

HOW TO GET STARTED WITH MANYCHAT AUTOMATION

Sign Up or Log In to Manychat:

- Visit [Manychat](#) and sign up for an account if you don't already have one.
- Log in to your existing account to access your dashboard.

Import Automation Flows:

- Download the provided Manychat automation flow files from your purchase.
- In your Manychat dashboard, navigate to the "Automation" section.
- Click on "Import" and select the downloaded files to upload them into your account.

Customize Your Flows:

- Open each imported flow and customize the messages, images, and sequences to align with your brand voice and business objectives.
- Add your unique value propositions and offers to make the flows resonate with your audience.

Set Up Triggers:

- Configure triggers for each flow to ensure they activate at the right time (e.g., when a user comments on a post, sends a message, or interacts with your bot).
- Test each trigger to ensure the flow operates smoothly.

Launch and Monitor:

- Activate your automation flows and monitor their performance through the Manychat dashboard.
- Use Manychat's analytics to track engagement, conversion rates, and optimize your flows as needed.

Resell for Profit:

- Rebrand the flows with your own branding and marketing materials.
- Promote and sell these automation flows to your audience, leveraging the PLR and MRR to create a new revenue stream.

EASY CUSTOMIZATION WITH MANYCHAT

One remarkable feature of your new product is its customization options. With Manychat, you can effortlessly modify its content. Just access the flows through the links on page 3, save the automations, and then click on "Edit Automations" located at the top right corner.
