## Your Summit Host

In case we haven't met, my name is **Eran** and I'm your host for the **Dot Com Truths** Summit.

- ✔ I have been working online since **2017**.
- ✔ Let's just say that the first 2 years online, I'd called **"the school of hard knocks"**.
- ✔ I came out of that 2 years with a **55K** debt, no online business, little skills to grow an online business, and extreme hunger to figure it out without all the marketing hype I previously bought into.
- ✔ **March 2019**, I quit my 9 to 5 job to work online full time, but I still struggled to the point that in August 2019, I had no money for rent. Thankfully, I got a little of a tax return to cover me for the next couple of months.

**Eran Bucai**

CEO & Founder of Dot Com Truths

- ✔ **October 2019**, I figured it out. I learned to build websites (starting with Shopify), then WordPress, and slowly transitioned to tools that enable entrepreneurs to set up their online courses, membership, and coaching business with ease using drag-and-drop tools.
- ✔ **July 2020**, I was debt-free and living off passive income from my affiliate marketing (nothing glamorous, I could live off 2K a month).
- ✔ **December 2020**, I stumbled across a brand new way to help people build their websites.

- ✓ I started building people's website/funnel FOR them but WITH them on Zoom, while I'm sharing my screen, so they can watch it get done at the same time and learn how to manage it on their own.
- ✓ It was a hit from day 1.
- ✓ This resulted in doubling my revenue and getting completely booked out by April 2021 with 20K+ months as a freelancer.
- ✓ I had to do something to break the ceiling as I had no more time to sell.
- ✓ I launched a Tech Support Membership (called Dot Com Truths) where I help entrepreneurs with their tech struggles.
- ✓ **July 2021**, I had over 100+ members in my membership.
- ✓ **November 2021**, I purchased my first home in Perth, Australia.
- ✓ Today, I continue to serve my clients with software consultations to help them choose the best platform for their business, building their website with them on Zoom, and supporting them with my tech support membership.
