How To Use Your Fundraiser's Planner

CONGRATULATIONS! And welcome to The Fundraiser's Planner –the first comprehensive journal and planner designed specifically for fundraisers and nonprofit leaders – created by fundraisers for fundraisers.

The Fundraiser's Planner incorporates the best in personal time management and goal setting with high-level fundraising focus to help you manage your day and reach your fundraising goals in one, easy-to-use system.

By taking the time to invest in yourself and writing your goals and actions down, you're already setting yourself up for success. Articulating your goals and writing them down means you stand a greater chance of achieving them.

The Fundraiser's Planner is designed to be intuitive and easy-to-use. The prompts in each section are meant to encourage your thinking and creativity and give you space to track both personal and professional goals. The following notes may help guide you in how to use each page.

- 🕒 The months and dates are intentionally left blank so that you can customize it to your calendar or fiscal year.
- 🕒 It's arranged in order so that you can set your yearly goals, followed by your quarterly goals.
- 🕒 The first Quarterly Goal Setting page sets up your goals looking forward, while quarters 2,3, and 4 have space for reflecting on successes from the prior three months.
- 🕒 Each quarterly section is followed by three monthly sections consisting of the week and daily pages for each month.
- 🕒 There are five weekly pages for each month; if a particular month does not have five weeks, you may wish to use those extra pages for additional notes, task tracking, or be creative and add pictures or quotes that inspire you. It's your planner; make it work for you!

My Purpose

Before you dig deep into goal setting, set aside some time to reflect on your work as a fundraiser, why you do what you do, and what it means to you personally. By connecting your individual purpose – your “why” – to your daily work, you can create a deeper, more meaningful connection to the work itself. It helps you set clear goals and overcome obstacles by grounding yourself in a sense of gratitude and meaning.

Personal Goal Setting

You may choose to use these pages for goal setting in your personal or professional life. They're different than your specific fundraising goals because these are for you as an individual fundraiser, not organizational or institutional goals. Remember that goals should be:

SMART

Specific • Measureable • Achievable* • Relevant • Time-Bound

*(*May also be "Aspirational" and that's pretty exciting!) The Personal Goal Setting pages give you space and prompts to develop SMART goals and tie them back to your Purpose.*

Annual Fundraising Goals

This is your space to develop your annual fundraising strategies and tactics – what will you need to do to reach your fundraising goals this year? Make the distinction between a strategy and a tactic. A *strategy* is your high-level, overarching goal that is part of your overall plan or budget. A *tactic* is what you do to achieve the strategy. For example, your fundraising strategy might be “Increase the amount of dollars raised from foundations by 20% this year” (high level, specific, time-bound) – the tactics you would use might be “Identify 5 foundations that have never funded us before; Ask the board to identify foundations they are familiar with for additional research,” etc.
