WHO WE ARE

TD VANGUARD (TOTAL DEDUCTION VANGUARD)

Destiny Education's TD Vanguard is a strategy-centered tax and financial services firm dedicated to serving business owners who require structured, lawful financial planning and execution.

Our firm was established to address a common and costly problem faced by business owners: operating successfully without a clear tax and financial strategy. While many tax professionals focus solely on filing requirements, TD Vanguard focuses on aligning business activity with the Internal Revenue Code through intentional planning, education, and execution.

We operate on the principle that tax outcomes are not merely the result of income, but of structure, timing, and informed decision-making.

OUR MISSION

Our mission is to provide business owners with clarity, structure, and lawful strategies that support long-term financial stability and growth.

We accomplish this through:

- Tax strategy and planning
- Accurate and compliant tax preparation
- Structured bookkeeping and payroll services
- Education that empowers informed financial decisions

Our objective is not simply to file returns, but to equip business owners with systems that support sustainable success.

OUR APPROACH

TD Vanguard operates as a strategy-based firm rather than a volume-based tax office.

This means:

- We prioritize planning before filing
- We limit the number of clients we accept
- We build long-term professional relationships
- We maintain structured, compliant financial systems
- We operate year-round, not seasonally

This approach allows our clients to avoid preventable financial exposure and operate with greater confidence and predictability.

WHO WE SERVE

TD Vanguard serves business owners who:

- Operate active businesses
- Require professional financial structure
- Value lawful planning and compliance
- Seek long-term financial clarity

We specialize in serving professionals in education, healthcare, and service-based industries, as well as business owners across a range of sectors.
