# Hello!

## I'M JUSTINE

I'm on a mission to help women in business increase their financial literacy, **cultivate the profitable business of their dreams** and, in the process, create a business that speaks to their **definition of success in this season of their life!**

Business can be overwhelming, especially if you're doing it on your own. But it doesn't have to be, and that's where I come in.

I'm here to help you overcome the overwhelm and get your business on track.

Whether you need to focus on the finance, overhaul your operations, put some magic into your marketing or create clever content, I've got your back.

As a business owner with thirty years of experience, I know how to run a business.

**My superpower is pricing and all things business money.**

I support business owners through 1:1 mentoring and coaching, my signature program **Business Money magnet**, and my mini courses including **The Profitable Pricing Formula**. I'm also available for group coaching and education.

Being in business doesn't have to be complicated, and you deserve to have the profitable, purpose-driven business of your dreams.

If I can help, please reach out for more information or book a free strategy call today.
