

April 22-24

Extend your life energy to the things that light you up.

Spring Seasonal Recalibration includes 4 sessions over a weekend to **Breathe, Move, Celebrate** + sit in ceremony with your empowered radiant life!

Listening to the wisdom of our bodies, and looking to the traditions of yoga, meditation, alchemy, cha dao (tea ceremony) + energetic medicine to embrace this transition with grace + gratitude.

ceremony of self-care

When we come to the threshold of initiation, it can mean stepping out of our comfort zone to seek a higher path of consciousness + soul alignment.

Our spiral nature allows us to review our lives + cycles, so that we can notice what is shifting and growing. We can lean into practice at this powerful time to seek and nurture new pathways.

As we come together in this intention to co-create beauty, abundance and positivity for our future.
