WealthWaveCo

INTRODUCTION

Start Simple. Start Now.

Making your first $100 online doesn't require experience, a big audience, or technical skills.

It requires three things, and you likely already have all of them:

- A simple idea
- A basic product
- A clear action plan

This guide walks through exactly how to turn those three things into your first online income — one step at a time, with a concrete action to take after each one.

> **WHAT YOU'LL HAVE BY THE END**
>
> **A product idea, a simple plan to build it, and a clear path to your first $100**

OVERVIEW

The Simple $100 Framework

Four steps stand between you and your first sale.

01 **Choose a simple idea** — something small that solves one real problem.

02 **Turn it into a basic digital product** — quick to make, easy to use.

03 **Share it with the right people** — on the platforms they're already using.

04 **Make your first sales** — you need a few buyers, not a big audience.

You don't need perfection here — you need action. Each step in this guide ends with one small task you can complete the same day you read it.

Choose a Simple Idea

Start with something easy.

You don’t need to be an expert — you just need to solve one small problem for one specific kind of beginner.

A FEW FORMATS THAT WORK WELL

- A checklist
- A short guide (5–10 pages)
- A template
- A list of resources

> **THE QUESTION TO ASK YOURSELF**
> What will help a beginner in this area get unstuck in the next ten minutes?

ACTION STEP

DO THIS TODAY

Write down three simple ideas you could create today. Pick **one**, and move forward to Step 2.

Create a Simple Product

Don't overcomplicate this.

Your first product should be quick to create, easy to understand, and genuinely useful. Aim for simplicity, not perfection — you can always improve it after it's already making sales.

TURN YOUR IDEA INTO

- A short PDF
- A step-by-step guide
- A beginner resource

AVOID THIS

- Trying to make it perfect
- Creating a 50-page ebook
- Waiting too long to start

ACTION STEP

DO THIS WITHIN 48 HOURS

Create your product within 24–48 hours of choosing your idea. Speed matters more than polish at this stage.

STEP 3 · OF 4

Share It

Now you need people to see your product.

Start simple: use social media, share genuinely helpful content, and talk openly about what you're building. Focus on helping — not selling aggressively. People respond to usefulness long before they respond to a pitch.

ACTION STEP

DO THIS TODAY

Create three simple posts about your product idea. They don't need to be polished — they need to exist.

STEP 4 · OF 4

Make Your First $100

You don't need thousands of people. You need a few buyers.

Here's what that looks like in practice:

$10 × 10 sales = $100

A LOW-PRICED PRODUCT

$20 × 5 sales = $100

A MID-PRICED PRODUCT

FOCUS ON

- **Clarity** — make it obvious what your product does and who it's for.
- **Consistency** — keep showing up, even with small posts.
- **Taking action daily** — momentum beats intensity.

SIMPLE ROADMAP

Your First $100, Day by Day

Keep it simple. Keep moving.

- Day 1
  - Choose your idea
  - Outline your product
- Day 2
  - Create your product
  - Prepare it for sharing
- Day 3
  - Start posting
  - Share your offer

REMEMBER

Reading is easy. Taking action is what creates results. If you follow this roadmap and actually apply it, you're already ahead of most people who only read
