

My Space Journey

//

Hi, I'm Captain Kid.
Join me as we explore planets,
stars, and maybe even aliens.
Ready to blast off?
Let's go!
3.....2.....1.. LIFT-OFF!

//

SWOOSH

ZOOM!

"Look out the window", said Captain Kid.
"This is the Solar System, with the Sun in the middle,
and everything moves around it."

The Solar System

SUN

MOON

"Wow. Look, Friends! Do you see that big ball in the sky? That's the Sun, it gives us light and keep us warm every single day. Say hello to the moon, Earth's special buddy that follows us and changes shapes around our planet."

The Solar System

STAR

"Hello, little star, you're so far away, but you shine so bright in the dark sky.

Keep twinkling for us, we love your sparkle!"

The Solar System

MILKY WAY

"Hello, Milky Way, you're like a big, glowing river of stars in the sky. Thanks for letting us live inside your galaxy home!"

The Solar System

COMET

"Wow, Comet, you're zooming so fast with your bright, shiny tail!
Keep flying across the sky, you look like a shooting star friend!"

The Solar System

ASTEROID

"Hey, Asteroid. You look like a big space rock floating around.
Be careful not to bump into the planets while you travel!"

The Solar System

MARS

VENUS

MERCURY

EARTH

SATURN

JUPITER

NEPTUNE

URANUS

"Hi Planets, you all look so different, some small and rocky, and others big with rings!

Thanks for spinning around the Sun and keeping our Solar System so amazing!"

//

Phew!

We met the Sun, Moon,
stars, Milky Way, comets,
asteroids, and planets!

This is Captain Kid,
signing off. See you on
our next adventure!

Bye
