# ACTIVITY VISUAL CARDS

---

Welcome to your Montessori visual cards. These simple tools make it easy to put your daily activities into action—quickly, clearly, and without stress.

## **1. Select your cards**

Choose 1–3 cards that align with the activities you’ve planned for the day. Pick based on your schedule, your child’s interests, or what materials you already have.

## **2. Invite your child’s choice**

Show the selected cards and let your toddler choose what they’d like to do first. This supports independence and builds confidence.

## **3. Set the space**

Place the chosen card somewhere visible—on a tray, shelf, or table—along with the materials. This helps you stay organized and signals to your child that an activity is ready.

## **4. Follow their pace**

Children may explore for a short moment or dive deep. Both are great. Follow their lead and feel free to repeat favorite cards or switch when interest fades.

## **5. Rotate and refine**

Swap cards daily or weekly to keep things fresh. Notice what your child enjoys and adjust future selections to support their curiosity and growth.

Keep it simple and joyful—these cards are here to make Montessori easy to weave into everyday life.

**Making a simple breakfast**

**Setting the table**

**Brushing teeth & washing face**

**Dressing independently**

**Weather check & outfit helper**

**Sorting shoes or jackets**

Morning

**Brushing shoes**

Morning

**Rolling out a work mat**

Morning

**Feeding a pet**
