Email 1: How this guy made \$11,000 in 10 days (while in Copacabana 🌴)

When my friend, Aurelian Amacker, launched his first course with a sales page...

He made **\$11,000 in just 10 days**

(and he spent most of those days on the beach in Copacabana)

Since then, Aurelian has **written dozens of sales pages** and newsletters for courses ranging from \$7 to \$1,997... and totaled over **\$3 million in sales**

How?

- He spent years reading **every book about copywriting he could find**
- He put in hundreds of hours of his time to **write the perfect sales pages**

It was **a lot of work**

So, he's decided to pack **everything he's learned about copywriting** over the past 10 years into an [actionable 1-hour course](#)

After just 1 hour, you'll be able to write **high-converting sales pages**

and powerful email newsletters to sell your products

(and you won't have to spend years mastering the craft like Aurelian did)

Here's the course content:

- Introduction: Aurelian's method of writing copy that sells

(He's crafted this method which allowed him to earn over \$3,000

*of **passive revenue** per month just with online courses)*

- Step 1: What to **research** before writing a word of copy

*(Aurelian will show you how to literally **read the minds of your customers***

and use that data in your copy)

- Step 2: How to **write a sales page** that sells

(You'll discover the 7-step structure that will help you

write high-converting sales pages quickly)

And as a bonus, you'll get access to a **complete sales page template**

as well as the survey that Aurelian uses to **read the minds of his customers**

Email 2: The REAL truth about long-form sales pages 🤔

*"These old-school sales pages **don't convert**"*

*"I've **never bought anything** on these old-school sales pages"*

I've heard this **so many times** over the years

Here's the thing:

Long-form sales pages usually have a 1% to 10% conversion rate

It means that **most people who visit your sales page will never buy**

If you want a higher conversion rate, **you'll need to use other,**

time-consuming and costly options

(You could sell over the phone and convert up 33% of your leads,

but it takes a lot more time and effort)

A sales page that my friend, Aurelian Amacker, wrote in 2011 made him **\$2,500 per month for 5 years straight!**

In short, even with a 1%-10% conversion rate, long-form sales pages can be profitable **for years**

And with **the right system**, you can easily write an effective sales page in no time

This is just one small piece of advice that forms part of Aurelian's **copywriting masterclass:**

that Aurelian uses to literally **read the minds of his customers**
