

Hansel and Gretel's Drone Rescue

© 2025 Smiles Preschool. All Rights Reserved.

Hansel and Gretel followed candy
crumbs through the forest.

Their GPS stopped working and they were lost.

Hansel flew his candy drone to search for the gingerbread house.

A friendly baker robot welcomed them inside.

He shared cookies and helped
fix their GPS.

The children thanked her with smiles.

The drone guided them safely home.

Their parents hugged them
tight.

Courage and teamwork saved
the day.

They celebrated together with cookies and laughter. THE END.
