

THE MERMAID AND THE OCEAN CLEAN-UP CREW

The Little Mermaid loved collecting shiny treasures from the sea.

One day, she found plastic bottles instead of pearls.

“Who could have done this to our ocean?” she asked her dolphin friend.

They formed an undersea
clean-up club.

Fish and crabs helped
gather trash.

Even sharks carried bags of recyclables.

Soon, the ocean sparkled again.

The mermaid sang a happy
cleanup song.

“A clean ocean means happy creatures,” she said.

Everyone clapped their fins and tails in joy.
THE END.
