HOOK

- 1 Hey I'm X
- 2 I started this
- 3 Here's the

CAPTION

Here's the honest reality...

I started with ZERO experience in social media, business, or marketing.

I thought earning passive income from this business model would be easy. I couldn't have been more WRONG.

When you start from zero, there is NOTHING passive about this business in the early days.

If you are into this thinking that you'll earn \$1k a month as a beginner working only 1-3 hours a day, you'll be one of the lucky 1% that do.

It's always the real account that shows you that it is ABSOLUTELY possible to learn the skills and strategies you need to build a successful business on Instagram if you put in the hard work!

If you're reading this and are struggling - I've been there!

Just please don't stop. You'll find what works and what doesn't. You'll get better, and things will get easier.

The only failure is failure. So keep fighting. I promise it is so worth it when your hard work starts to pay off!

HOOK

HOOK

1 I gave a stranger \$299 for a digital marketing course and got scammed...

2 right into ...

3 \$X debt paid off and our bills being paid for the next X months

CAPTION

Don't fall for this scam... unless you can do these 3 things:

- 1 Take a risk. The best things in life usually come with a big risk.
- 2 Start even though you don't feel "ready." I hate to tell ya, you never will.
- 3 Turn every excuse you have into your "WHY." Stop telling yourself the reasons why it couldn't work for you and think... but what if it could?!

I didn't even know what digital marketing was months ago...

But I was willing to try something that was determined to change my life situation.

And now that I know what's possible, I am shouting it from the rooftops: double for the everyday person!
