# What is **ADDITION?**

Addition means putting things together to find out how many you have in total.

## Plus Sign

For example:

If you have 2 apples

and get 1 more apple

you put them together  
and now you have  
3 apples!

We can write it like this:

$$2 + 1 = 3$$

For example:

Mike has 3 toy cars.

He gets 3 more.

How many cars does he have now?

We can write it like this:

$$3 + 3 = 6$$

**For example:**

There are 6 cupcakes  
on the table.

Mom brings 3 more.

How many cupcakes  
are there now?

**We can write it like this:**

$$6 + 3 = 9$$

Now it's your turn!
