

GoMining Passive Income Blueprint (Beginner Edition)

This guide is designed to help beginners start earning daily Bitcoin income using GoMining - a platform that lets you rent powerful virtual miners without any hardware, electric bills, or tech setup. All you need is a smartphone, \$100 to start, and 5 minutes to set up. This isn't a get-rich-quick scheme - this is long-term investing with real, trackable growth.

What Happens with \$100?

With just \$100, you can buy a digital miner with ~2 TH/s of power. This will earn you daily Bitcoin, and you'll see rewards begin within 24 hours. Many users start this way and simply reinvest their BTC rewards to grow faster - no more out-of-pocket investment required after the initial \$100.

Your Simple 3-Step Journey

- Step 1: Start your FREE 7-day trial with a Bonus Miner (no payment required)
- Step 2: Buy your first real miner (start with \$100)
- Step 3: Turn on reinvestment - grow your earnings passively

Why I Trust This

I'm Shelton, the founder of MinerSignal. I started with \$100, no machines, no noise, no stress. I saw my first rewards within 24 hours. Since then, I've reinvested my earnings and grown my mining power without spending extra. If you're looking for a real way to earn Bitcoin daily, this is it - no hype, just results.

What's the Worst That Happens?

- You don't lose your \$100 - your miner is a real digital asset you own.
- You don't need to keep spending - just reinvest your BTC earnings.

- You don't need a credit card to test it - the trial is 100% free.

This isn't a get-rich-quick system. This is a low-cost way to begin building real, long-term crypto income.
