# Safety Planning Guide for Women

This guide provides essential steps and resources for creating a safety plan for individuals at risk due to family violence. The goal is to ensure personal safety, secure important resources, and establish a framework for support and recovery.

We know that safety planning can feel overwhelming, especially when facing abuse or crisis. That's why we've included a **Bingo Card for Safety Planning**—to help break tasks into manageable steps, reduce stress, and focus on what's most urgent. Each item you check off isn't just important; it's imperative to navigating a safe path away from an abusive relationship.

You deserve to feel secure, supported, and empowered. This guide is here to help you take those critical first steps—one at a time.

Remember, safety planning applies not only when leaving but also in the aftermath, as risks may persist.

## 1. Grab & Go Bag

Prepare an emergency bag containing essentials in case you need to leave quickly. Include:

- Clothes for a few days.
- Medications and prescriptions.
- Copies of important documents (see below).
- Cash or prepaid cards.
- Keys (house, car, etc.).
- A list of emergency contacts.
- Small personal items (e.g., photos, comfort objects).
