

NISCO PHILS. ENTERPRISE

SOYA MILK & TOFU MAKING MACHINE

PRODUCE UNDER JAPANESE ENGINEER SUPERVISION

MODEL : SN-T30

Tofu Machine Dimension:	1300 x 870 x 1550mm
Weight :	145 kgs
Presser :	755 x 735 x 800mm
Weight :	45 kgs.
Voltage :	220V/380V
Power Consumption, Choices of:	
Electric :	220V 13.5kw
LPG type :	1.5kg/hr & 750w motor
Capacity :	soymilk 100~120kg/h
	Tofu/Bean Curd 30~40kg/h

Specifications:

1. Equipped with a steam generator
2. High pressure boiling pot reduces noise & energy consumption, environment friendly, produce good taste that reduces soybean smell and harmful substance.
3. Less steam and water flow out in the production process, ensures production environment clean and safe
4. Made of stainless steel, compact, easy to operate
5. Easy to transport, install, and maintain. Suitable for school, restaurant, supermarket, factory, etc.
