

BONUS 3

Bedtime Stories of Jesus Coloring Pages

A Note for Parents & Caregivers:

These Gospel Coloring Pages were designed with intention.

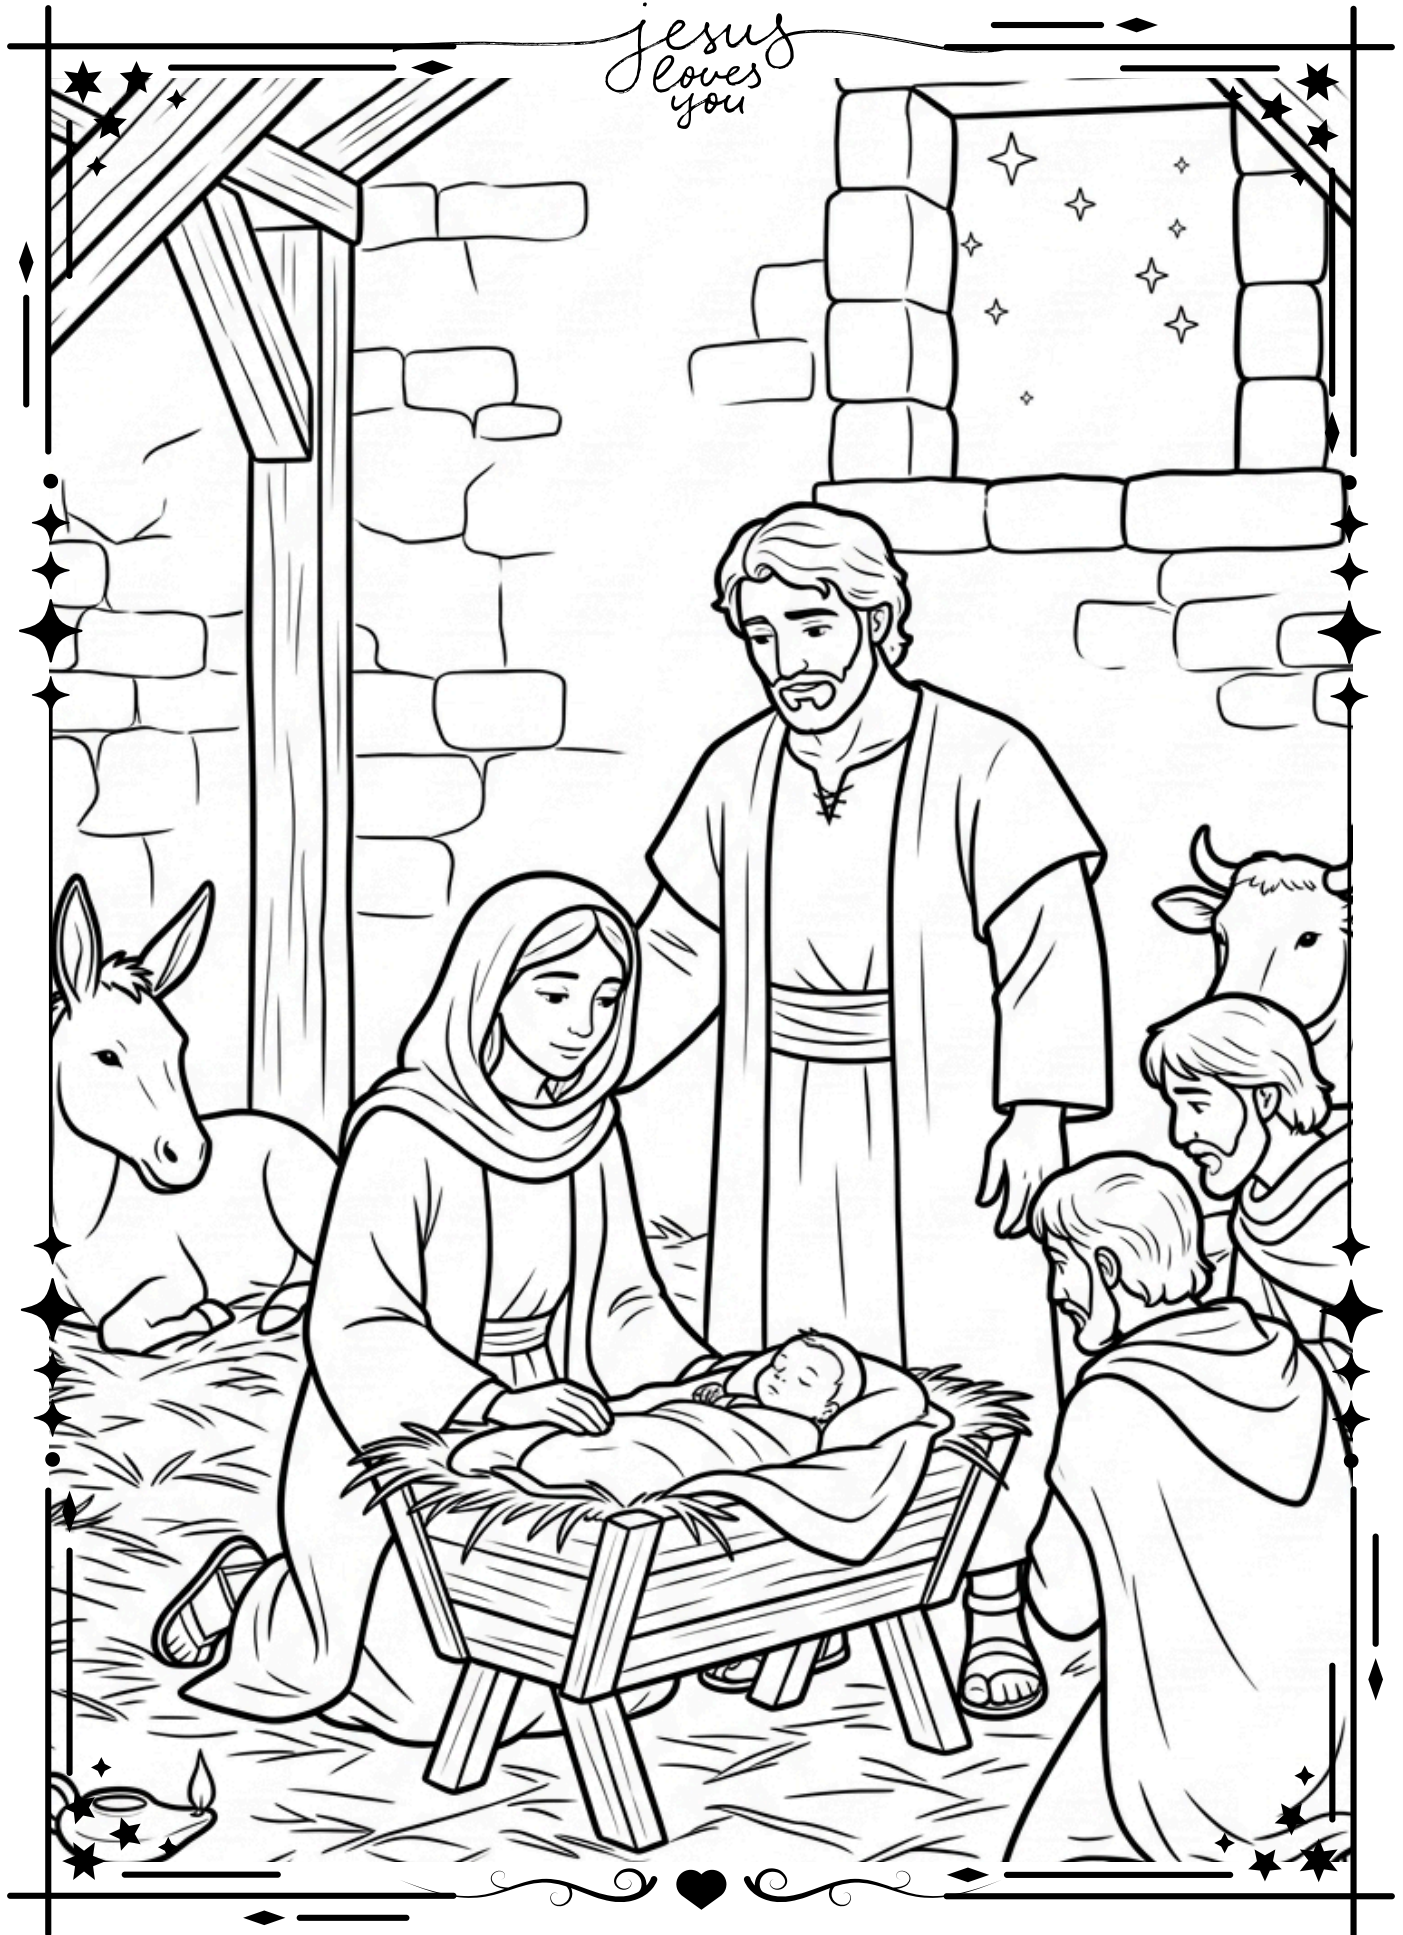

Some pages are line-art versions of the illustrations from the book, so children can return to the same scenes they loved while reading. Others simplify those same Gospel moments with larger shapes, clearer outlines, and more open space, making them easier for younger children or for kids who are still building confidence with coloring.

This variety is meant to serve real families. Not every child colors in the same way, at the same age, or with the same level of detail. Some children enjoy fuller scenes with more to explore. Others do better with simpler pages that feel calm, clear, and easy to finish.

That is why the styles are gently mixed on purpose. The goal is not perfect uniformity. The goal is to make these pages welcoming, usable, and joyful for a wider range of ages and coloring levels.

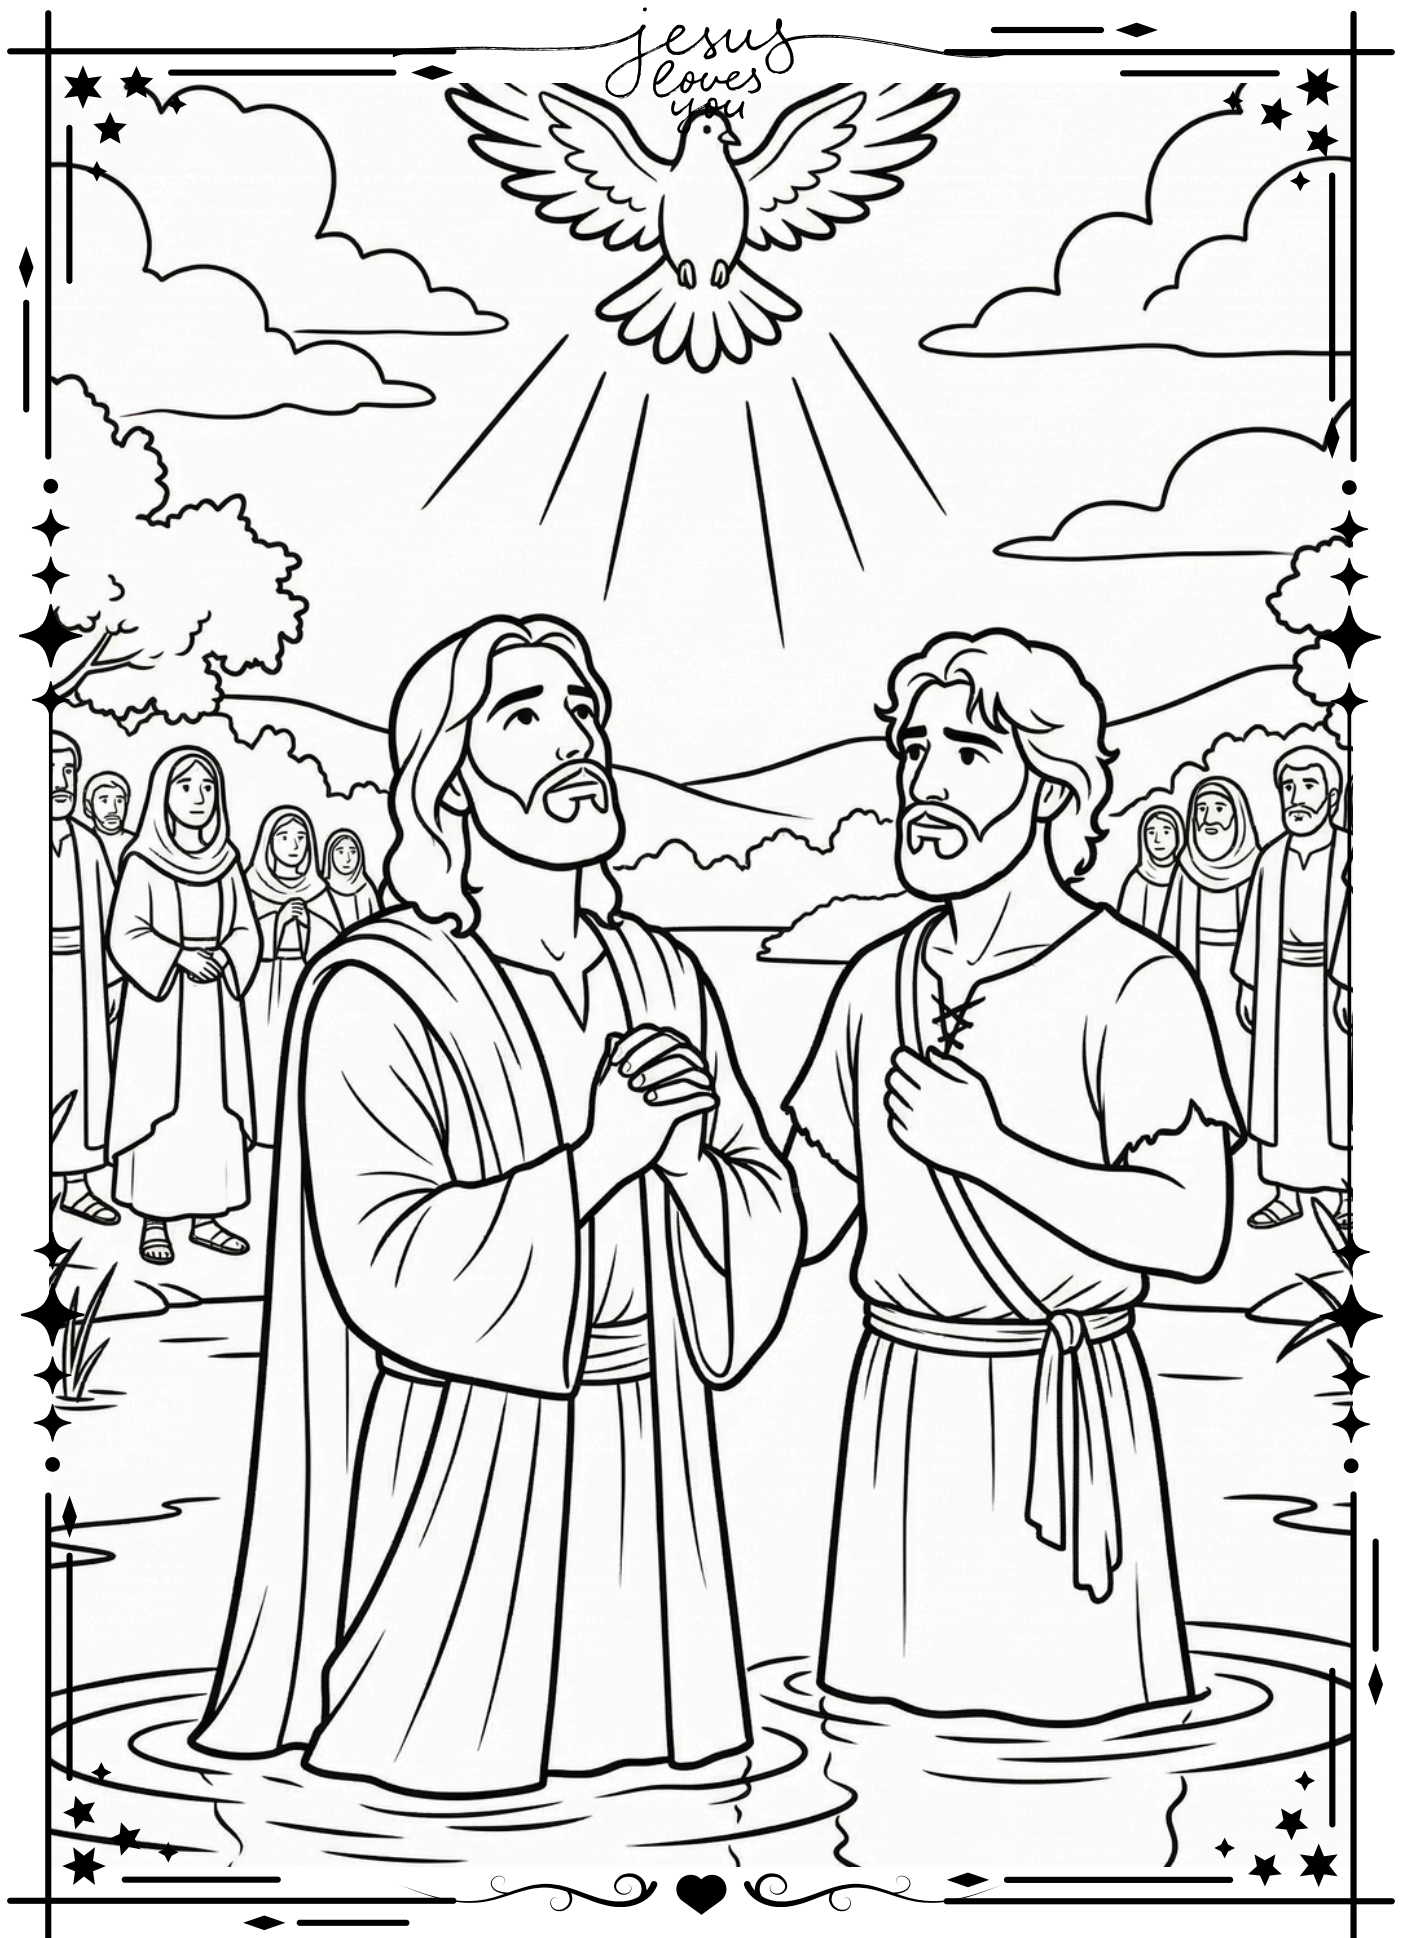

However your child uses them, each page is one more way to return to the stories of Jesus — slowly, creatively, and with love.
