

Kitchen Measurement Checklist

Your go-to guide for recording the
essential dimensions to begin designing your
dream kitchen

POWER TO

CREATE

Welcome

Before you begin drawing or designing, it's important to understand your space. Use this checklist to walk through your kitchen and record all the key dimensions you'll need.

Take your time, grab a tape measure, and print this page to jot down your notes. It doesn't need to be perfect — just accurate enough to guide your design decisions.

 *I always recommend sketching out the room—including walls, windows, and cabinetry—and marking the key measurements directly onto the drawing. Pair this with the checklist, and you'll have a clear visual reference to ensure nothing gets missed!*

Overall Room Dimensions

- Room Length: _____
- Room Width: _____
- Ceiling Height: _____

Doors + Openings

(Include swing direction and wall placement)

- Room Length: _____
- Room Width: _____
- Ceiling Height: _____

Windows

(Include sill height and wall position)

- Window 1: Width / Height: _____
Sill Height from Floor: _____
- Window 2: Width / Height: _____
Sill Height from Floor: _____

Walls + Bulkheads:

- Wall 1 Length: _____
- Wall 2 Length: _____
- Any nibs, bulkheads, or wall steps: _____

Services (that need to stay)

- Power Outlets (location + wall): _____
- Plumbing (sink or dishwasher): _____
- Gas Outlet (if applicable): _____
