What is Astragalomancy?

Historical Background

Origins and Usage

Dates back thousands of years and practiced in various cultures. Associated with religious rituals and oracular practices.

Materials Used

Early forms utilized animal bones marked with symbols or numbers. Over time, these were replaced by dice with similar markings.

Cultural Significance

Practice was linked to deities like Hermes in Greek mythology and was used for purposes such as predicting the future, diagnosing illnesses, or determining character traits.

Methodology

Casting Dice/Bones

A set of dice (or bones) is cast onto a surface, sometimes within a pre-drawn circle.

Interpreting Results

- Numbers or symbols are associated with specific meanings.
- Numbers may correspond to letters, forming words relevant to the diviner's question.
- Sum of dice rolls may also be matched to predetermined interpretations or lists of answers.

Rules and Variations

- Dice falling outside a designated area may be excluded from interpretation.
- Special occurrences, like one die landing on another, can carry unique meanings.

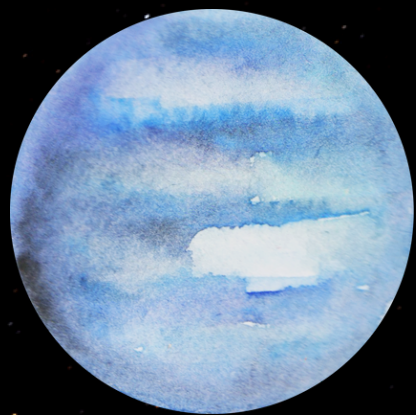

Modern Practice

Astragalomancy remains a niche but enduring form of divination.

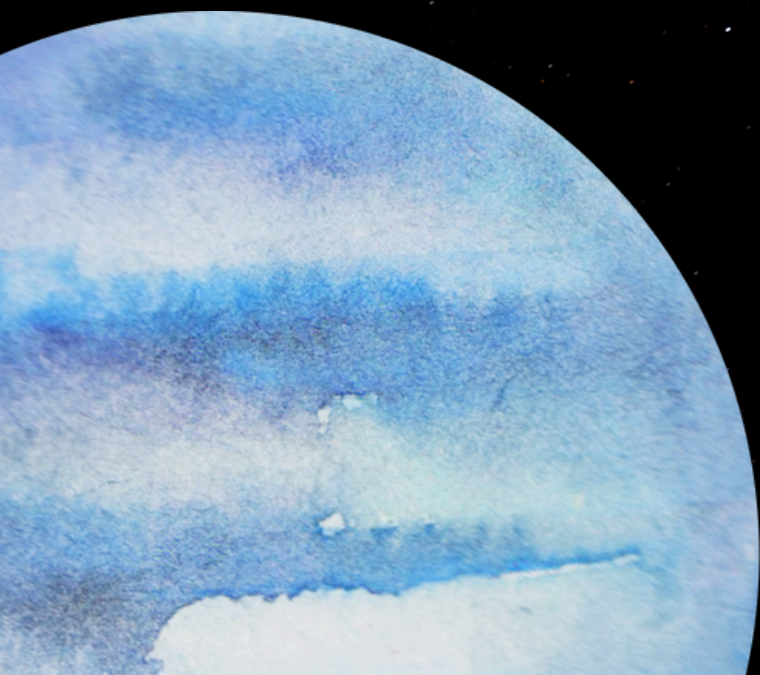

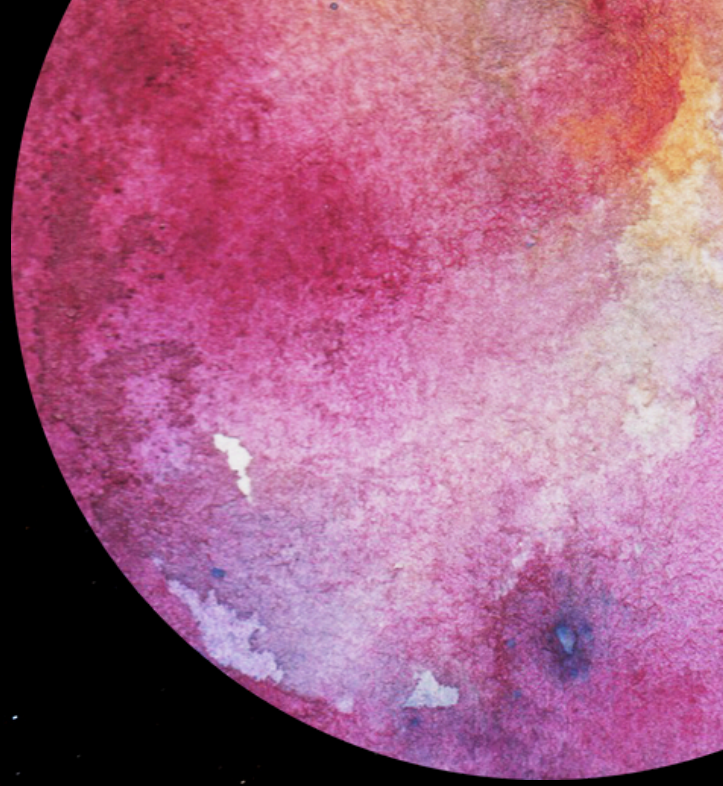

Contemporary practitioners may use modern dice or replicas of ancient astragali for insight into personal questions or spiritual guidance.

It is often compared to other forms of cleromancy, such as pessomancy, which uses pebbles instead of dice.

This method reflects humanity's long-standing fascination with randomness as a means to access divine or hidden knowledge.

Three Questioning Techniques

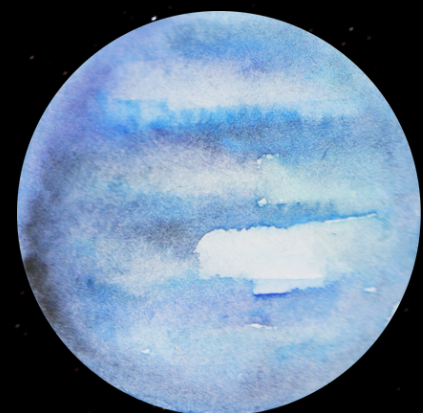

Three Questioning Techniques:

Ask the Dice

Ask the Dice

Prefer Choice-Based
over Fate-Based
Questions

“How best can I prepare for my upcoming job interview?” is a better question for your intuition than “Will I get the job?” and ultimately puts YOU in the driver’s seat.

Interpret as a Sentence

PLANET SIGN in my HOUSE

Venus / Gemini / 7th

I value curiosity in my relationships.

What does this tell you about your question?

How can I
grow in my
career?

South
Node

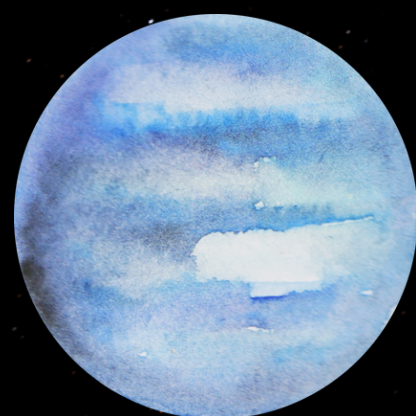

Libra

Seventh

I am regressing in the area of balance in my relationships.

To grow in my career, I need to examine my significant professional relationships and consider which ones need me to focus on restoring balance and harmony.

How do I
become a
better partner?

Uranus

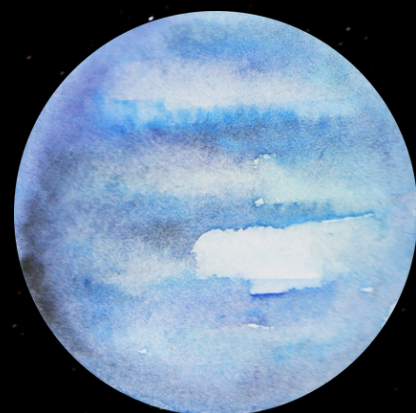

Sagittarius

Sixth

I make changes in the area of health and routines with wisdom.

To become a better partner, I might want to consider how the changes I'm making or want to make to improve my health impact my partner.

What self-care do I need?

Mercury

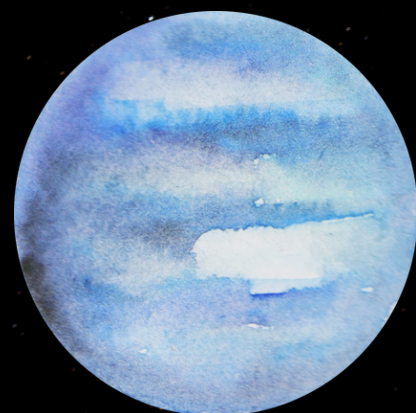

Taurus

Tenth

I focus my thoughts on abundance in the area of my public reputation and career.

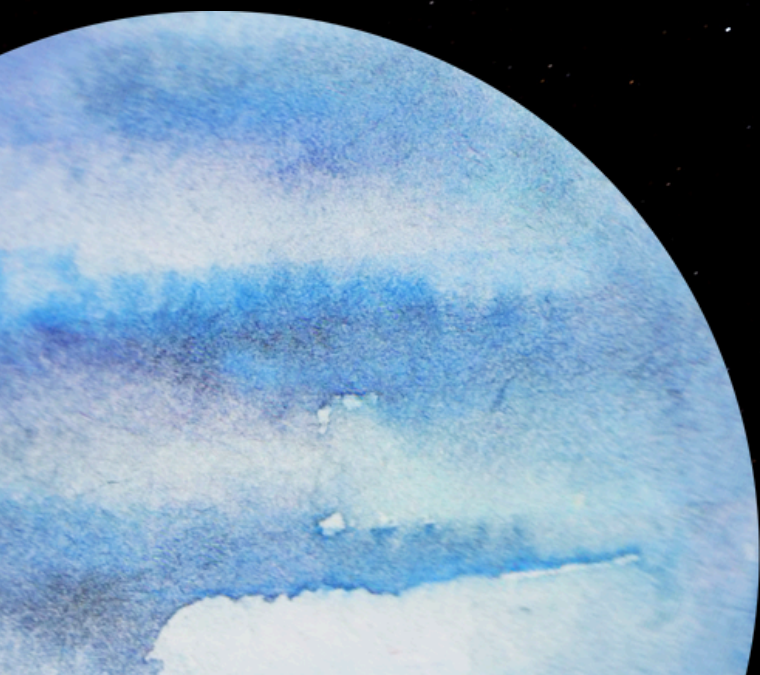

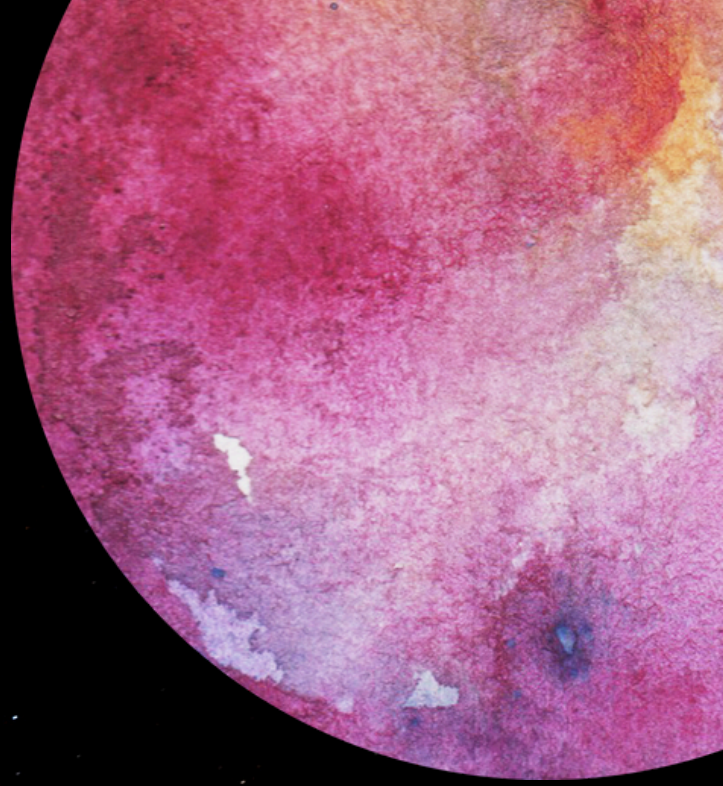

Perhaps the self-care that I need is to manifest this exact change in my thoughts. Do I focus my mind on abundance or scarcity in this area? What do I believe an abundant public reputation/career to be?

Three Questioning Techniques:

Ask Your Chart

Where is my blind spot?

Roll One

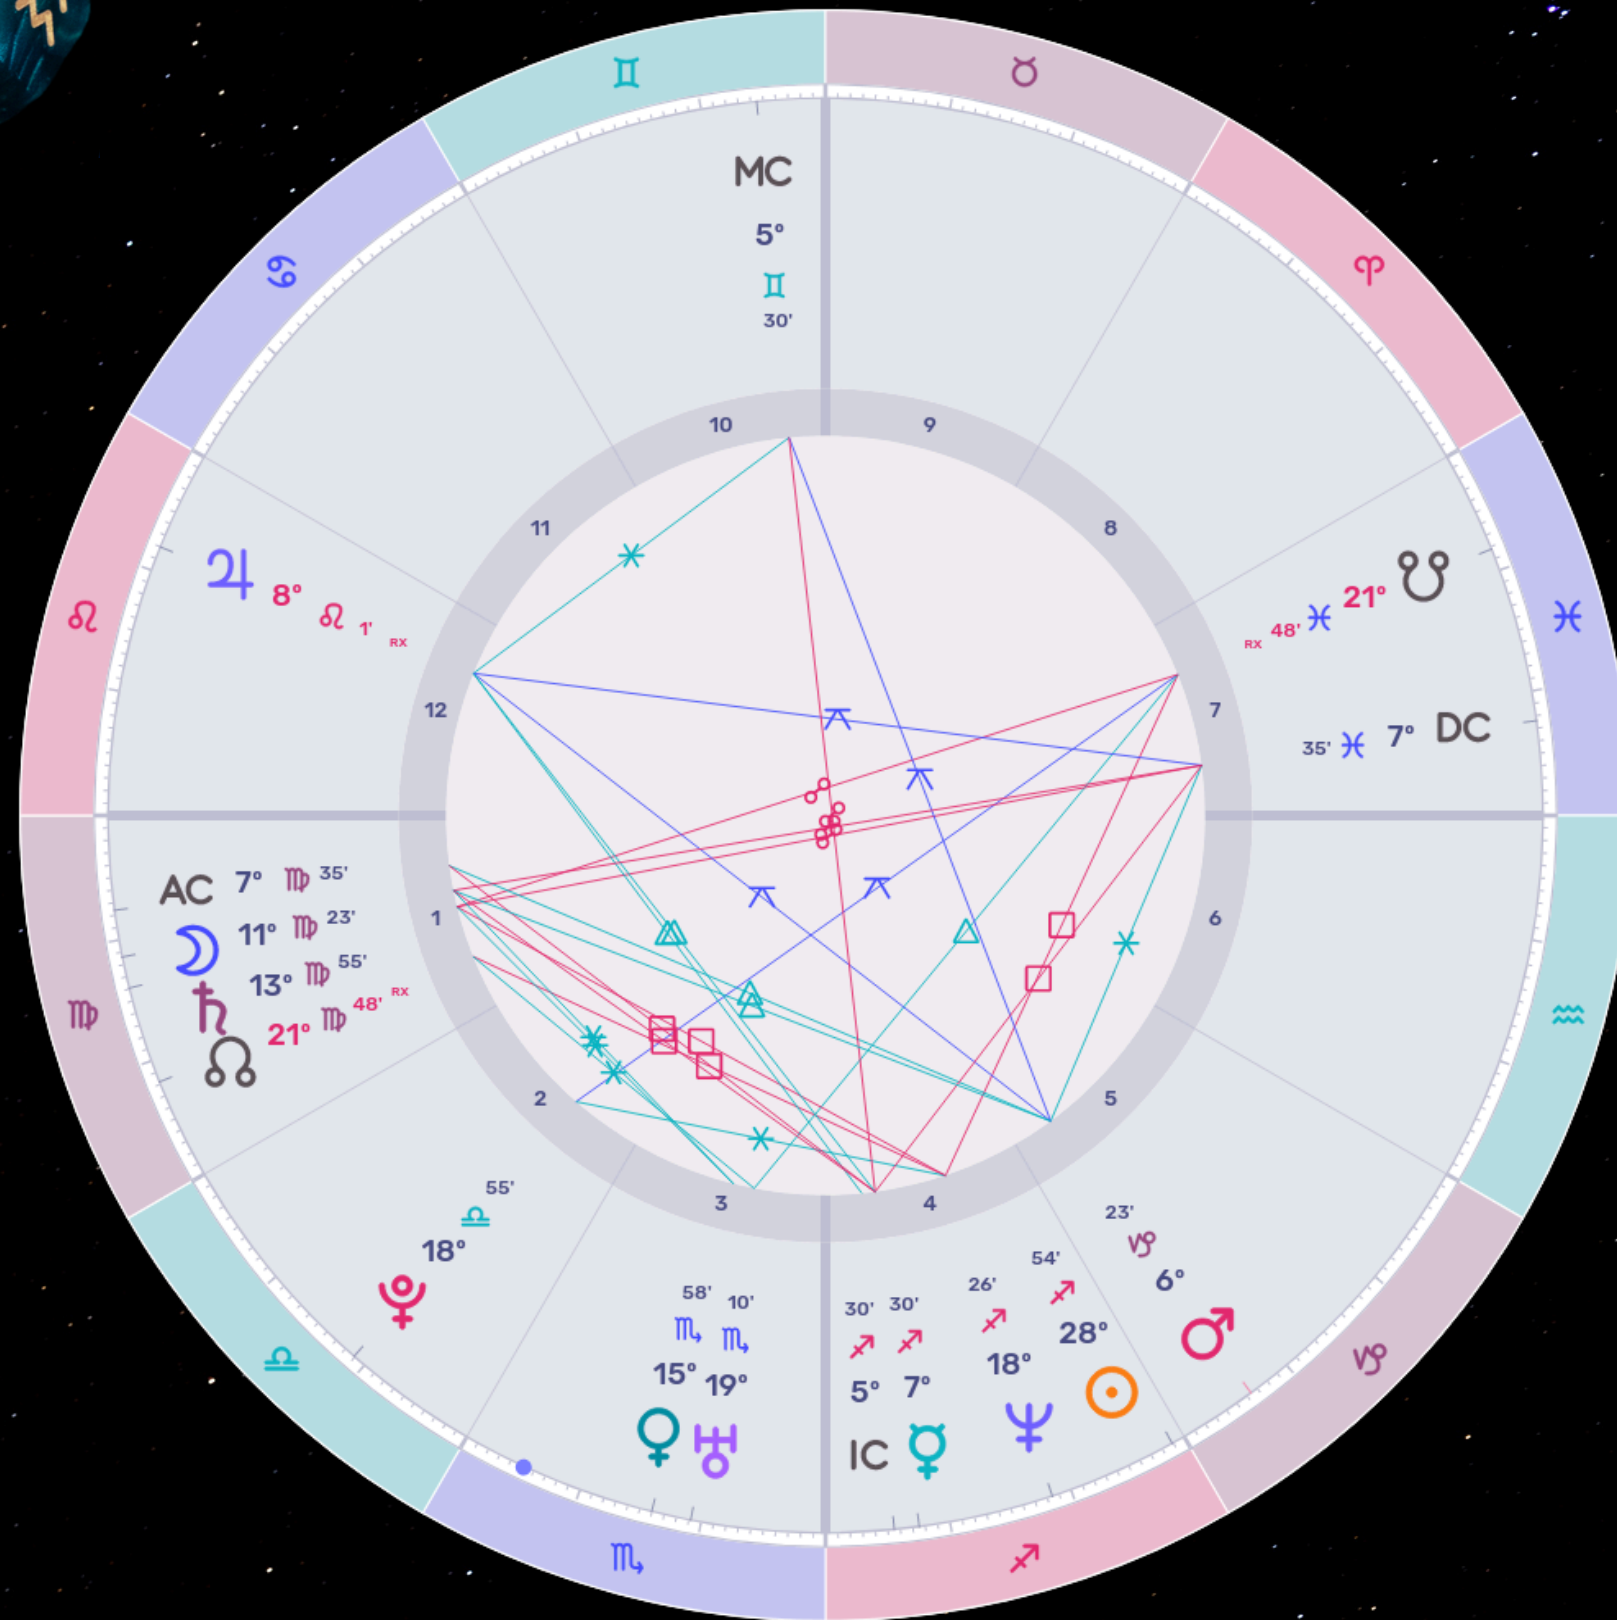

Uranus

Uranus is at 19° Scorpio in my Third House, and it's conjunct Venus at 15° Scorpio.

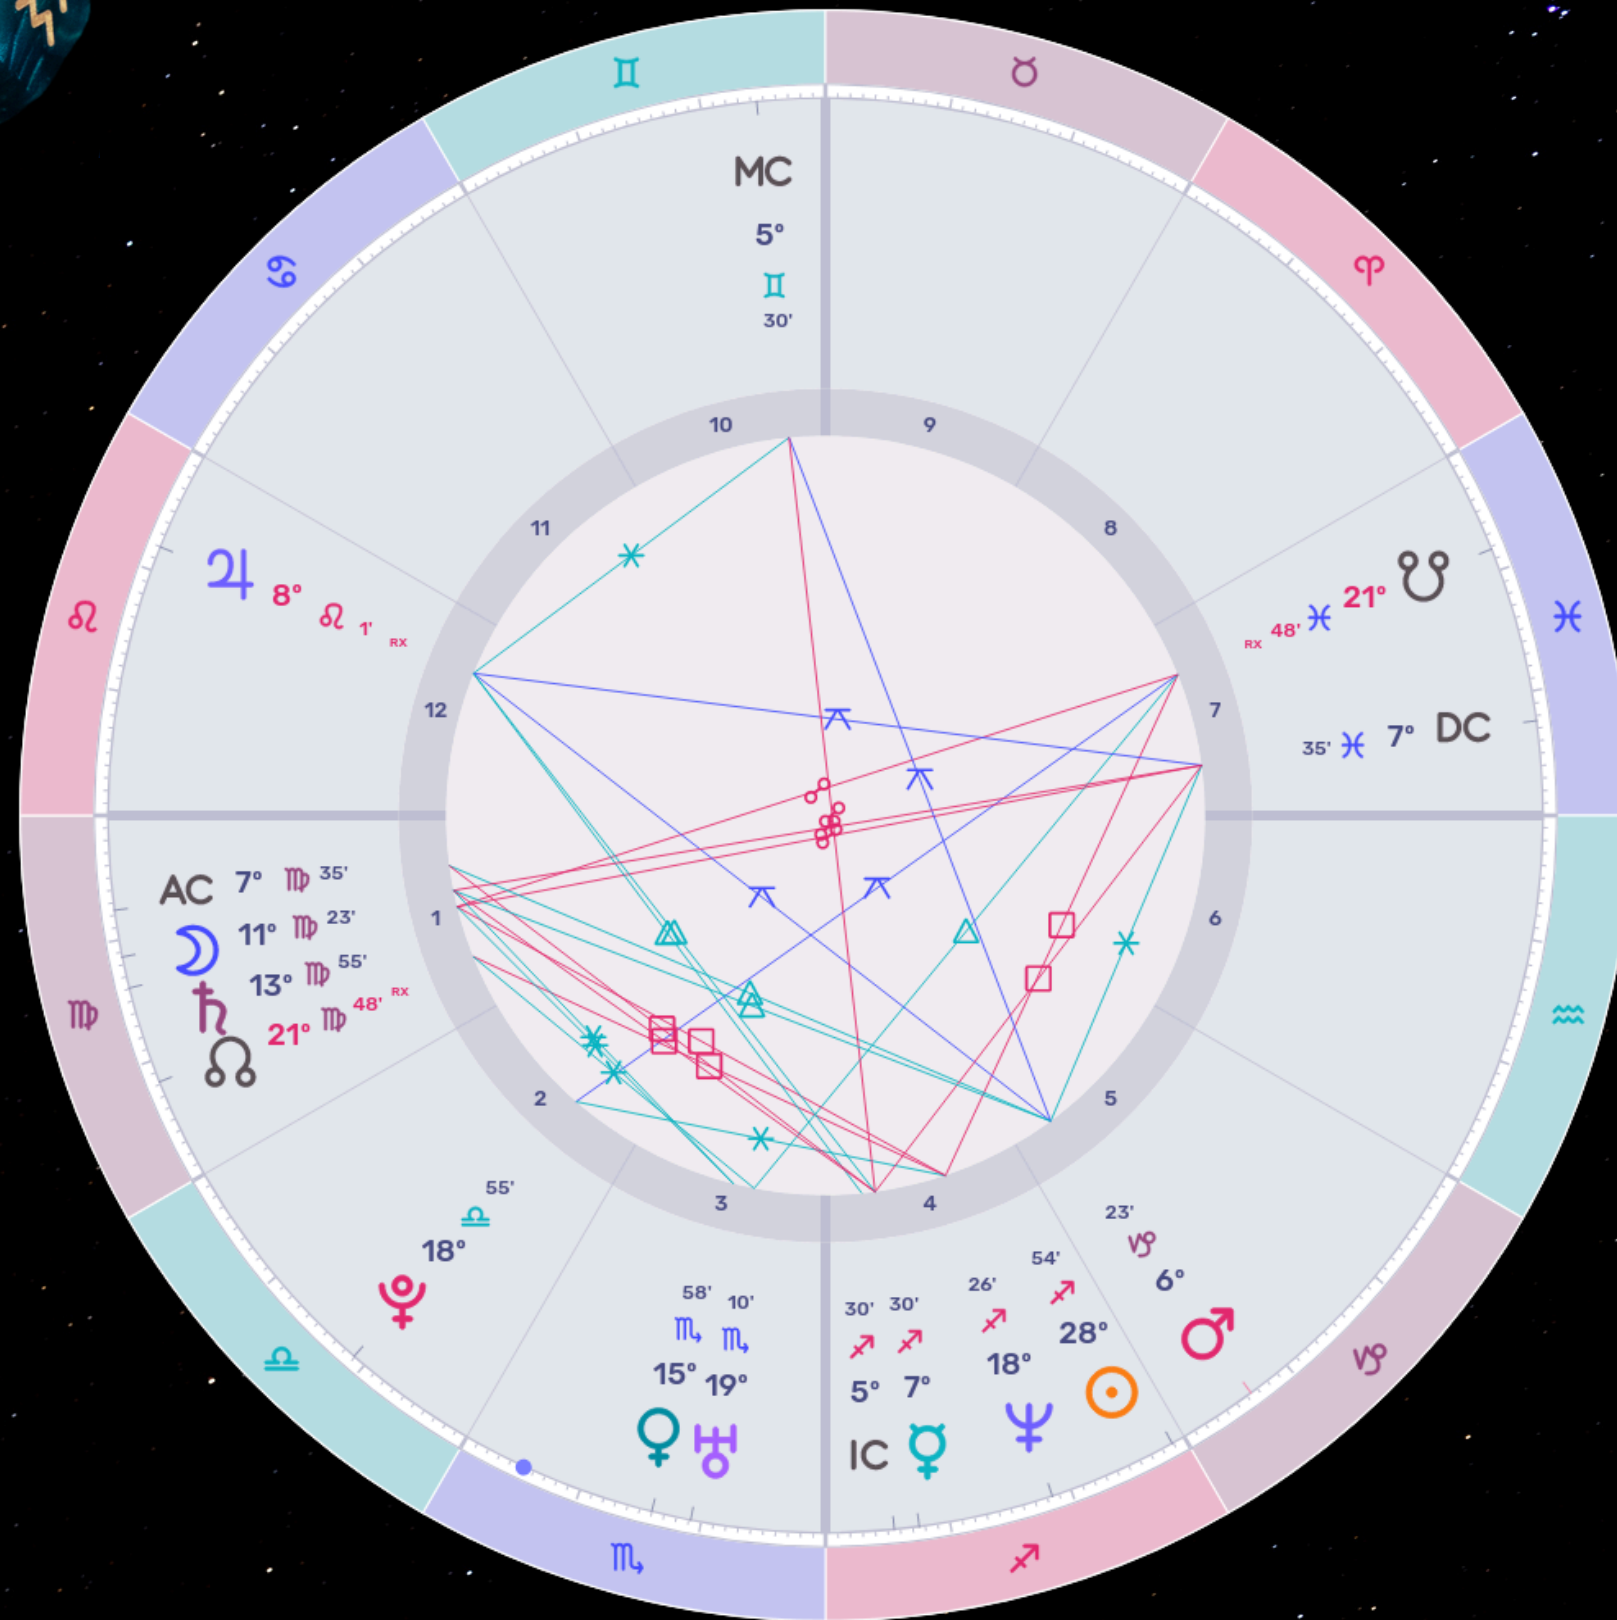

I value transformational change in the area of communication.

I probably don't have much time/patience for idle chit-chat. Am I potentially turning people off by rebelling against "social norms?"

Where is my blind spot?

Roll Two

Uranus

Fourth

My 4th House is next door in Sagittarius, and brings along Mercury, Neptune, and the Sun.

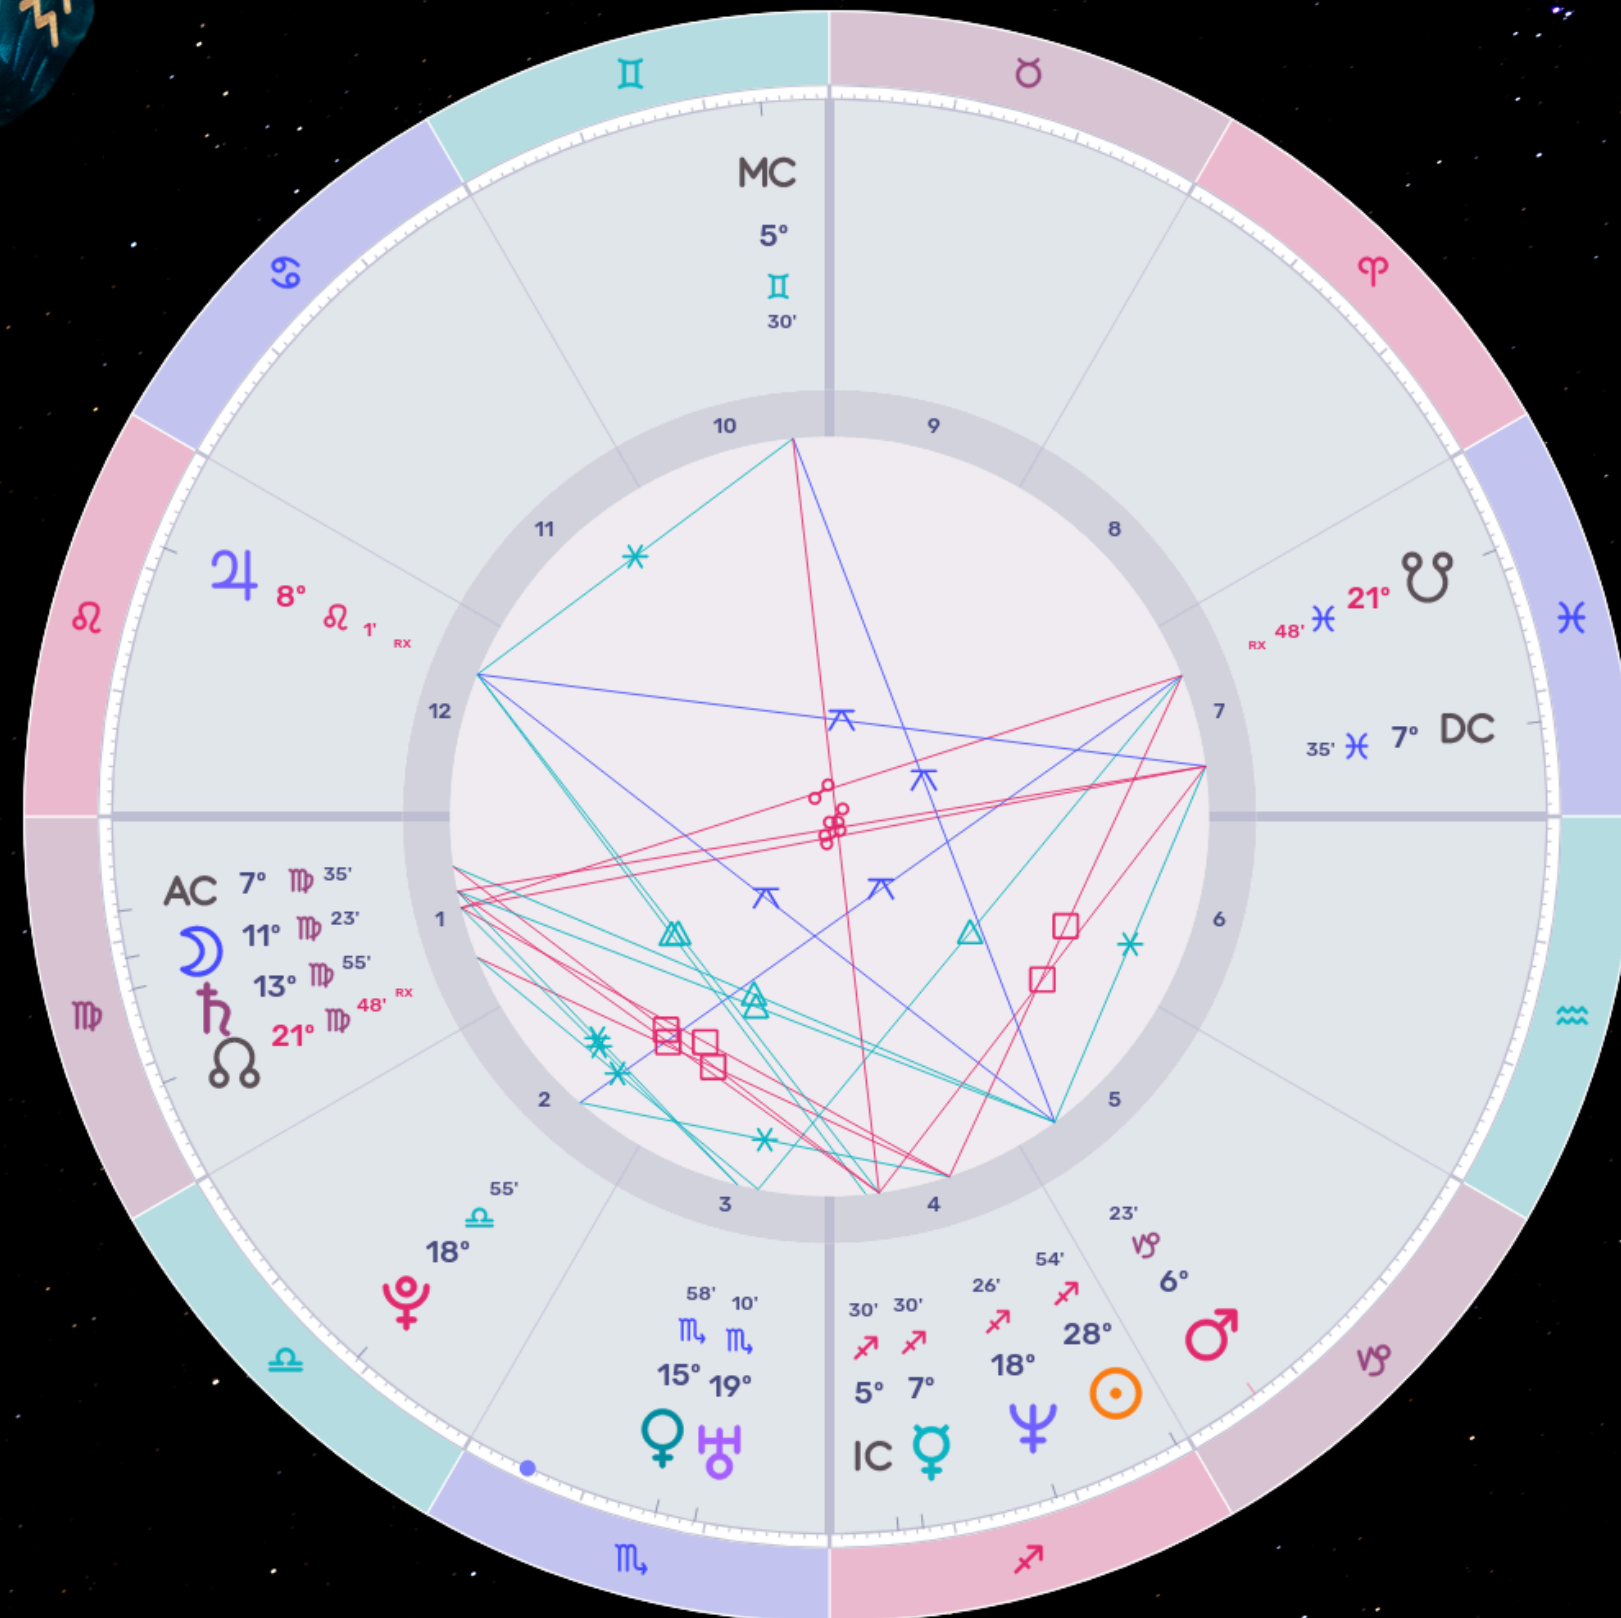

I am a wise and dreamy thinker in the area of safety/security. + I value transformational change in the area of communication.

This combo is really interesting - is my blind spot the fact I don't consider others' ideas about safety and security as I continually talk about deep transformational change?

Where is my blind spot?

Roll Three

Uranus

Libra

Fourth

Libra is next door the other direction in my 2nd House. This introduces the energy of Pluto into the mix.

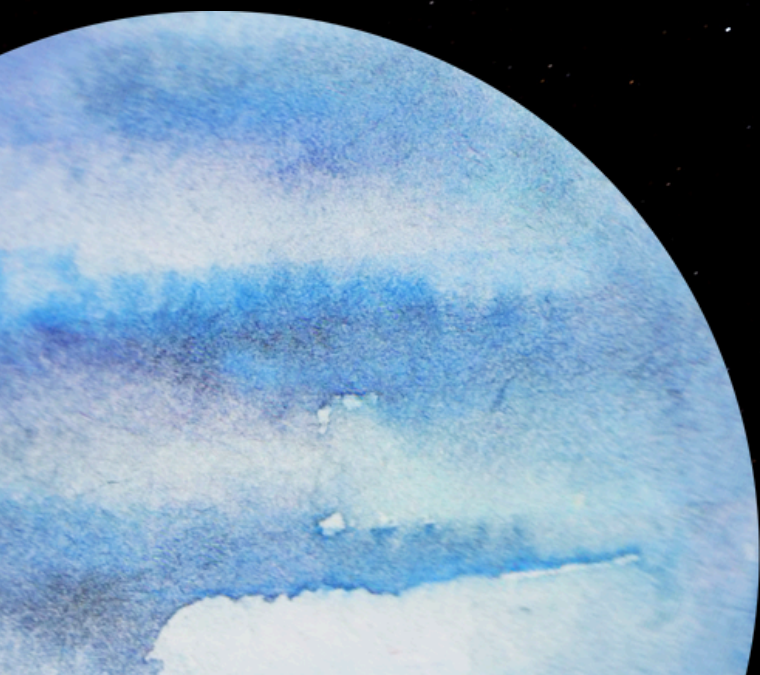

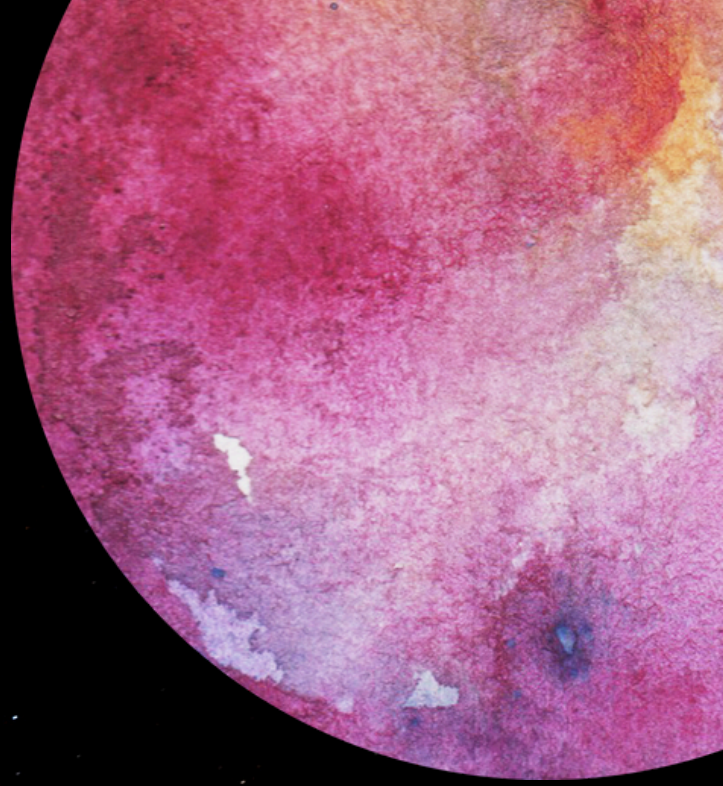

I destroy harmony/balance in the area of money/possessions. + I am a wise and dreamy thinker in the area of safety/security. + I value transformational change in the area of communication.

This combo adds even more nuance - it's my focus on destructive transformational change in the area of money and property that is turning people off by threatening their safety/security.

Three Questioning Techniques:

Ask the Sky (Transits)

What's being activated for me right now?

Roll One

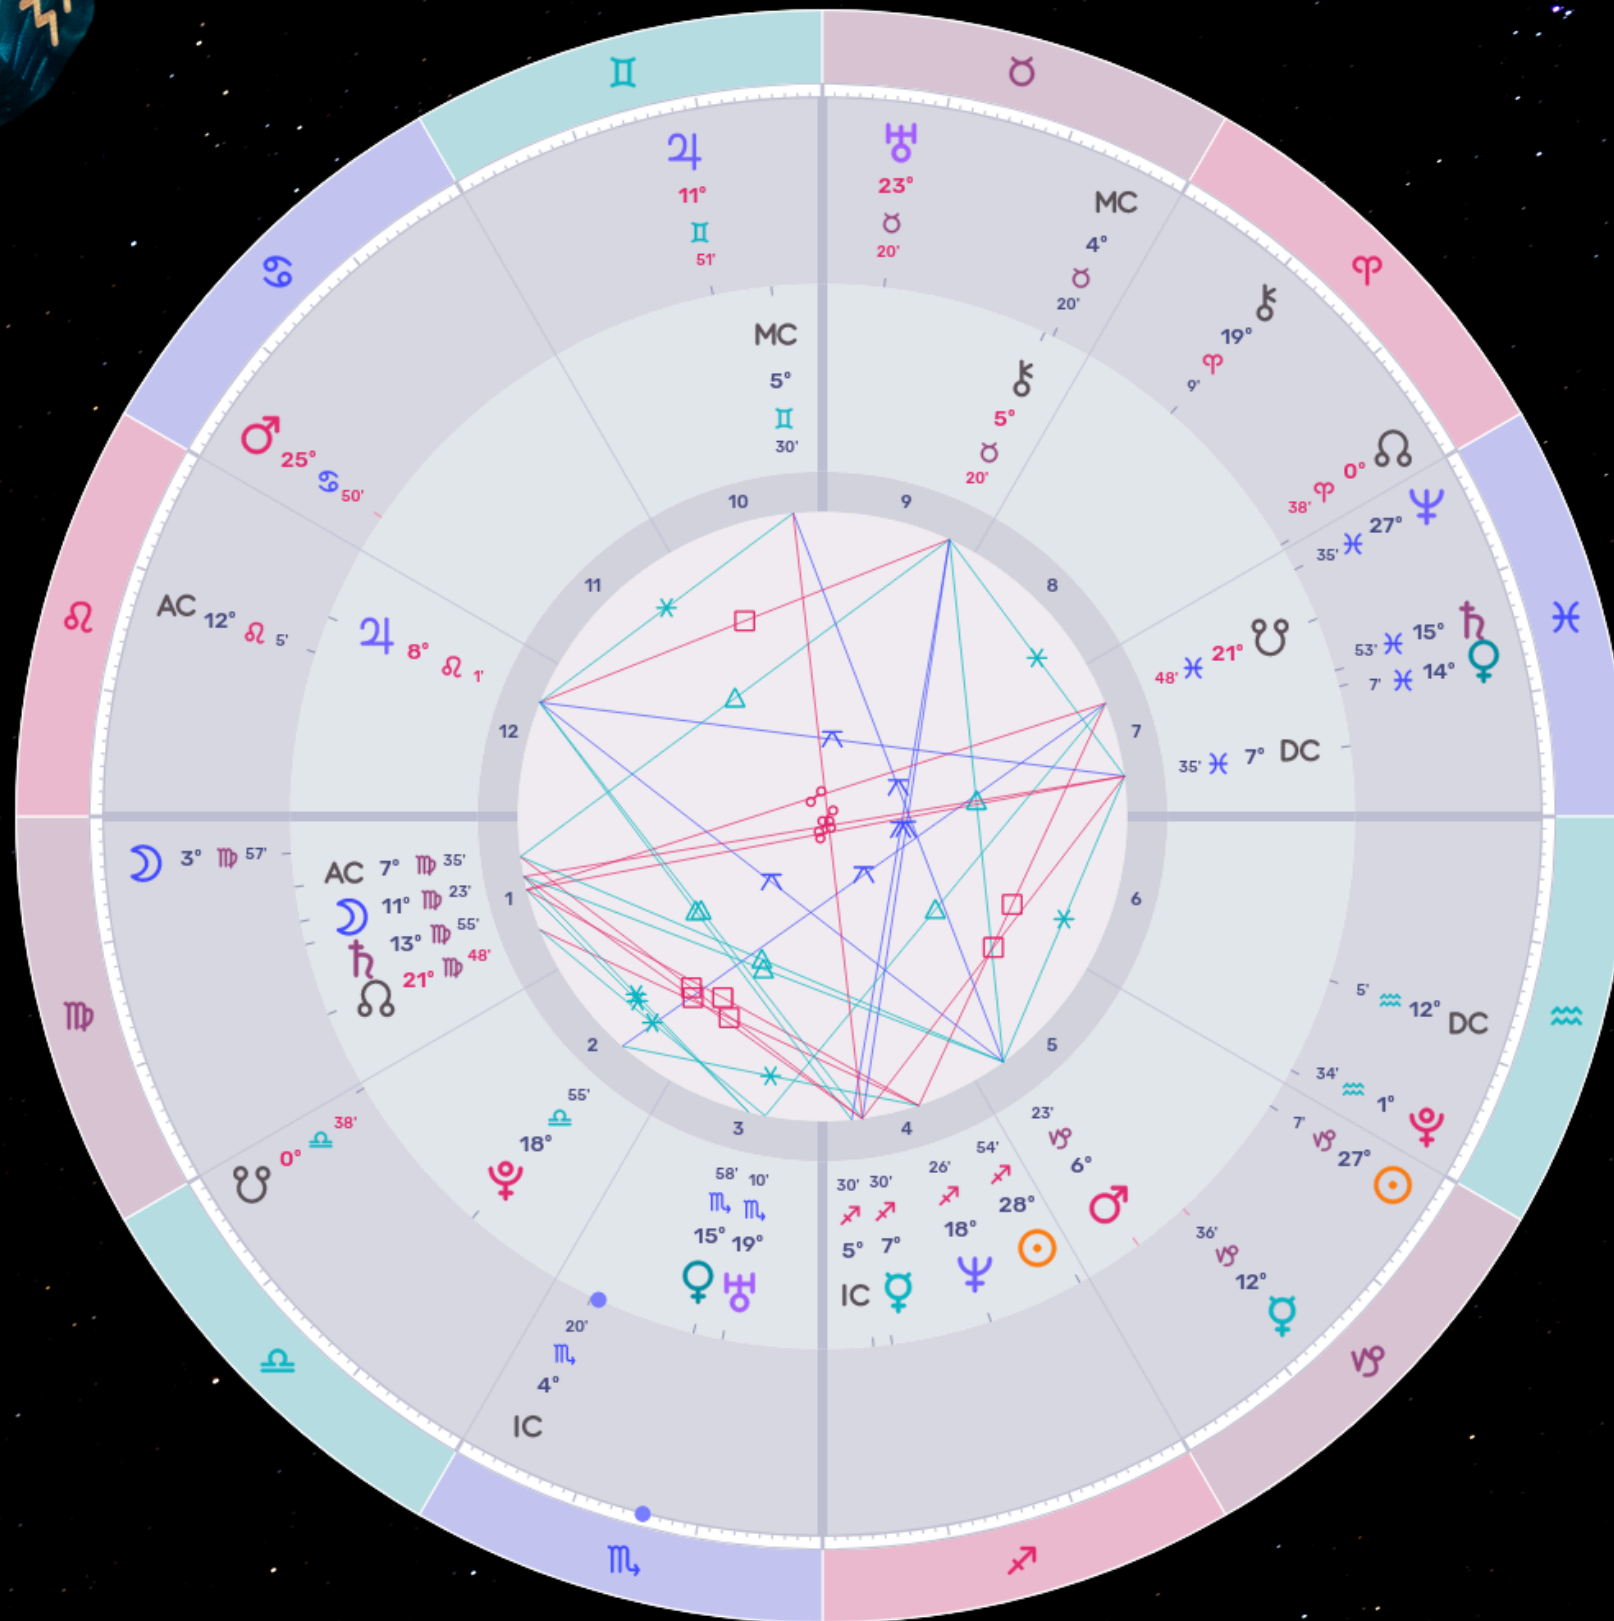

4

Jupiter

Jupiter is 11° Gemini in my 10th House, activating my Natal Midheaven at 5° Gemini.

Jupiter = "I grow/expand..."

So right now my "Influencer Leadership Archetype" is being amplified by Jupiter. It's really time to lean into that energy and reap the benefits Jupiter's energy provides.

What's being activated for me right now?

Roll Two

2+

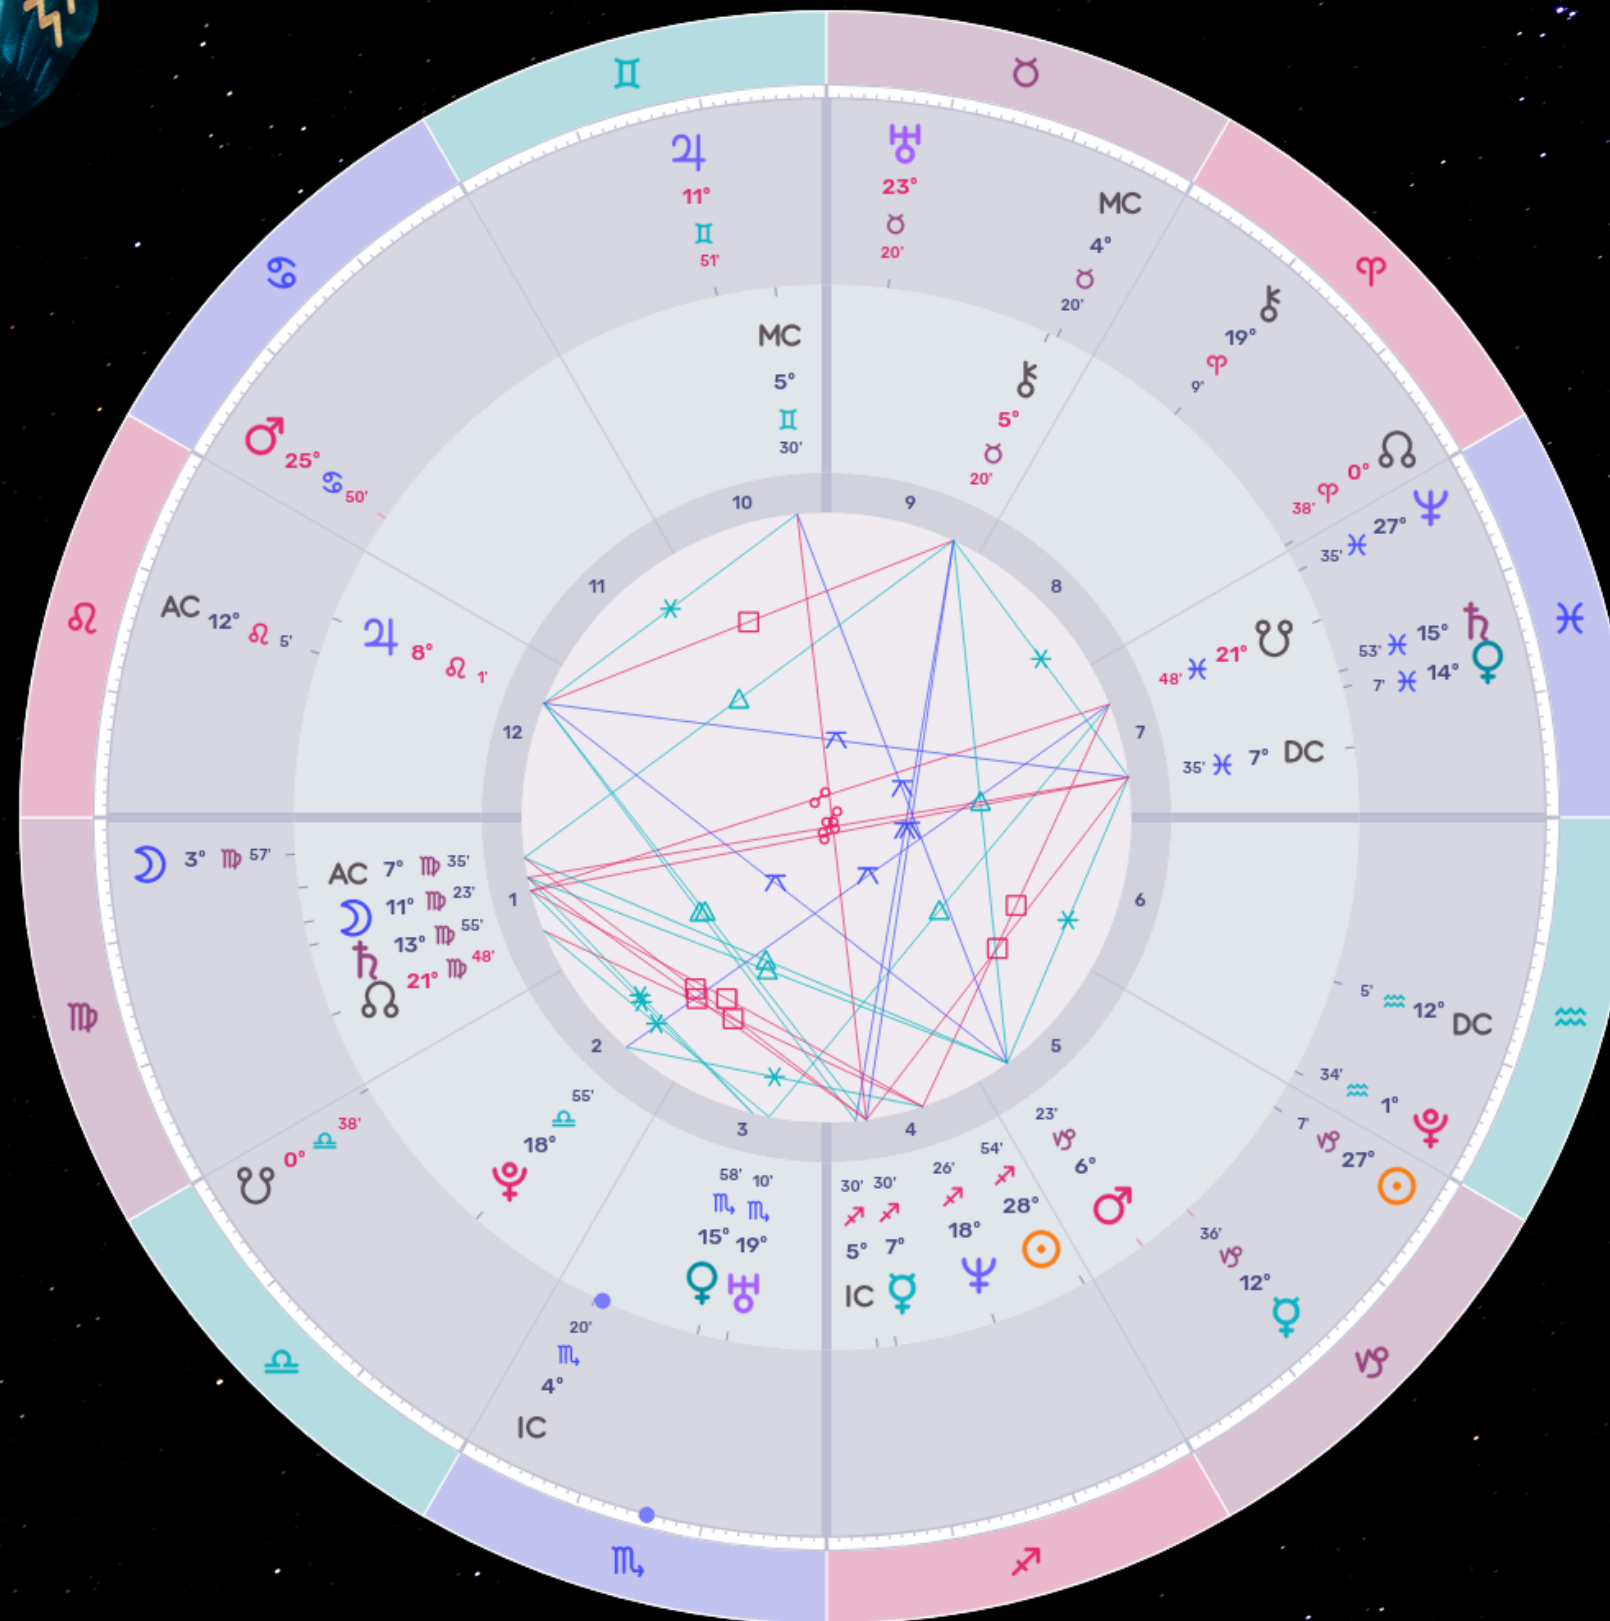

Jupiter

Ninth

The Ninth House is next door, also Jupiter's domicile, and the home of Taurus for me.

Ninth House = Philosophy and Travel
Taurus = Abundance

My Gemini public persona may be calling in an abundance of travel soon!

What's being activated for me right now?

Roll Three

4

Jupiter

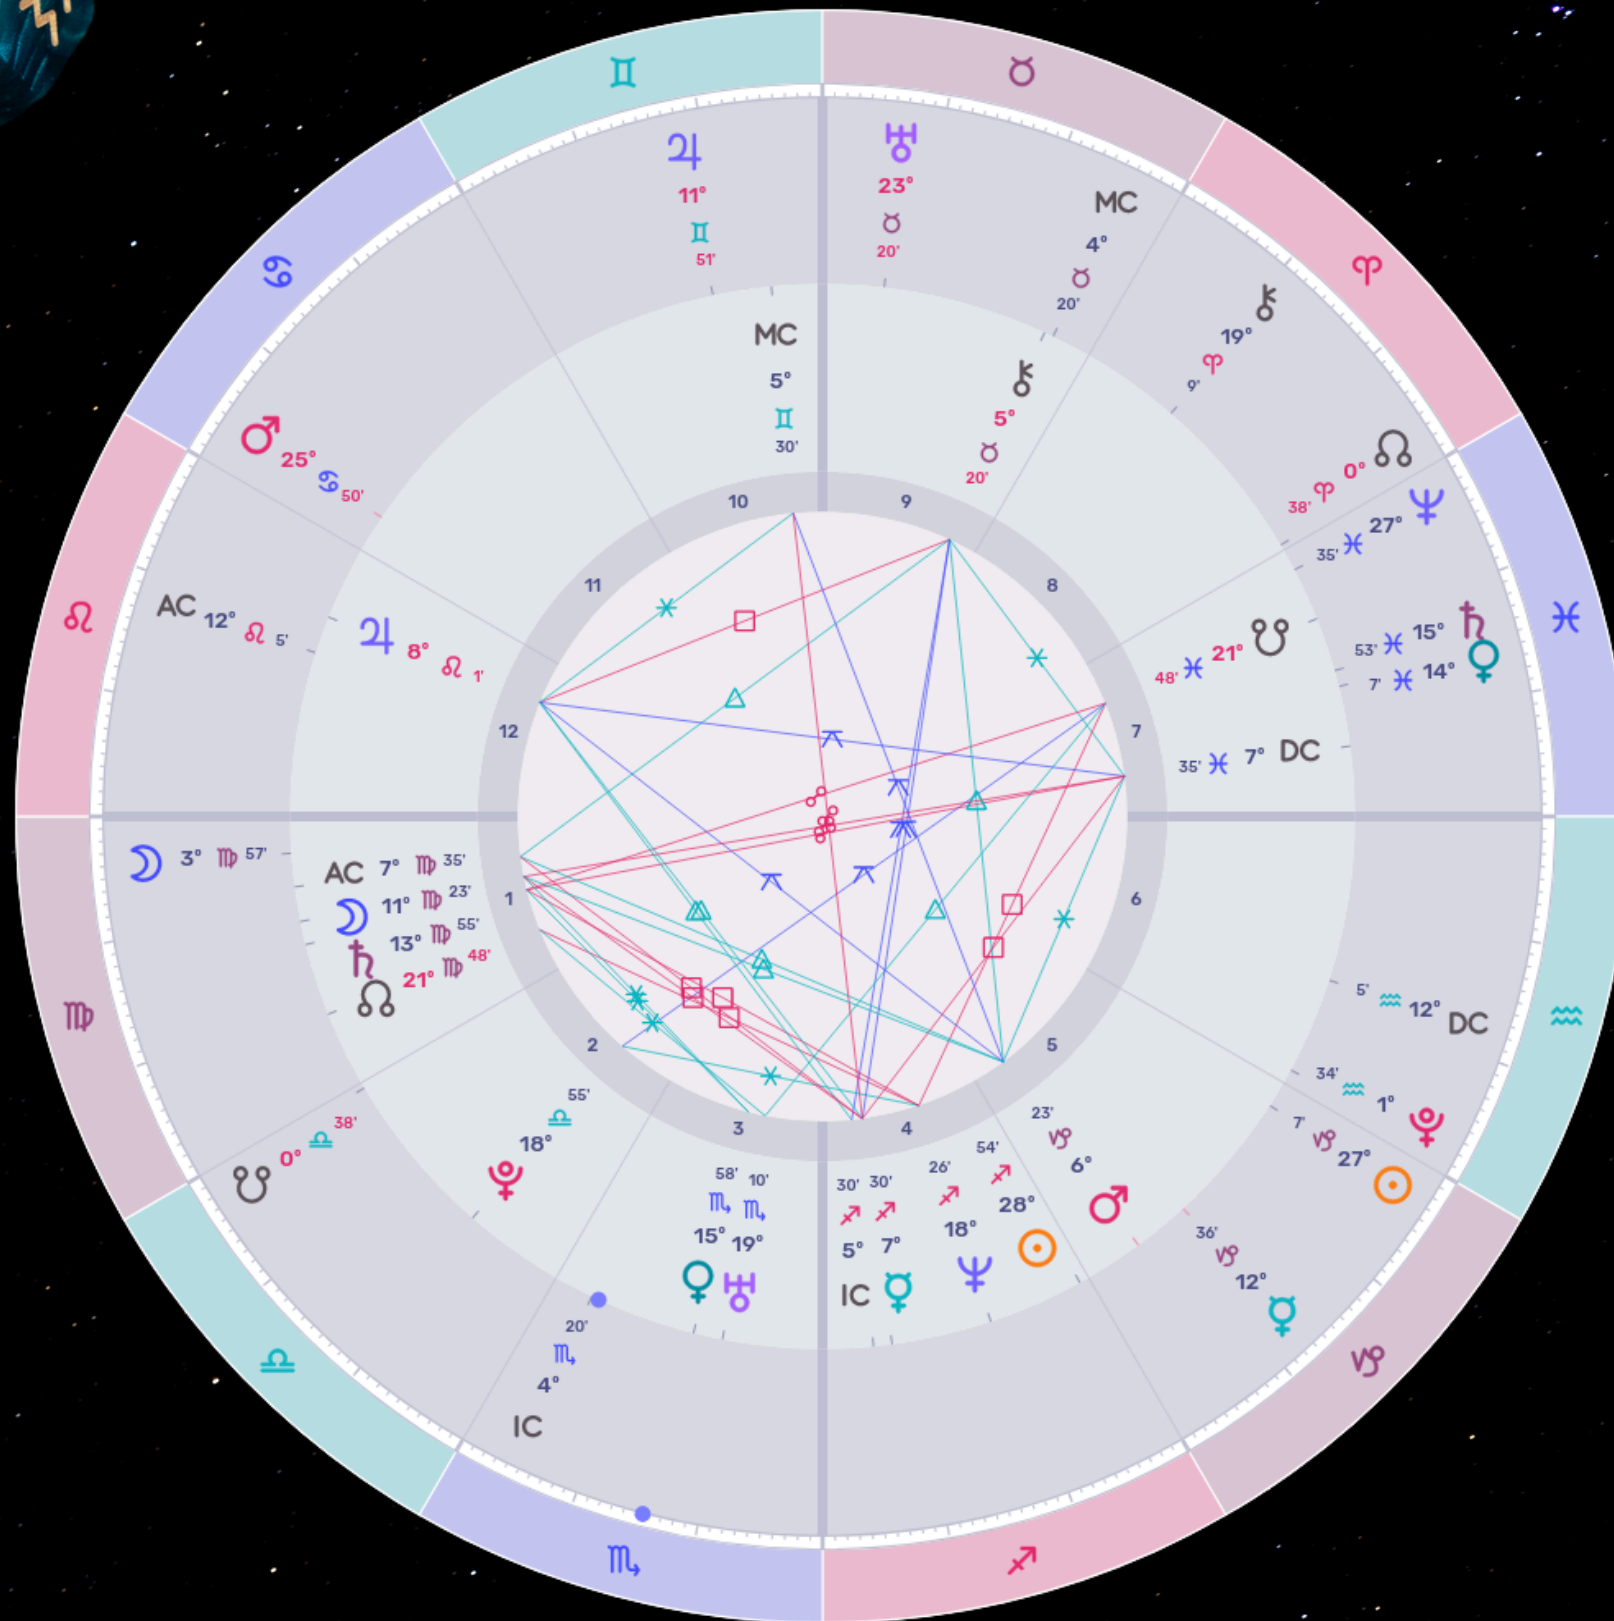

Sagittarius

Ninth

Nothing is in Sagittarius right now, but...

- It's my Sun sign.
- It's directly opposite Jupiter right now.

I'll need to be seeking a balance of knowing (wisdom) vs. wondering (curiosity) while experiencing this abundant career-related travel.

Advanced Techniques

Planetary Dignity

Consider whether the rolled planet is in its domicile, detriment, exaltation, or fall in the rolled zodiac sign or house.

Elemental and Modal Dynamics

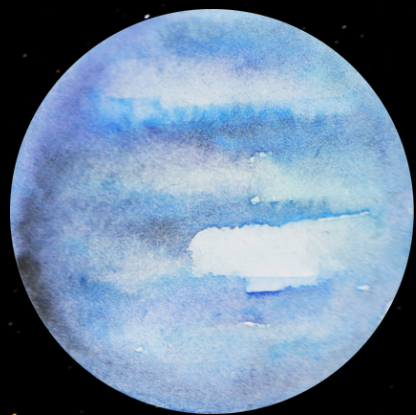

Examine how the sign/house's element (fire, earth, air, water) and modality (cardinal, fixed, mutable) interact with the rolled planet.

Retrogrades

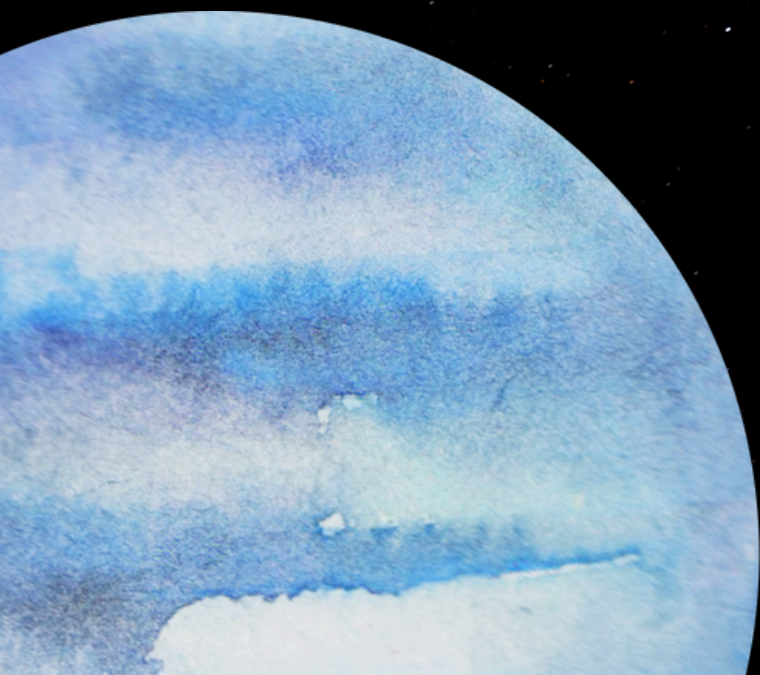

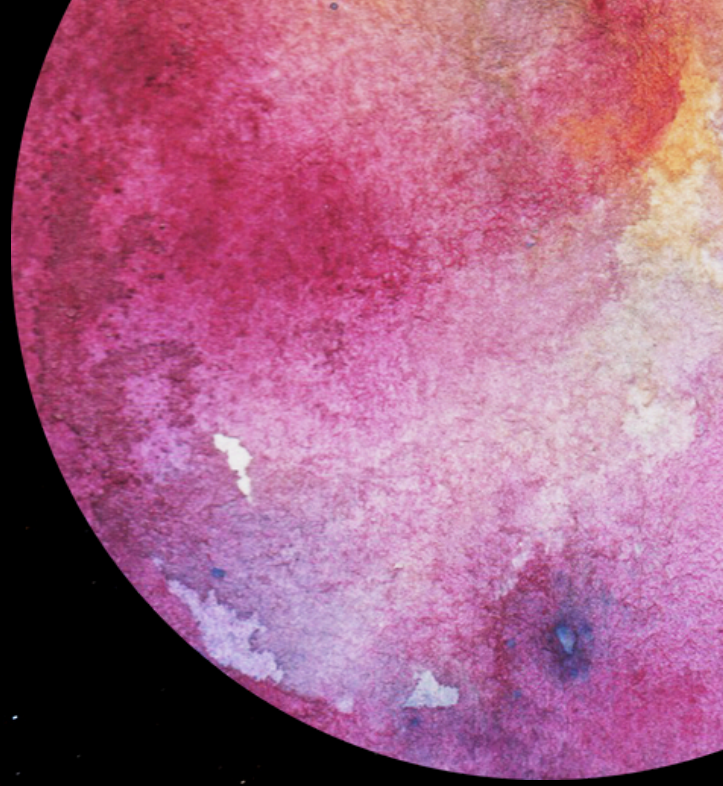

If a rolled planet is retrograde at the time of reading, interpret its energy as introspective or delayed.

Incorporate Other Tools

Pull corresponding tarot cards or use corresponding tarot cards as guides for pulling additional cards.

Aiding Your Intuition

Intuitive Astrology

The dice are a tool to help your intuitive powers grow!

Practice Regularly

Repetition reinforces intuition.

Ask Choice-Based Questions

What/How > Yes/No

Trust Your Feelings

First instinct often best.

Develop Personal Symbolism

Your associations > tradition.

Intuition + Structure

Like a tarot spread.

Meditation + Visualization

Ritualize and fantasize.

Engage Clairs

Bring them to your dice party.

Use Complementary Tools

Tarot/Oracle cards, pendulums, ...

Reflect and Review

Journal and revisit over time.

Experiment with Storytelling

planet=mc, sign=personality,
house=scene
