

Subject: A Zero-Risk, Modern Funding Opportunity for Your School

Preview Line: Overview of how everyday spending can generate additional income for your school.

Dear [Principal Name / School Administrator],

I trust this correspondence finds you well.

Schools across the country continue to navigate rising operational costs while striving to maintain high standards of education, support, and infrastructure. In this environment, securing additional funding — without adding administrative burden or financial risk — is increasingly important.

SuperSchoolWorX, a division of SuperWorX, is dedicated to helping schools unlock practical, sustainable financial benefits that already exist within their everyday operational ecosystem. In line with this purpose, we wish to introduce a high-impact, zero-cost initiative that enables your school to earn **up to 1% rebate** on its current monthly utility expenditure.

This initiative requires no change to your existing service providers, no contractual commitment, and no additional workload for your administration.

Overview of the Proposed Mechanism

1. Payment of the Utility Invoice

SuperWorX will settle your monthly utility bill (rates, taxes, water, electricity) in full, using our authorised merchant partner, VoucherWarehouse.

2. Rebate Earned for the School

By processing the payment through our controlled rewards-enabled channel, a rebate of **up to 1% of the bill value** is generated. This rebate is allocated to the school and remitted **within 10 days after month-end**.

3. Reimbursement of the Original Amount

Upon presentation of the proof of payment, the school reimburses SuperWorX for the **exact invoiced amount** — with no additional charges, fees, or adjustments.

This approach converts an unavoidable operating cost into a compliant, passive, and recurring revenue stream for the school.

Strategic Benefits to the School

✓ No Financial Risk

Your utility service provider, account structure, and pricing remain entirely unchanged.

✓ Administrative Simplicity

SuperWorX manages the process end-to-end. The only action required from the school is the standard reimbursement of the original bill amount.

✓ **Recurring Passive Income**

This mechanism provides a predictable monthly contribution to your school's financial resources, without the demands typically associated with traditional fundraising.

✓ **Immediate and Flexible Financial Value**

The rebate can be applied toward technology improvements, learner support initiatives, maintenance requirements, or any priority determined by your leadership team.

Invitation to Engage

We would welcome the opportunity to present this initiative to you in a brief meeting, during which we can outline the operational details and answer any questions your leadership or finance team may have.

Please feel free to contact me directly at **[Your Phone Number]** or **[Your Email Address]** to arrange a suitable time for discussion.

Thank you for your continued commitment to delivering excellence in education. We look forward to the possibility of partnering with [School Name] in implementing this straightforward and beneficial initiative.

Kind regards,
[Your Name]
