HOW THE SYSTEME.IO AFFILIATE PROGRAM WORKS

How our affiliate program works

Once you sign up to systeme.io, you automatically join our affiliate program and are given a unique affiliate ID that you can find here

https://systeme.io/dashboard/affiliate/

- All you have to do is **send visitors to our site**, and we'll convert them into customers.

- You earn **50% on the amount of all sales** of systeme.io and our courses **before tax.**

- **This is a lifetime affiliation**, so the contacts you send are marked in our database with your affiliate ID. Even if they don't buy anything for 6 months or a year later, you will still earn commissions on their purchases.

Note: Our affiliate program works on the **last cookie**. If another affiliate refers the same lead with their affiliate ID after you do, they'll get credit for the sale.

However, you will still get commissions for the subscriptions that were bought using your affiliate link.
