

# JACK AND THE ELECTRIC BEANSTALK

© 2025 Smiles Preschool. All Rights Reserved.

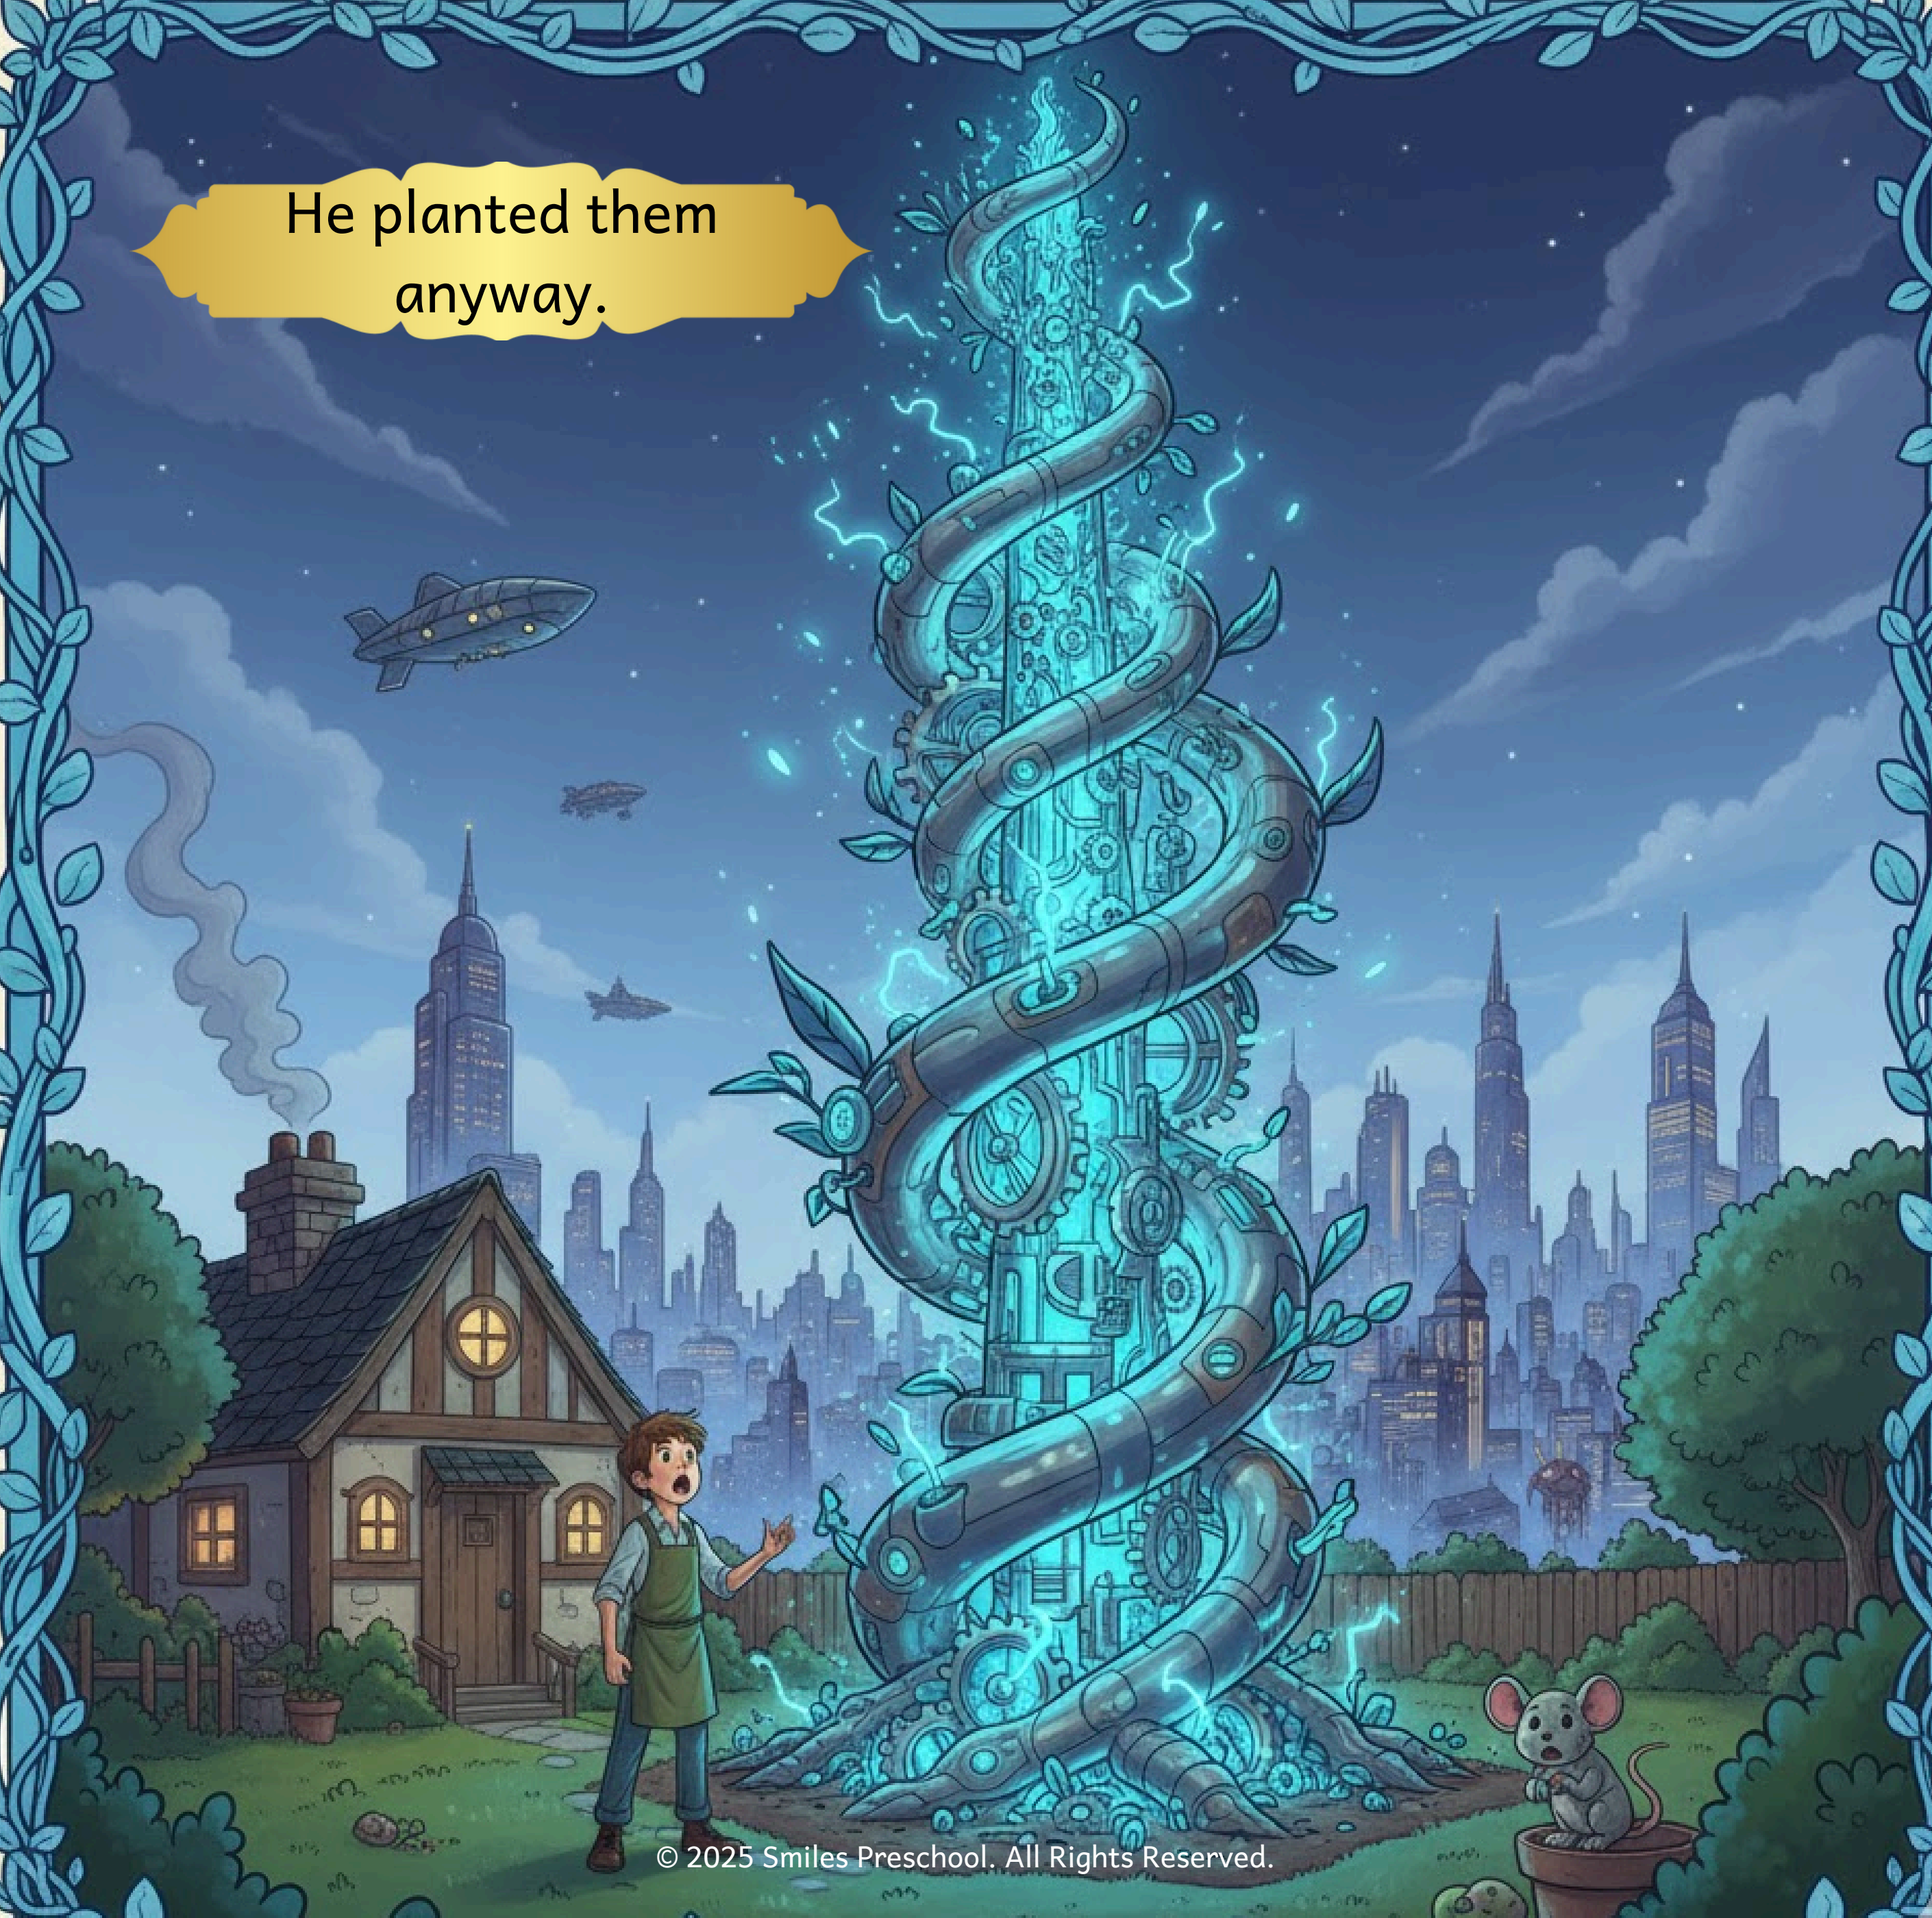

Jack traded his old tablet for magical electric beans.

His mom laughed, "Those won't grow!"

He planted them  
anyway.

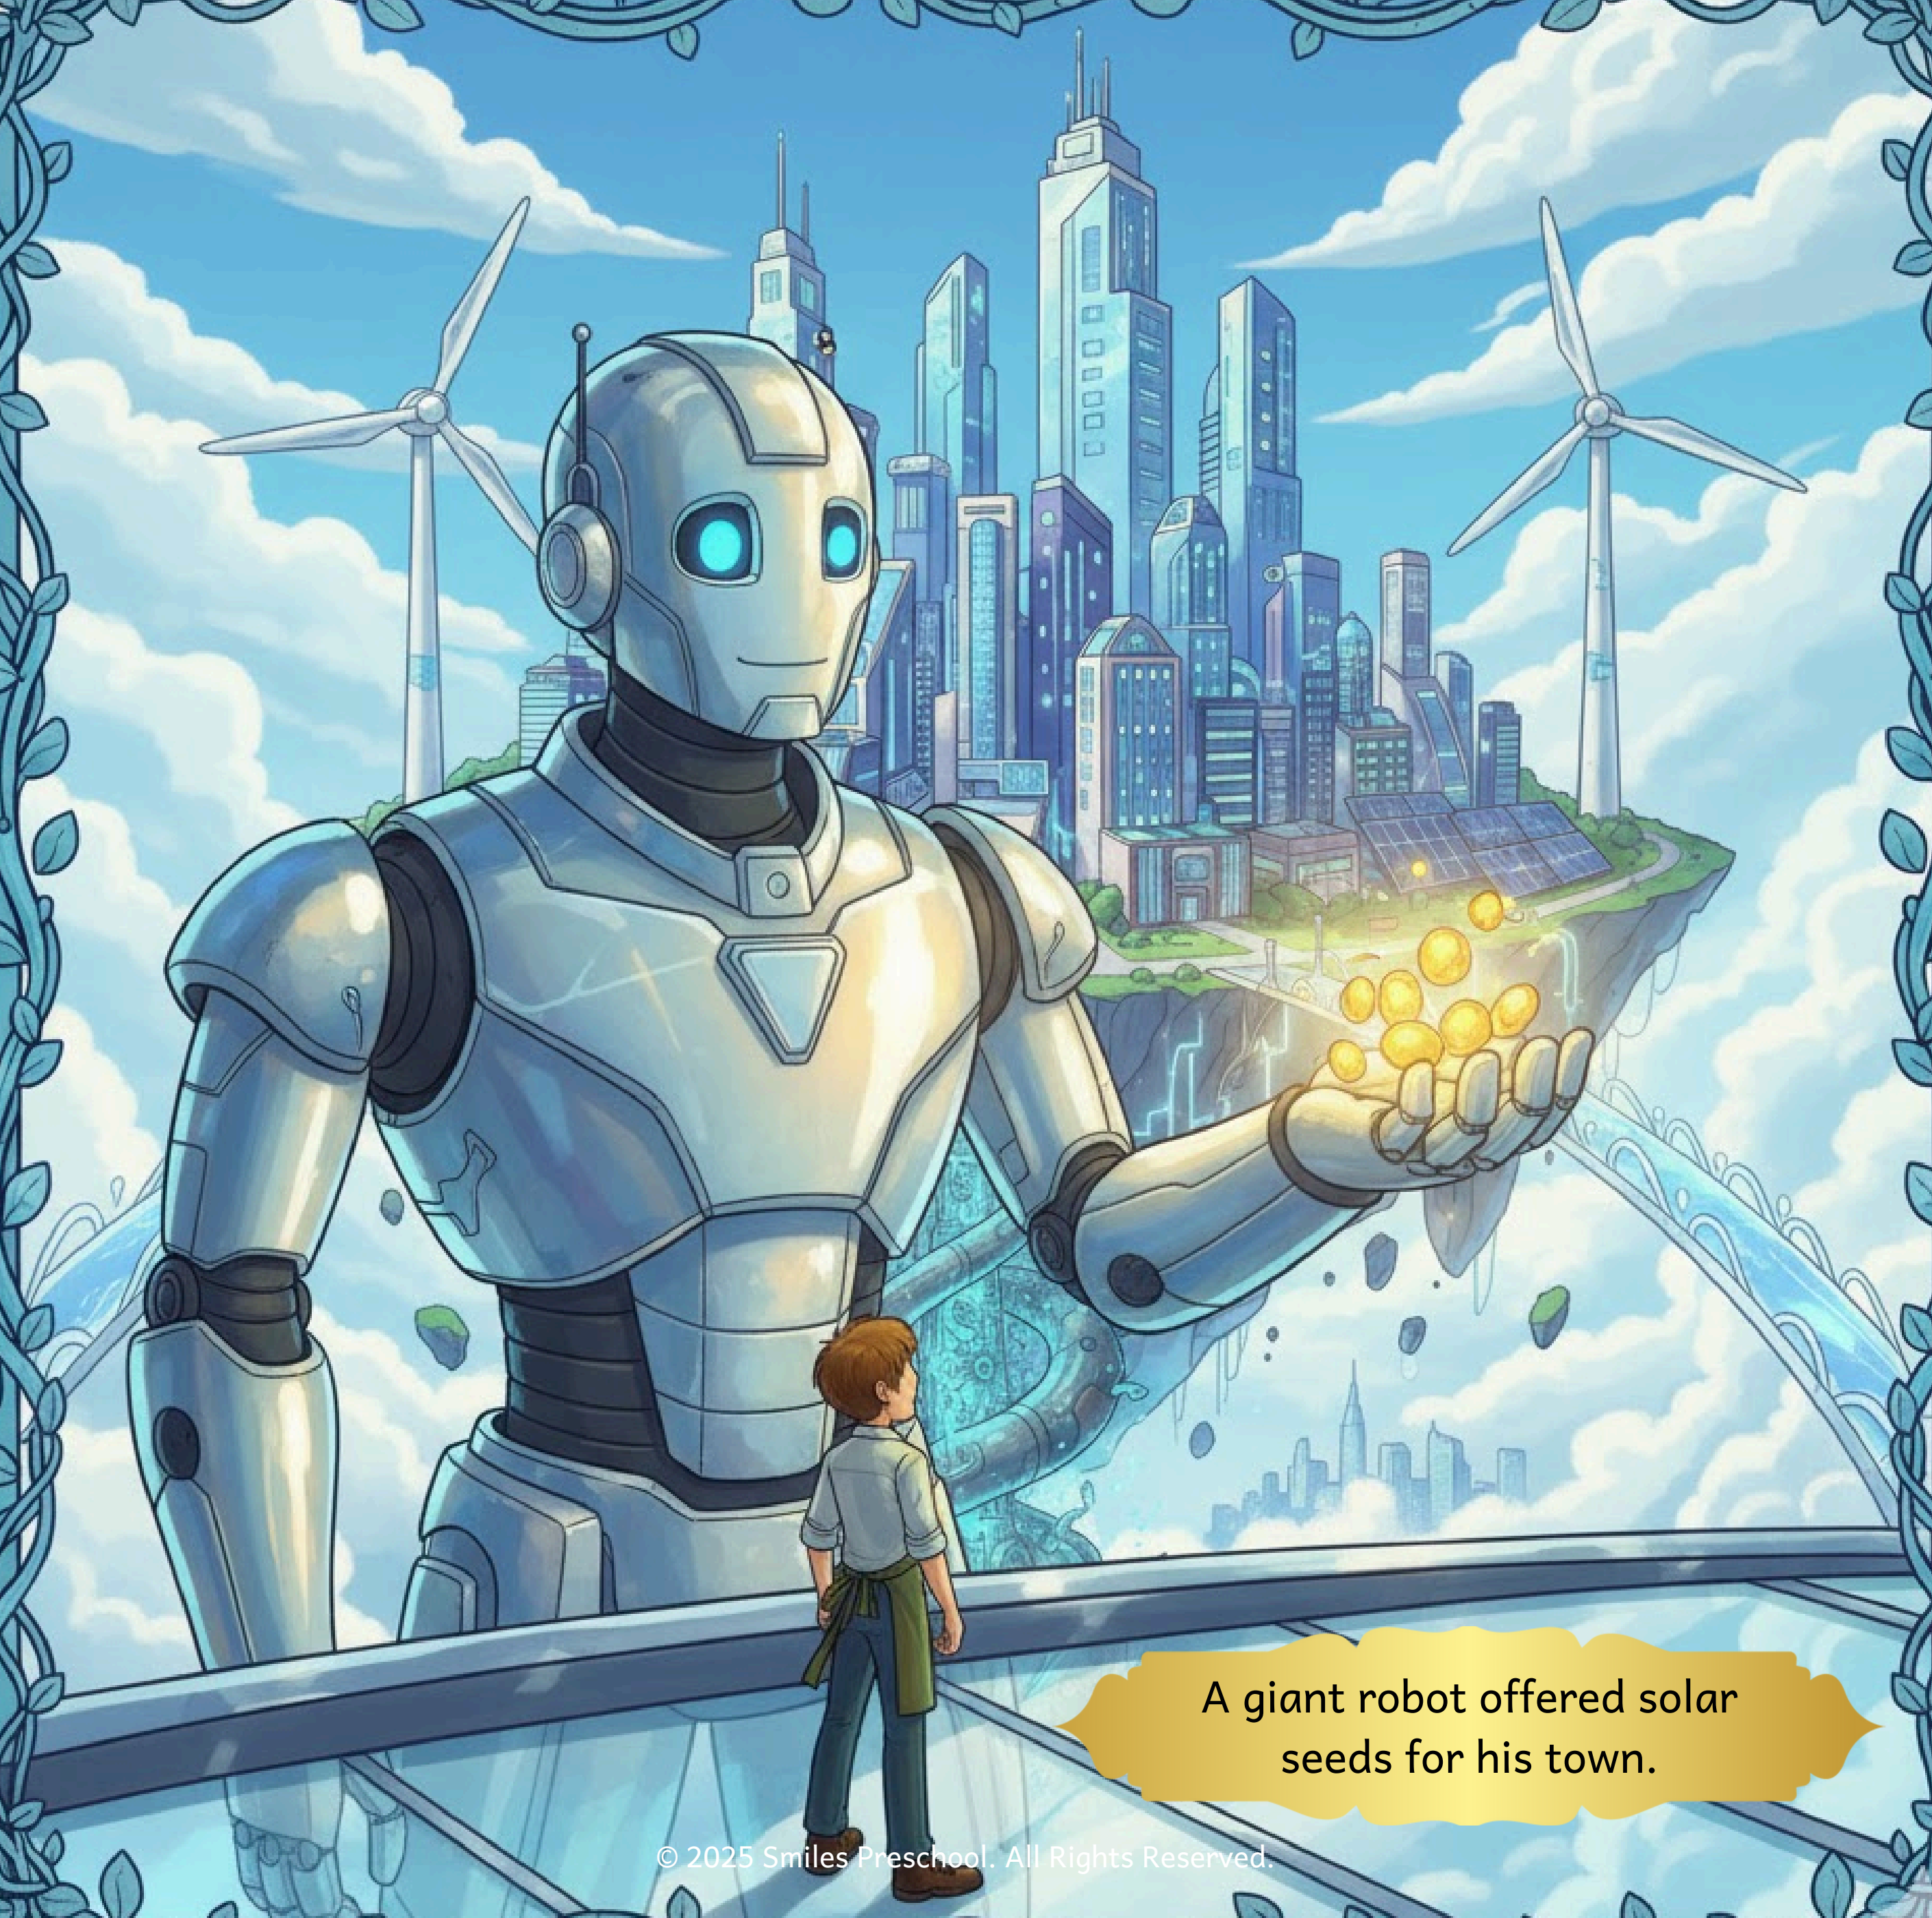

Overnight, a glowing beanstalk reached the clouds.

Jack climbed and found a sky city powered by clean energy.

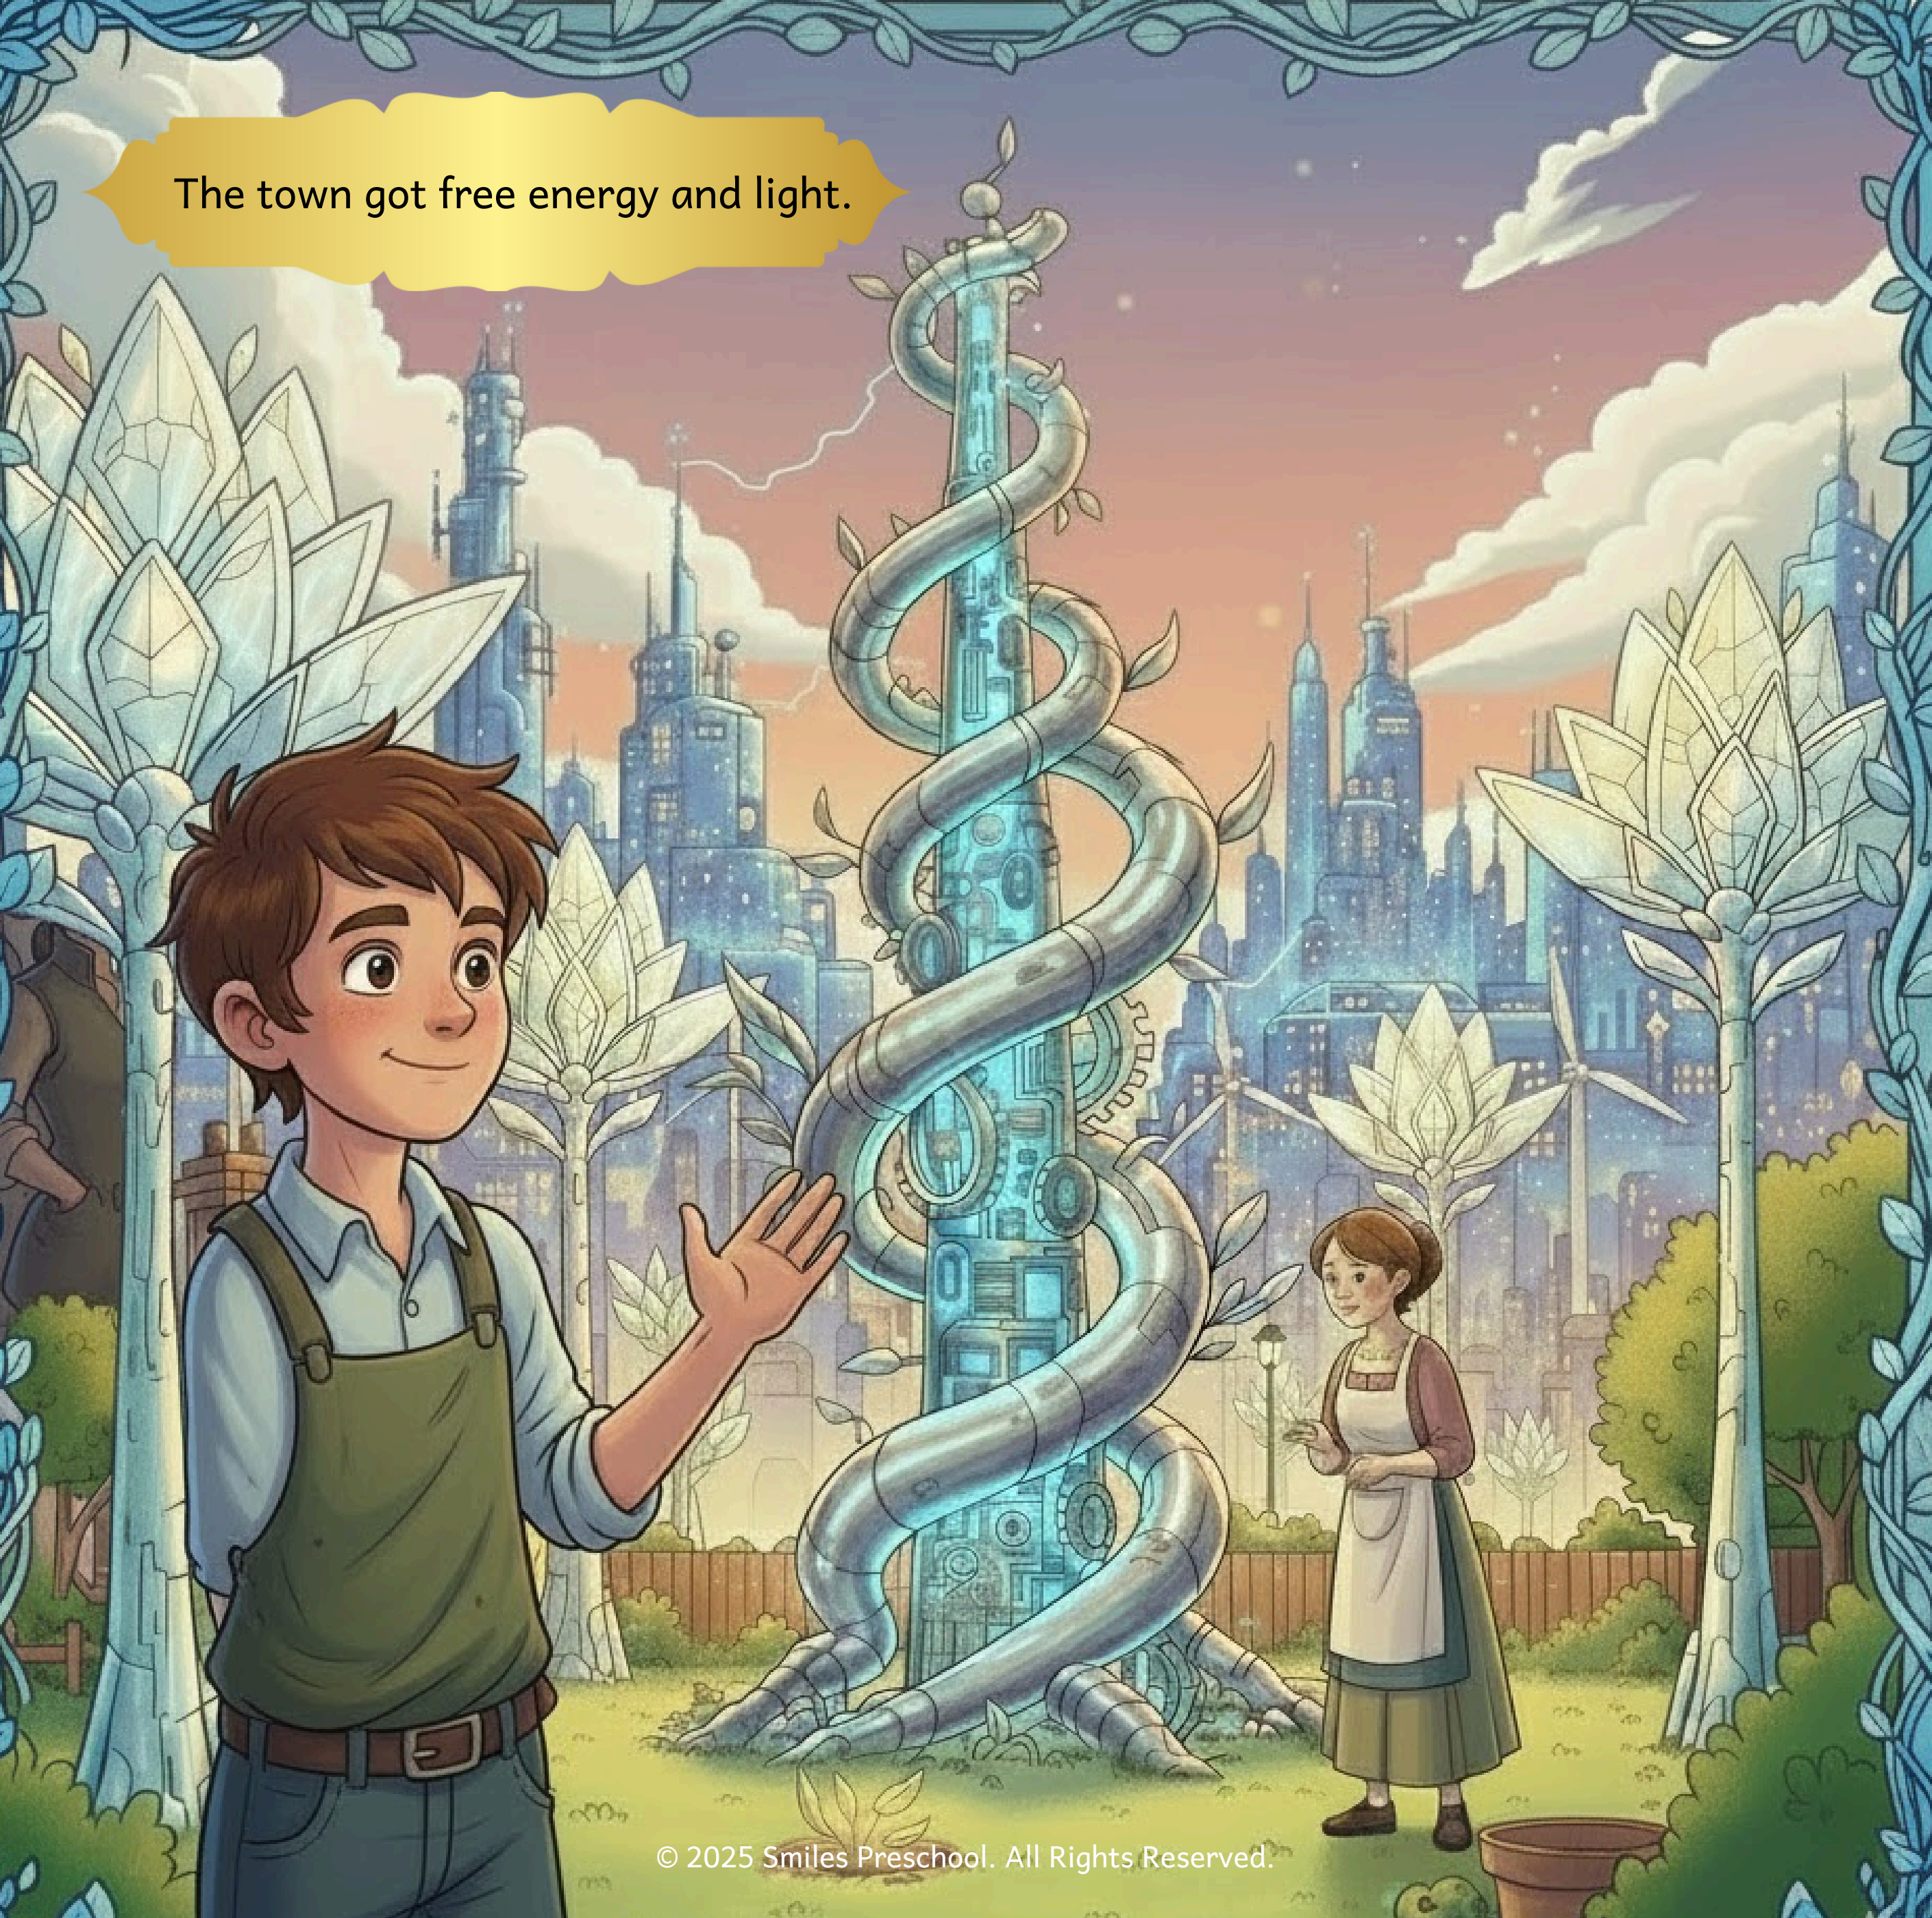

A giant robot offered solar seeds for his town.

Jack planted them at home.

The town got free energy and light.

Jack learned small smart ideas  
can grow big.

He shared his inventions  
with everyone. The End.
