

Ukon

Every day, your body faces stress from the environment, food, and lifestyle. This can affect your cells, energy, and immune system. Ukon helps protect your body with natural antioxidants that support balance, vitality, and daily wellness.

What is Ukon?

Ukon, also known as turmeric, is a golden root that has been used in traditional Okinawan and Asian medicine for centuries. Enagic's Ukon supplement is made from organically grown turmeric cultivated in Okinawa, Japan—an area known for its longevity and clean environment. What makes Ukon truly unique is that it's encapsulated using Kangen Water®, ensuring superior purity and absorption.

The Science Behind Ukon

Ukon contains curcumin, the active compound responsible for its vibrant color and powerful antioxidant effects. Enagic's unique production process blends spring and autumn turmeric varieties and combines them with essential oils and Kangen Water to enhance bioavailability.
