

Funded Trading Quick Start Checklist

Apex Traders Club — Funded Trading Made Simple

Welcome

You’re in the right place — this is your first step into funded trading, the path where you trade real capital ***without risking your own money***.

Most beginners think trading requires putting their savings on the line. That’s why so many people hesitate or give up before they even start. Funded trading changes that.

Here’s the simple truth:

• A funded account means you trade ***firm capital, not your money***.
• Your only job is to follow the rules with discipline and consistency.
• If you can stay structured, the opportunity grows — larger accounts, more freedom, and the ability to keep the majority of your profits.

■ Important: You don’t need to know everything today. Think of this as the very beginning of your journey. Your deeper skills will come step by step — through the videos, emails, and free coaching resources you’ll receive along the way.

Mindset Checklist

✔ Keep it simple. Don’t overcomplicate things.

✔ Follow the rules. Structure and discipline create opportunity.

✔ Stay patient. This is a journey — you won’t understand everything immediately.

✔ Control emotions. Deviation, emotion, and impulse are the silent killers of your edge.

✔ Think long-term. Success comes from many trades, not chasing one “big win.”

✔ Stay consistent. Small, steady steps are what build cashflow.

"Disciplined trading turns a funded account into a long-term cashflow asset."
