hard work and dedication

You'll learn all the strategies that helped him succeed, and it'll help you too!
