

## KDP Book Generator Prompt Kit

The SD Creator Hub

### Prompt 1 — Structured & Direct

Act as an Amazon KDP publishing expert. I am creating a [TYPE OF BOOK] based on the theme [THEME] for [TARGET AUDIENCE].

**Generate:**

- 1 3 optimized and non-generic book titles
- 2 3 clear and SEO-friendly subtitles
- 3 A short back cover description (max 30 words)
- 4 A concise and welcoming intro page
- 5 A simple 'How to Use This Book' section
- 6 An ideal page count recommendation

**Requirements:**

- 1 Ensure all content is original and free from copyright or trademark issues
- 2 Titles must be clear, keyword-aware, and easy to understand
- 3 Avoid creative or vague phrasing — prioritize clarity
- 4 Subtitles should naturally include relevant keywords
- 5 Back cover text should highlight benefits, not features
- 6 Keep intro page short, friendly, and audience-specific
- 7 'How to Use' must be simple, practical, and beginner-friendly
- 8 Page count should align with standard KDP pricing (100–120 pages)
- 9 Avoid complex formatting or layouts
- 10 Keep outputs practical and ready to use

### Prompt 2 — Conversion-Focused

Act as a KDP low-content book strategist. Help me create a [TYPE OF BOOK] centered around the theme [THEME] for [TARGET AUDIENCE].

**Generate:**

- 1 3 optimized and non-generic book titles
- 2 3 clear and SEO-friendly subtitles

- 3 A short back cover description (max 30 words)
- 4 A concise and welcoming intro page
- 5 A simple 'How to Use This Book' section
- 6 An ideal page count recommendation

**Requirements:**

- 1 Content must be unique and safe from copyright/trademark issues
- 2 Titles should be straightforward, searchable, and conversion-focused
- 3 Avoid clever or abstract wording — keep it practical
- 4 Subtitles should reinforce value and include relevant terms
- 5 Back cover should focus on outcomes and user benefits
- 6 Intro should connect with the reader quickly
- 7 Usage section must remove confusion for first-time users
- 8 Page count must balance usability and profitability
- 9 Keep layout simple and scalable for production
- 10 Ensure everything is easy to implement immediately

## **Prompt 3 — Clarity & Simplicity Driven**

Act as an experienced KDP creator. I want to develop a [TYPE OF BOOK] using the theme [THEME] for [TARGET AUDIENCE].

**Generate:**

- 1 3 optimized and non-generic book titles
- 2 3 clear and SEO-friendly subtitles
- 3 A short back cover description (max 30 words)
- 4 A concise and welcoming intro page
- 5 A simple 'How to Use This Book' section
- 6 An ideal page count recommendation

**Requirements:**

- 1 Keep all content original and compliant
- 2 Prioritize simplicity over creativity
- 3 Titles should clearly communicate purpose
- 4 Subtitles must add clarity and context
- 5 Back cover text should be easy to read and engaging
- 6 Intro page should be minimal and welcoming
- 7 Instructions must be easy to follow without explanation
- 8 Page count should follow common KDP standards
- 9 Avoid unnecessary design complexity
- 10 Focus on clarity, usability, and repeatability

## **Prompt 4 — Product Positioning Angle**

Act as a KDP product creation specialist. Develop content for a [TYPE OF BOOK] based on the theme [THEME], targeting [TARGET AUDIENCE].

**Generate:**

- 1 3 optimized and non-generic book titles
- 2 3 clear and SEO-friendly subtitles
- 3 A short back cover description (max 30 words)
- 4 A concise and welcoming intro page
- 5 A simple 'How to Use This Book' section
- 6 An ideal page count recommendation

**Requirements:**

- 1 Ensure originality and no trademark conflicts
- 2 Titles must be market-relevant and easy to search
- 3 Avoid overcomplicated or decorative wording
- 4 Subtitles should enhance clarity and positioning
- 5 Back cover should highlight why the book is useful
- 6 Intro should set expectations clearly
- 7 Usage section must guide the reader effortlessly
- 8 Page count should suit pricing and usability
- 9 Keep structure clean and production-friendly
- 10 Focus on creating a sellable product, not just content

## **Prompt 5 — Execution-Oriented**

Act as an Amazon KDP execution expert. I'm working on a [TYPE OF BOOK] with the theme [THEME] for [TARGET AUDIENCE].

**Generate:**

- 1 3 optimized and non-generic book titles
- 2 3 clear and SEO-friendly subtitles
- 3 A short back cover description (max 30 words)
- 4 A concise and welcoming intro page
- 5 A simple 'How to Use This Book' section
- 6 An ideal page count recommendation

**Requirements:**

- 1 All outputs must be original and safe to publish
- 2 Titles should be direct, functional, and easy to understand
- 3 Avoid unnecessary creativity — focus on usability
- 4 Subtitles should support discoverability
- 5 Back cover should communicate value quickly
- 6 Intro must be short and relevant
- 7 Instructions should be actionable and clear
- 8 Page count should align with KDP norms
- 9 Avoid complex design elements

10 Ensure everything can be executed immediately
