

Welcome to

Your Personal Color Analysis

To ensure the most accurate results,
please follow the guidelines below.

The 3 Essential Rules

NO makeup • *NO filters* • *NO artificial light*

These are essential, as they can significantly
alter your natural coloring.

Preparation Guidelines

SKIN & FACE

Remove all makeup at least **1 hour** before taking your photos.

If you regularly use fake tan and would like your palette matched to it, please let me know.

Fake tan can change your subseason.

If you wear glasses daily, include one photo wearing them.

LIGHTING & SET-UP

Stand approximately **1-2 metres** away from a window.

Avoid direct sunlight as it may give your features artificial warmth

Take pictures in **daylight**.

CAMERA POSITION

Hold the camera at arm's length.

Lock white balance if possible. (On iPhone, press and hold on your face until **AE/AF Lock** appears.)

Position at eye level.

Required Photos

Please provide the following

1 picture in a **grey top hair up**

1 picture in a **grey top hair down**

1 picture in a **white top**

1 picture wearing **silver jewelry**

1 picture wearing **gold jewelry**

1 picture in a **black top**

Pictures in **various colors** (the more, the better!)

Examples:

If you don't have gold or silver earrings, you can hold a necklace close to your face.

Please send your photos to

info@thecolorcode.studio

and complete the questionnaire

Before submitting, please ensure that the coloring
in your photos reflects your natural coloring as
accurately as possible.

I look forward to discovering your most
harmonious colors
