"I transformed a struggling flower farm into a **globally recognized brand**. I grew a 25,000 person mailing list, sold out 26 workshops, landed a book deal, launched a product line, and brought my husband home from his 9-5."

ERIN BENZAKEIN

"I went from **poverty-level income to six figures**. I went from begging for clients to a six-month waitlist."

In the beauty world, you just pass out cards at Target or hope you can get some referrals at church or with a group of soccer moms. Before B-School...I was passing out flyers door to door. I was trying a million different business ideas, jumping from salon to salon. I was so desperate that I worked for a salon making only minimum wage to help pay the bills. I was doing weddings although I actually hated doing it. All the financial pressure was on my husband to provide for our family.

In the first 2 weeks of B-School, I had already made back my initial investment!

I went from poverty-level income to six figures. From \$14,000 to \$95,000. Then \$155,000 the next year. I trended towards \$200,000 the year after that. I went from begging for clients to having a six-month waitlist. This has afforded me to build a bigger brand and branch out into online courses and passive income.

I opened the first curls-only salon in all of Oregon and was just featured on our local news channel. They called me Oregon's Queen of Curls!

I just taught my first class to other stylists and had people come from Indiana, West Virginia, Vermont, Texas, Nevada and Washington. They literally *flew* here to take my class.

I hired my first employee and now *her* life has drastically changed as a result. I have a full time assistant and my husband paints full-time as a career now and has an art studio inside my salon so we get to spend all day together.

My entire life has changed. Like, pinch me. Everyone congratulates me on all the success and when they ask me what made the shift... I always say B-School.

What's changed the most is now I live in abundance vs. lack. If a car breaks down, I just take it to the shop. If a friend is in need, I can donate time and money to help. I never worry about simple things like groceries and gas. I am not fearful of being stuck or hopeless. I'm eternally grateful. B-School changed the course of my life.

"I now have a **multiple 7-figure business**. I have 12 employees in 5 cities, and a bestselling book. I've taught Oscar, Grammy, Tony and Emmy Award winners, some of whom have even been interviewed on MarieTV! "

Before B-School, I was working 60, 70, sometimes 80 hours a week. I remember crying when I got my first tax bill. I was like, "How do I owe the government more money than I have in my bank account?"

I now have a multiple seven-figure business. I have 12 employees in five cities, and a bestselling book. I've taught Oscar, Grammy, Tony and Emmy Award winners, some people who've been interviewed on MarieTV!

Thanks to B-School, I created the world's first online meditation training and have now taught over 20,000 people to meditate. This was before Oprah, before Chopra and Headspace. Because of the online revenue from the course, I have a brick and mortar studio here in New York City. B-School gave me a rock-solid foundation and showed me it was possible.

“During B-School I started making sales online. It was the only income we had because organic sales dropped completely due to the pandemic. Then I pivoted to a 1 for 1 program — 1 donated for every 1 sold. We finished April 2020 with sales higher than 2018 and 2019. I kept all my employees working during quarantine, and even brought on subcontractors to keep up with the volume. B-School helped me focus, get creative, and stay motivated.”

Enjoy total peace of mind. With our Action Taker's guarantee, you literally have nothing to lose, and a whole new life of financial freedom to gain.

B-School is right for you if you...

- ✓ Identify as a **"self-starter."** You know you can do this, you just need the guidance and tools to get there.
- ✓ Want a **distraction-free environment** that prioritizes action and results.
- ✓ Are an **independent learner** who doesn't need a lot of handholding to get things done.
- ✓ **Trust yourself** to experiment and **learn by doing**.
- ✓ Know in your bones that **everything is figureoutable**.
- ✓ Are ready to **take control of your finances**, your schedule, and your future.
- ✓ Believe that **focus, discipline, and hard work** are the keys to business success.

B-School is NOT right if you...

- ✗ Prefer 1:1 coaching.
- ✗ Want advice on legal, tax structures, raising VC funding, manufacturing, or distribution (we intentionally do not cover these topics).
- ✗ Are looking for a "plug and play" system to make money online. Our program requires creativity, risk, discernment, and hard work over time.
- ✗ Let small decisions keep you stuck rather than diving in, getting messy, and doing the work.

I'm new and don't have a business yet — will B-School work for me?

Yes! We've had countless students come into the program with nothing but an idea — or no idea at all — and leave with a profitable new venture. To be clear, building a profitable business isn't a 4-week, linear event. Our most successful beginners have taken anywhere from several months to several years to bring their business visions to life. It all depends on how fast you digest the material and move forward. But you'll never get there unless you get started.

"I'm thrilled to share that my product is now a reality. I have 20 real life testers about to receive 8 Breakfast Cure bundles, and 2 bonus packets! Now my business is real and my heart is more filled with gratitude with each beat."

KAREN TAYLOR

I have a successful business already. Can B-School still help me?

Unquestionably yes! We've had 6-figure B-Schoolers enroll to take their businesses to a million in revenue and more.

Even if you've studied business for years, following B-School's market-tested roadmap can save thousands of dollars on "supposed-tos" that don't actually move the needle, and the months (or years) of trial and error it takes to figure it out on your own. B-School isn't a business theory, it's a business blueprint.

"I had a 500% increase in sales compared to last year. I learned so much more about business in two months of B-School than during six years of business school."

ANNA SUOMI

My industry is unique. How can I be sure B-School will work for my business?

We have successful grads across 650+ industries in 171 countries and territories.

From fishing, farming, fashion and flower delivery to clothing retailers, knitting shops, hooping festivals, designers, language instructors, app makers, tech companies, yogis and every flavor of speaker, author, coach and consultant — the rich and diverse creatives in B-School are one of our distinct advantages.

No matter what you sell — a product, service, or experience — you must understand how to effectively share your message, attract and convert browsers into buyers, and create raving fans who'll keep coming back for more.

Regardless of your industry, thriving as an entrepreneur in today's economy means knowing how to build trust, create meaningful connections, and sell to people online.

economy.

When does B-School begin?

The live B-School program is 4 weeks and runs from Monday, July 31st through Sunday, August 27th, 2023. Remember, you get access to the content for life, so you can learn at your own pace. After the live program, the entire library of training materials will be available to review as often as you like.

I'm booked to travel during B-School. Will I miss out?

You won't miss out on a thing! All your training exists inside your private member area. All the live Office Hour sessions are recorded, too. So you can go back and revisit the material as often as you like.

Will I speak with or get feedback directly from Marie?

You very well may, and, we can't promise that. Marie delivers her best advice and strategies from over 22 years of experience in the trainings. Remember, this is not a one-on-one coaching program. It's a powerful group learning experience, so in addition to the trainings, you'll get additional support from our B-School Mentor Coaches within the scheduled live working sessions.

Consumer Testimonials. As with any business-related program, your results using B-School may vary from these consumer testimonials. Your results will be based on many variables, such as your level of effort, business acumen, personal qualities, knowledge, skills, and a host of other factors. Since these factors differ for each individual, we cannot guarantee your success, results, or income level, nor are we responsible for your success or failure. B-School is not a "get rich quick scheme." It takes lots of time, effort, and dedication. We believe that we provide you a great toolbox to achieve your desired results, and these grads agree.
