

KDP Listing Generator Prompt Kit

Prompt 1 - Structured Listing

Act as an Amazon KDP listing expert. I am publishing a book with the following details:

Input details:

- Title: [TITLE]
- Subtitle: [SUBTITLE]
- Book Type: [TYPE - Puzzle / Kids Activity / Journal / eBook]
- Target Audience: [AUDIENCE]

Generate:

- A clear and engaging book description
- A refined subtitle (optional improvement)
- 7 backend keywords
- 2-3 relevant KDP categories

Requirements:

- Content must be 100% original
- Description must be simple, clear, and benefit-driven
- Avoid exaggerated or unrealistic claims
- Use natural, readable language
- Focus on what the reader gains
- Keywords must be relevant and searchable
- Avoid trademarked or restricted terms
- Categories must match the book type
- Keep everything practical and ready to use

Prompt 2 - Conversion-Focused

Act as a KDP marketing specialist. Help me create a high-converting listing for this book:

Input details:

- Title: [TITLE]
- Subtitle: [SUBTITLE]
- Book Type: [TYPE - Puzzle / Kids Activity / Journal / eBook]
- Target Audience: [AUDIENCE]

Generate:

- A compelling book description
- An improved subtitle if needed
- 7 strong backend keywords
- 2-3 high-potential categories

Requirements:

- Description should focus on benefits, not features
- Keep tone clear and easy to understand
- Avoid over-promising or hype
- Keywords should reflect real search intent
- Subtitle should improve clarity and positioning
- Categories must be relevant and specific
- Keep output concise and effective

Prompt 3 - Clarity First

Act as an experienced KDP publisher. I want to create a clean and effective listing for my book:

Input details:

- Title: [TITLE]
- Subtitle: [SUBTITLE]
- Book Type: [TYPE - Puzzle / Kids Activity / Journal / eBook]
- Target Audience: [AUDIENCE]

Generate:

- A simple and clear book description
- A refined subtitle (if needed)
- 7 relevant backend keywords
- 2-3 appropriate categories

Requirements:

- Prioritize clarity over creativity
- Keep language simple and direct
- Description should be easy to read
- Keywords must be practical and relevant
- Avoid unnecessary wording
- Categories should match the content
- Keep everything beginner-friendly

Prompt 4 - Product Positioning

Act as a KDP product positioning expert. Create a strong listing for the following book:

Input details:

- Title: [TITLE]
- Subtitle: [SUBTITLE]
- Book Type: [TYPE - Puzzle / Kids Activity / Journal / eBook]
- Target Audience: [AUDIENCE]

Generate:

- A benefit-driven book description

- A refined subtitle (optional)
- 7 targeted backend keywords
- 2-3 relevant categories

Requirements:

- Focus on why the book is useful
- Highlight reader outcomes
- Keep tone natural and professional
- Keywords should support discoverability
- Avoid generic or vague wording
- Categories must align with the book type
- Keep output structured and usable

Prompt 5 - Execution-Focused

Act as an Amazon KDP execution expert. I am publishing a book with the following details:

Input details:

- Title: [TITLE]
- Subtitle: [SUBTITLE]
- Book Type: [TYPE - Puzzle / Kids Activity / Journal / eBook]
- Target Audience: [AUDIENCE]

Generate:

- A ready-to-use book description
- A refined subtitle if required
- 7 backend keywords
- 2-3 categories

Requirements:

- Output must be ready to use immediately
- Keep everything simple and practical
- Description should be short and clear
- Keywords should be relevant and usable
- Avoid complex or creative wording
- Categories should be accurate
- Focus on execution, not perfection
