

Certifications

Enagic EU is a proud member of the Direct Selling Europe. DSE represents the interests of the sustainable, ethical and consumer-oriented direct selling industry in the EU. Direct Selling Europe (DSE) distinguishes itself by exclusively representing companies and associations that have a irreproachable reputation and implement sustainable and ethical business practices towards both consumers and sales consultants alike.

The Direct Selling Association (DSA) is the national trade association for companies that offer entrepreneurial opportunities to independent sellers to market and sell products and services, typically outside of a fixed retail establishment. Enagic International is a member in good standing. Only 200 (approximately) companies are members of this highly-prestigious association

Our ISO 9001 certification means that our quality management system has been audited and reviewed by an official registrar to ensure that our systems are focused on meeting customer's expectations through certified procedures and a continual improvement process. We never waiver in our commitment to provide products that contribute to improved health and to the global environment, coupled with best-in-class quality and customer service.

ISO 14001 is the world's most recognized environmental standard. Our certification to this standard ensures that we've mapped out a framework for environmental management with the best practices to help minimize our environmental footprint. Specifically, we work to secure materials with a low environmental load, to reduce, reuse and recycle waste, and to conserve natural resources and achieve energy-efficiency in order to prevent global warming. Our team observes all laws, regulations and standards with regard to the environment and safety. Our employees are thoroughly trained to raise their awareness of environmental and safety issues for the prevention of environmental and work-related accidents. All practices and procedures have been certified by an official registrar.

ISO 13485 signifies that our quality management system demonstrates its ability to provide medical devices and related services that consistently meet consumer and regulatory requirements applicable to medical devices and related services.
