How to Ask Powerful Questions

This isn't just a chatbot. You're talking to a team of 8 legendary thinkers:

Steve Jobs, Oprah Winfrey, Jeff Bezos, Estée Lauder, Tony Robbins, James Dyson, Richard Branson, and Ralph Lauren.

 To get powerful answers, treat it like a real conversation:

Write naturally, like you would speak to a mentor.

"I'm planning to open a second location. I don't want to lose the soul of the original. What should I be careful about?"

Be honest.

If something feels off, say so:

"That's not exactly what I meant."

"Can we simplify this?"

"Let's focus on the emotional side."

Ask follow-ups. Always.

Just type:

"Can we go deeper?"

"What's the emotional layer here?"

"What if I did the opposite?"

💡 10 Pro Tips to Maximize Your GPT Experience

1. Rephrase and Retry

Didn't you love the answer? Try again:

“Make it simpler.”

“Summarize the key takeaways.”

“Give me 3 options.”

2. 🔄 Give Context

Don't be vague — the more details you share, the sharper the answer.

“I'm a solo interior designer trying to attract high-end clients in New York. What should I focus on?”

3. 🔄 Have a Real Conversation

Don't treat it like Google. Follow up, explore, go deeper.

4. 🏠 Ask It to Build FOR You

“Give me a daily checklist.”

Let it *work* with you, not just advise.

5. 🗨️ Ask for Contrast

“Give me two different strategies.”

“What's the bold vs. safe path here?”

“Write this in three tones: serious, casual, playful.”

6. 🗨️ Use Personas or Styles

“Explain like a coach.”

“Make it sound elegant and timeless.”

7. Go Beyond Business

Ask about confidence, creativity, work-life balance, burnout, or inner blocks.

This tool is designed to support you as a whole person.

8. Ask It to Challenge You

“What’s my blind spot?”

“Where am I playing it too safe?”

“What would a contrarian do here?”

9. Build a Daily Ritual

Start your day with:

“What should I focus on today?”

“Give me one mindset shift to carry into this week.”

It’s not just a tool — it’s your thought partner.

10. Tell It Who You Are

The more you share, the more powerful the responses:

“I’m creative but struggle with structure.”

“I hate selling but love helping.”

“My dream is to build a brand people fall in love with.”

□ What You'll Get With Every Question

Each time you ask, you'll receive:

- ♦ **8 expert responses**, one from each advisor's unique thinking style
- ♦ **Executive Summary** — organized by theme (vision, brand, mindset, etc.)
- ♦ **Actionable Recommendations** — clear next steps
- ♦ **Deep-Dive Questions** — to sharpen and challenge your thinking
- ♦ **Final Suggestion** — one focused action to take now

And if you want more?

Just say: “**Let's go deeper.**”

Your dream team will reconvene — for an even richer layer of insight.
