# CUSTOMIZING YOUR CANVA TEMPLATES

---

## Step 1: Access Your Templates

// Step 1

- > Click on the link to access your template type
- > You may see a screen pop up with the templates, click "view template"
- > Then click on "Open in editor"
- > This will open the templates directly in your Canva account
- > You may be prompted to log in to Canva if you're not already signed in
- > The template will then open and be added to your Canva designs

// Step 2

## Step 2: Save Templates to Your Account

- > Rename the templates to something memorable (e.g. "[MASTER COPY] Kajabi Homepage Template")

// Step 3

## Step 3: Make a Copy Before Editing

- > Click "File" in the top menu
- > Select "Make a copy"
- > This preserves your original template for future use
- > Rename it to something memorable (e.g. "Kajabi Homepage Template")

**TIP**

# STEP-BY-STEP

## EDITING INSTRUCTIONS

---

### // Customizing Text

- > Click on any text element to select it
- > Edit the text by typing your new content
- > Change font: Use the font dropdown in the toolbar
- > Adjust size: Use the size slider or type specific numbers
- > Change colors: Click the color box and choose from palette or custom colors
- > Move text: Click and drag to reposition

### // Adding or Replacing Images

- > Click on an image to select it
- > Replace: Click "Replace" in the toolbar, then choose from:
  - Your uploads
  - Canva's photo library
  - Stock photos
- > Resize: Drag corner handles to adjust size
- > Position: Click and drag to move

### // Adding New Elements

- > Click "Elements" in the left sidebar
- > Browse categories: graphics, lines, shapes, icons, etc.
- > Click to add any element to your design
- > Customize colors, size, and position as needed

### // Duplicating Pages

- > Right-click on a page thumbnail at the bottom
- > Select "Duplicate page"
- > Edit the duplicate with different content

# SAVING & EXPORTING

---

## // Saving Your Work

- > Canva automatically saves as you work
- > Your designs appear in "Your designs" on your Canva homepage

## // Downloading for Social Media

- > Click " ↑ Share" in the top right corner
- > Select " ↓ Download"
- > Select "PNG" for best quality (or JPG for smaller file size)
- > Click "Download"

When downloading your post choose JPEG or PNG if it's a still image, or MP4 if it has any animation. That way your post looks perfect whether it's animated or not.

**TIP**

## // File Formats & Settings

- > PNG: Best for graphics with transparency, highest quality
- > JPG: Good for photos, smaller file size
- > Size: Already set in template
- > Quality: High/Maximum
- > Format: PNG for graphics, JPG for photo-heavy designs

# CUSTOMIZATION

## GUIDELINES

---

### // Font Recommendations

- > Headers: Roboto
- > Body text: Lato
- > Accent: Use sparingly for emphasis only

### // Color Guidelines

- > Stick to 2-3 main colors for consistency
- > Use high contrast between text and background
- > Consider your brand colors for recognition
- > Test readability on mobile devices

### // Elements to Avoid Moving

- > Background elements that create the overall design structure
- > Decorative elements that frame the content
