Native

Summary

"Analytical professional with a track record of developing automated reporting pipelines and interactive dashboards. Expertise in utilizing SQL, Excel, and Python to streamline operations and support data-led strategy in the automobile and insurance domains to drive efficiency and business growth."

Experience

Shikhar Insurance Company Limited

March 2024 - Present

Data Analyst

Kathmandu, Nepal

<https://shikharinsurance.com/>

- Built a **SQL Server data mart** to centralize cross-departmental data for analytics and reporting.
- Developed **real-time Power BI dashboards** and automated financial reporting (loss ratio, profit margin).
- Analyzed large datasets using **SQL, Excel, and Python (Pandas, NumPy)** to identify trends and anomalies.
- Designed **database schemas and ETL pipelines** in collaboration with IT and underwriting teams.
- Automated reporting workflows using **n8n, SQL Server, and Microsoft Graph API**.
- Tested and integrated **REST APIs** using **Postman**.

Hulas Motors Pvt Ltd

December 2023 - March 2024

Supply Chain Analyst Intern

Biratnagar, Nepal

<https://hulasmotors.com/>

- Conducted market and customer analysis to support product and supply chain decision-making.
- Analyzed sales and delivery performance to identify bottlenecks and improve operational efficiency.
- Built dashboards and monthly reports to track KPIs and support management decisions.
- Assisted in demand analysis, inventory tracking, and process optimization initiatives

Projects

NFRS-Compliant Insurance Reporting Dashboard (Power BI Project)

April 2025

Built an **NFRS-based Power BI dashboard** for insurance financial reporting, enabling automated, compliant, and insight-driven analysis.
