FRANCHISE VIDEO SUBSCRIPTION PROGRAM

Structured, scalable and fully
flexible video content from just
\$495* per month.

How The Subscription Works

1. Choose your tier

2. Receive your annual points

3. Select the videos you want

4. Submit a booking request

5. We produce your content

6. Points are deducted

Your Budget v How Much Content You Want

Tier	Per Year	Annual Points	Cost Per Point
\$495mth - Foundation	\$5,940 p.a	60 points	\$99
\$795mth - Growth	\$9,540 p.a	100 points	\$95
\$1,450mth - Momentum	\$17,400 p.a	200 points	\$87
\$1,850mth - Expansion	\$22,200 p.a	265 points	\$84

Any time you want more points for more videos, you can buy extra points at your tier rate in parcels of 25 points throughout the year.

Further Savings & Value

Promotions and events during the year, as well as limited further discounts may also be available - ask at the time of joining.

Frequently Asked Questions

How do I save the most marketing \$ to get the best bang for buck?

Great question. Minimising travel is the most obvious and easiest way to save your points for videos. But don't avoid travel just to save a few points if that is the location for the perfect video you want (ie the ideal franchise partner). Also, the virtual podcasts and content is the ideal way to get greater volume of content for your spend.

Can I save more by paying full up-front?

Yes, at times we run limited time promotions where pay in full up-front for a further discount may be available. Please ask to check if the option is available for you.

Can you help me build my video plan?

Yes, of course! We're experts and have been working with franchise brands for 14 years in telling their stories to the market, so just ask...

Do you have promotions to get even better value?

Yes we do. From time to time we offer limited time promotions on points bonuses and products - for new products or events in particular. Ask us if any of these are in effect or coming up when enquiring.

Do you charge a campaign on-boarding fee as well as the monthly payment?

No we don't, we think this just reduces and disguises true value in this particular subscription model.
