

THE LITTLE MERMAID

IN THE SEA OF PLASTIC

**Deep under the blue sea lived a mermaid.
Her name was Mira. She loved to swim, to sing, and to
collect shiny things!**

One day while she exploring the sea, she found something strange. It was a plastic bottle!

**What is this?
It's not a shell.
It's not a stone.
It is not even a
fish!**

She looked around and saw more bottles, bags, and cups!

**Oh no!
There's a
trash in my
sea!**

She picked up a plastic spoon, a broken toy, and a can.

**So much
junk!
So much
trash!**

**Where did
it come
from?**

**Humans dropped
them. They fell
into the water**

**Humans
must not
know!**

**They don't
know it
hurts the
sea!**

**I must
show
them!**

Mira got a big basket. She swam and swam to pick bottles, plastic bags, and cans.

She sang as she worked.

**Clean the sea,
clean the sea.
Make it blue,
make it free.**

Fish clapped their fins. Crabs clicked their claws. As they cheered Mira.

**Clean the sea,
clean the sea.
Make it blue,
make it free.**

Go, Mira, go!

Soon she had a pile of trash. It was big and shiny.

**Hmm...
Maybe I
can use it!**

WOOOOW!

Mira built a little museum. She used bottles for the windows, cans for the walls, and plastic bags as a curtain. She displayed all the trash that can be recycled.

She called it "The Plastic Sea Museum". All the fish came to look.

**It's human trash.
It's hurting
our home**

**THE PLASTIC SEA
MUSEUM**

What is this?

The fish, crab, and even the sea turtle nodded.

**I collect all
the trash.
WE must
keep our
ocean clean.**

We will help!

**THE PLASTIC SEA
MUSEUM**

And together, they made the sea beautiful and clean again!

PROTECT OUR OCEAN

Protecting nature keeps our world beautiful.

Even small hands can make a big difference!
